Additional Backup Information

On March 19, 2013, a 6-month requirements service contract was executed with Liberty Tire Recycling, LLC for removal and proper disposal of City-owned scrap tires from the City's Tire Shop. Liberty Tire Recycling is registered with the Texas Commission on Environmental Quality (TCEQ) as a transporter, scrap tire facility, storage facility, and processor. Contracting with Liberty Tire Recycling ensures that City scrap tires go directly to the final disposer and are disposed of in an environmentally friendly manner.

Austin Resource Recovery department requested to be added to the contract to cover the recycling of tires received from Austin residents during collection activities. Austin Resource Recovery was added to the contract administratively in April 2013, but lacked an adequate funding amount needed to recycle the amount of tires collected from the Austin residents. This contract Amendment is a request to add the necessary funding level for proper tire disposal.
