

As I understand the new districts, Zilker Park and part of the Barton Creek Greenbelt are in Oak Hill's District 8. Being 10+ miles from the Park, I don't think they have ever heard ACL music or any other festival from their front porch. Or dealt with pedestrian and auto traffic during all the festivals and events or the fire hazards in the greenbelt. My house in Barton Hills District 5 house is between 1/2 and 1 mile from the Park and Greenbelt. We are a community of interest—very interested. Please move the park and greenbelt from District 8 to District 5. What about the population disparity you say? Ah, move precincts 307, 356, and part of 364 into District 5. To offset the population reduction to District 8, you can move Precinct 309, or another suitable precinct in District 5, into District 8. That's what I have been told.

Piece of cake. Thanks, Janice Godwin
