**Additional Backup Information**

The Cascades at Onion Creek annexation area (approximately 136 acres) is located in southern Travis County east of IH 35 South approximately four tenths of a mile south of the intersection of IH 35 South and Onion Creek parkway. This area is currently in the city's extraterritorial jurisdiction ("ET") and is adjacent to the city's full purpose jurisdiction on the north sides of the tracts. This area is currently undeveloped and the developer's plans for this site include a mixed-use project including single and multi-family residential and commercial land uses. Approximately 41% of the proposed Cascades at Onion Creek subdivision (C8j-2007-0130.03) is already in the city's full purpose jurisdiction. In early 2013 the developer filed a petition requesting City consent to MUD creation. Council is also scheduled to consider the request for consent to create a MUD on February 13, 2013. If MUD consent is not granted as requested, this annexation will bring the remainder of the proposed subdivision into the city's full purpose jurisdiction.
