

Thank you for your service on this historic effort. I really appreciate your work and all you have done to listen to the community.

As you wrap up your decisions next week, I would like your re-consideration for the placement of the Barton Creek Greenbelt and Zilker neighborhoods. I feel that they fit better in District 5 INSTEAD of District 8. Because of Zilker park events like the ACL, Trail of Lights and fire/crime prevention in the Greenbelt, they are much more a part of the community of interest for those of us in Barton Hills neighborhood and adjacent areas in District 5. Right now, as you have the map laid out, the Greenbelt and park sit in a district that would be represented by interests of OakHill and parts farther south/west of town. I want to make sure that our soon-to-be-elected district 5 council person can best represent our interests in decisions regarding Zilker park and greenspace around the Barton creek.

Specifically, *please move the park and greenbelt from District 8 to District 5 by moving precincts 307, 356, and part of 364 into District 5.* To offset the population reduction to District 8, you can move Precinct 309, or another suitable precinct in District 5, into District 8.

Again, thank you for your service. I look forward to the final map and moving our community forward.

*Regards,*

*Cherylann Occhipinti Campbell*
