Additional Backup Information

The City of Austin maintains a rotation list of professional construction inspection firms to provide inspection services for small to medium sized projects of a general or routine scope, and for projects having a critical or emergency schedule which would preclude going through the normal individual project Request for Qualifications (RFQ) selection process.

The total funding authority for the 2013 Construction Inspection Services Rotation List is \$2,000,000 with the authority for each of 3 firms to be approximately \$666,666.

This request allows for the development of a professional services agreement with each of the 3 staff recommended firms for an estimated period of 3 years or until financial authorization is expended. Initial project assignments will be based on the firm's final ranking as determined during the RFQ evaluation (highest to lowest), the maximum cumulative contracted amount in comparison to the estimated task budget for that firm, and the firm's qualifications and availability of expertise at time of project need. If the City is unsuccessful in negotiating a satisfactory agreement with a recommended firm(s), if a selected firm ceases practice during the contract period, or if the City elects to terminate its agreement with one of the selected firms, the remaining assignments will be assigned to the remaining firm(s) for the duration of the contract period.

No M/WBE goals were established for this solicitation.

Notification of issuance of a RFQ for the subject services was sent to 1277 firms on June 25, 2013. The RFQ was obtained by 126 firms, and 18 firms submitted qualification statements. Twelve (12) of the firms were certified M/WBE firms.
