

AGENDA

Recommendation for Council Action (CMD)

Austin City Council	Item ID:	29255	Agenda Number	14.
Meeting Date:	December 12, 2013			
Department:	Contract Management			
Subject				
Authorize negotiation and execution of an amendment to the professional services agreement with KBR/RPS Espey Joint Venture for engineering services related to coordination of the Waller Creek Tunnel Program with the Waller Creek Conservancy Design in the amount of \$600,000 for a total contract amount not to exceed \$850,000.				
Amount and Source of Funding				
Funding in the amount of \$344,440 is available in the Fiscal Year 2013-2014 Capital Budget of the Watershed Protection Department. Funding in the amount of \$255,560 is available in the Fiscal Year 2013-2014 Capital Budget of the Parks and Recreation Department.				
Fiscal Note				
A fiscal note is attached.				
Purchasing Language:				
Prior Council Action:	February 14, 2013 - Council authorized negotiation and execution of a professional services agreement with KBR/RPS Espey Joint Venture for engineering services related to coordination of the Waller Creek Tunnel Program with the Waller Creek Conservancy Design for \$250,000.			
For More Information:	Gary Jackson, 512-974-7115; Lucy Bonee, 512-974-7967; Joe Pantalion, 512-974-3438; Marty Stump, 512-974-9460; Lacy Kuslo, 512-974-7141.			
Boards and Commission Action:				
Related Items:				
MBE / WBE:	This contract was awarded in compliance with City Code Chapter 2-9B (Minority Owned and Women Owned Business Enterprise Procurement Program). No subcontracting opportunities were identified; therefore, no goals were established for this solicitation.			

Additional Backup Information

The Waller Creek Tunnel Program team has been coordinating with Michael Van Valkenburg and Associates (MVVA) to evaluate possibilities for modifying the ongoing Waller Creek Tunnel Program projects to accommodate aspects of the MVVA design. The Public Works Department (PW) contracted with KBR/RPS Espey Joint Venture (JV) to coordinate the Waller Creek Tunnel Program with the Waller Creek Conservancy Design and to evaluate potential changes to the tunnel projects. The initial contract covered coordination and scoping activities and focused on identifying and describing potential opportunities for modifications. The following opportunities for modifications have been identified:

- Modify site grading plan to use available fill material
- Deletion of the tiered wall system on the western edge of the inlet pond and extension of the concrete panel MSE wall including casings for micro-piles and flow vane.
- Modifications to the grading and installation of an MSE wall extending from the southwest corner of the building to support the proposed fill adjacent to the building.
- Removal of the lower walk and staircase located on the west side of the creek and removal of the path leading from Red River Street across the wetland pond extending to the lower walk.
- Re-grading and landscaping changes along the east side of the creek and pond and treatment of water quality. May include low height retaining walls and footings for a future boardwalk.
- Replacement of the current roof design with a green roof system.
- Replacement of hand rails included in the current roof design with a wall design.
- Changes to the building façade.

This amendment will cover engineering design services for these modifications as well as continued coordination with MVVA and the Waller Creek Conservancy. It will also cover permit revisions and/or corrections that will be required for these changes. The subconsultant team from the original JV design contract will participate in this work.

This project is managed by the Public Works Department.

This amendment has been approved by the City's Change Control Committee.

KBR/RPS Espey Joint Venture is located in Austin, Texas.
