Comments:

I understand the proposed development would be located between several tracts of land already in an established residential neighborhood. The proposed rezoning for development purposes is not within the character of a residential neighborhood. Furthermore, I fail to see how this would enhance the aesthetics of an existing neighborhood or protect trees and wildlife habitat in the area.

Additional concerns and objections would be the loss of privacy to individuals, increased noise levels disruptive to the area and the adverse visual impact of a development basically located in residents back yard. I believe this would also decrease residents' property values.
