Boards and Commission Action:

Related Items:

MBE / WBE:

This contract will be awarded in compliance with City Code Chapter 2-9A (Minority Owned and Women Owned Business Enterprise Procurement Program) by meeting the goals with 70.85% MBE Prime participation, and 10.46% MBE and 2.79% WBE subcontractor participation.

Additional Backup Information

As part of the City's ongoing effort to comply with the directives of the Federal Americans with Disabilities Act (ADA), the Public Works Department has developed an efficient and cost-effective method for sidewalk and curb ramp construction. The City recognizes that improved and expanded pedestrian facilities are a frequently requested infrastructure improvement from the public. The projects proposed for construction under this initiative will be funded through 2012 Bond ADA Sidewalk Funding.

The construction method chosen to deliver the initiatives is an Indefinite Delivery/Indefinite Quantity (IDIQ) contract. The IDIQ contracts include engineered details; specifications; project locations currently identified; and estimated total quantities of work. As each project location is further defined, a specific work assignment is given to the contractor and the scope of work completed for the unit prices is included in the contract. This contracting method allows flexibility in adding projects based on priorities designated by the City.

The contract allows 365 working days for project completion; however, each work assignment must be completed within the specific period established for each assignment.

The project is located in various zip codes throughout the City and is managed by the Public Works Department.

Muniz Concrete & Contracting, Inc., is located in Austin, TX
