

ORDINANCE NO.

AN ORDINANCE GRANTING VARIANCES FOR PROPERTY LOCATED AT 5505 JIM HOGG AVENUE FROM CERTAIN FLOODPLAIN REGULATIONS PRESCRIBED BY THE CITY CODE FOR CONSTRUCTION OF A SINGLE FAMILY RESIDENCE AND SECOND DWELLING UNIT IN THE 25- AND 100-YEAR FLOODPLAINS; ESTABLISHING CONDITIONS FOR THE VARIANCES; AND PROVIDING AN EXPIRATION DATE FOR THE VARIANCES.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. This ordinance applies to the construction of a single family residence and a second dwelling unit at 5505 Jim Hogg Avenue within the 25- and 100-year floodplains as described in Building Permit application number 2013-067257 PR.

PART 2. Council has considered the factors for granting a variance from floodplain regulations prescribed by City Code Section 25-12-3, Building Code Appendix G, Section G105.7 (*Conditions for Issuance*). Council finds that the variances granted by this ordinance are the minimum necessary to afford relief, are based on good and sufficient cause, and failure to grant the variance would result in exceptional hardship. Council further finds that the variances granted in this ordinance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create a nuisance, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

PART 3. A variance is granted from:

- (A) the restriction on construction in the 25-year and 100-year floodplains prescribed by City Code Section 25-7-92 (*Encroachment On Floodplain Prohibited*);
- (B) the easement requirements in City Code Section 25-7-152 (*Dedication of Easements and Rights-of-Way*), to exclude the footprint of the single family residence and second dwelling unit from the requirement to dedicate an easement to the limits of the 100-year floodplain;
- (C) the requirement that normal access to the building be by direct connection with an area at least one foot above the design flood elevation, prescribed by City Code Section 25-12-3, Building Code Section 1612.4.3 (*Means of Egress*); and

- 1 (D) the requirement that a non-conforming use not be expanded, changed, or
2 altered in a way which increases its nonconformity, and the requirement that
3 a non-conforming use conform with floodplain regulations if substantial
4 improvement is made, prescribed by City Code Section 25-12-3, Building
5 Code Section G102.3 (*Nonconforming Uses*).

6 **PART 4.** The variances granted in this ordinance are effective only if the applicant
7 meets the following conditions:

- 8 (A) The applicant shall dedicate an easement to the City as required by City
9 Code Section 25-7-152 to the limits of the 100 year floodplain, excluding the
10 single family residence and second dwelling unit. The City may not issue a
11 Certificate of Occupancy for the single family residence and second
12 dwelling unit until the applicant submits all information and documentation
13 necessary for the easement, and the easement as approved by the City
14 Attorney is filed by the applicant in the Official Records of Travis County,
15 Texas.
- 16 (B) The applicant shall submit a completed Elevation Certificate certifying the
17 elevation of the finished floor of the single family residence and second
18 dwelling unit, signed by a professional land surveyor, engineer or architect
19 authorized by law to certify elevations, before the City may issue a
20 Certificate of Occupancy for the building.
- 21 (C) The applicant shall submit a certification by a registered design professional
22 certifying that the proposed development will withstand the flood forces
23 generated by the 100-year flood and that the design is in accordance with the
24 latest edition of the ASCE 24-05 before the City may issue building permits
25 for the single family residence and second dwelling unit.
- 26 (D) The applicant shall submit a certification by a Texas registered professional
27 engineer that the proposed development will not cause any increase in the
28 level of the design flood before the City may issue building permits for the
29 single family residence and second dwelling unit.
30

31 **PART 5.** This variance expires if the project for which this variance is granted does not
32 receive a Building Permit before April 28, 2015.

33 **PART 6.** Approval of this variance does not constitute approval of zoning, subdivision,
34 a site plan, a building permit, or any other development permit, and it does not constitute
35 a commitment to any particular land use, intensity of land use, or utility services.

1 Approval of this variance does not constitute a guarantee of flood insurance availability,
2 rates, or requirements.

3 **PART 7.** This ordinance takes effect on_____, 2014.
