

BOARD/COMMISSION RECOMMENDATION

Zero Waste Advisory Commission

Recommendation Number: (20140409-004d): Sanitary Requirements for Food Trucks

WHEREAS Austin's Zero Waste Plan calls for all restaurants, including food trucks, to provide for composting and recycling; and

WHEREAS mobile food truck vendors and brick and mortar restaurants are key economic drivers and tourism destinations for Austin; and

WHEREAS Austin's Land Development Code is being rewritten and will eventually give permanent direction to mobile food truck vendors on recycling and composting rules; and

WHEREAS a simple language change in the Health Code would allow mobile food truck vendors the ability to comply with the Universal Recycling Ordinance by offering on-site recycling and composting while the permanent Land Development Code is being finalized; and

WHEREAS the current health code makes it difficult for many food trucks to offer composting or recycling services for their employees or guests; and

WHEREAS this issue can be addressed simply and easily by removing conflicts within Austin's code;

NOW, THEREFORE, BE IT RESOLVED;

That the Zero Waste Advisory Commission recommends that the Austin City Council update its code to reflect the attached code revisions as quickly as possible.
