

Craig,

I am writing to express my concern about our neighborhood's city council district. I think it is important that our neighborhood (Highland Park West; we live at 3604 Arrowhead Drive) stays with Tarrytown/Balcones Park in the current District 10 as we are very central and older as a development just as they are.

We do not want to get moved back with neighborhoods farther west and north that are newer developments; we would much rather be in a district with neighborhoods that are older and more central that share our concerns re: traffic, MoPac development, etc.

Thanks,

Holly Scofield
