

Commissioners:

As a part of the 10-1 process there are 2 final documents from the Applicant Review Panel that were instrumental in the formation of the ICRC Commission. I would like to recommend that you include them in their entirety in your final report, possibly in an appendix, so that those responsible for this process only 8 years from now will have them at easy access with your final report. They are attached here and the links follow:

The Applicant Review Panel did an outstanding job, and their original work should carry on.
