100 YEAR FLOODPLAIN PLANICIE DE INUNDACIÓN 100 AÑOS

100 YEAR FLOODPLAIN ORGANIZACIÓN DE PLANICIE DE INUNDACIÓN

FLOODPLAIN DEFINITION

Depending on how much rain there's been, Austin's creeks may be bone dry, gently flowing with water or a raging torrent. The floodplain is the area of land that is likely to be under water when the creek rushes over its banks. In a sense, the floodplain is the full extension of the creek.

The 100-year floodplain is the land that is predicted to flood during a 100-year storm, which has a 1% chance of occurring in any given year. You may also hear the 100-year floodplain called the 1% annual chance floodplain or base flood. Areas within the 100-year floodplain may flood in much smaller storms as well. The 100-year floodplain is used by FEMA to administer the federal flood insurance program and the City of Austin to regulate development.

DEFINICIÓN DE PLANICIE DE INUNDACIÓN

Dependiendo de la cantidad de lluvia que haya habido, arroyos de Austin pueden ser completamente secos, fluir suavemente con agua o ser una torrente furiosa. La planicie de inundación es el área de tierra que es probable que sea bajo el agua cuando el arroyo se precipita sobre sus orillas. En cierto sentido, la planicie de inundación es la extensión completa de la quebrada.

La planicie de inundación de 100 años es la tierra que se prevé que las inundaciones durante una tormenta de 100 años, que tiene un 1% de probabilidad de ocurrir en cualquier año dado. Usted también puede oír la planicie de inundación de 100 años llamada la planicie de inundación probabilidad anual de 1% o inundación base. Las áreas dentro de la zona de inundación de 100 años pueden inundar en las tormentas más pequeñas también. La planicie de inundación de 100 años es utilizado por FEMA para administrar el programa de seguro federal contra inundaciones y la ciudad de Austin para regular el desarrollo.

SWA

PUBLIC MEETING BOARDS

The following set of images were the exhibit boards that were presented at the public meeting held in March.

These boards in addition to a presentation from SWA helped focus discussion about Onion Creek Metropolitan Park's future.

The team also made these boards available to the public online as part of the public input process.

WHAT CAN ONION CREEK METRO PARK BECOME? ¿QUÉ PUEDE LLEGAR A SER ONION CREEK METRO PARK?

ABOUT THE MASTER PLAN

Answering the question, "What can OCMP become?" is the central focus of the Onion Creek Metro Park Master Plan (OCMP). Based on input from residents, community leaders and city planners, a master plan will be developed for the 555-acre regional park. The master planning process is being conducted in two phases and will take into account input from nearby residents, as well as the general public.

PHASE 1 - Vision Statement

PHASE 2 - Draft and Final Master Plan

The regional park master plan may include ideas for:

- improvements to open spaces and onion creek
- accessible trails for walking, running, or biking
- dog parks
- equestrian activities
- ball fields
- areas in the park for gatherings.
- recreation or multi-entertainment facilities
- exercise areas
- educational opportunities
- other ideas

The Austin Parks Foundation is leading the planning process in collaboration with the City of Austin Parks and Recreation Department.

The Master Plan is expected to be completed by the summer of 2015.

SOBRE EL PLAN MAESTRO

Respondiendo a la pregunta: "¿Qué puede llegar a ser OCMP?" es la meta central del Plan Maestro de Onion Creek Metro Park (OCMP). Con base en las aportaciones de los residentes, líderes comunitarios y planificadores de la ciudad, un Plan Maestro se desarrollará para el parque regional de 555 acres. El proceso de planificación se llevara a cabo en dos fases y tomara en cuenta las aportaciones de los residentes cercanos, así como las del público en general.

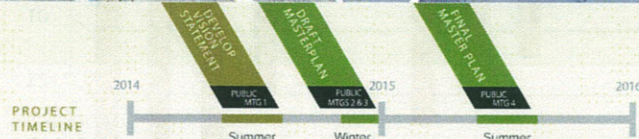

Fase 1 - Desarrollar Declaración de Visión

Fase 2 - Preparar Plan Preliminar y Plan Maestro final

El Plan Maestro del parque regional puede incluir ideas para:

- mejoramientos de espacios al aire libre y Onion Creek
- senderos accesibles para caminar, correr o andar en bicicleta
- parques para perros
- actividades ecuestres
- campos deportivos
- áreas en el parque para reuniones
- instalaciones de recreación o de entretenimiento múltiple
- áreas de ejercicio
- oportunidades educativas
- otras ideas.

La fundación Austin Parks Foundation está dirigiendo el proceso de planificación en colaboración con el Departamento de Parques y Recreación de la Ciudad de Austin. Se espera que el Plan Maestro esté terminado para el verano de 2015.

PHASE 1

Vision Statement

Outlines the overall direction for the park Master Plan

PHASE 2

Draft & Final Master Plan

Defines programs, specific improvements and phases for the development of the Master Plan

VISION STATEMENT

IS A GENERAL OUTLINE FOR WHAT THE PARK WILL BE BASED ON STAKEHOLDER INPUT.

PROVIDES A SITE INVENTORY AND ANALYSIS OF ENVIRONMENTAL OPPORTUNITIES AND CONSTRAINTS.

COMPARES PROJECTS OF SIMILAR SIZE, CONTEXT, AND USER DEMOGRAPHICS.

ESTABLISHES PARK CHARACTER RELATIVE TO ECOLOGY, HISTORIC AND CULTURAL SIGNIFICANCE, ANTICIPATED USERS, ECONOMICS, AND LONG TERM MAINTENANCE.

INFORMS A MASTER PLAN WHERE PLANNERS WILL INCORPORATE HIGHLY DEVELOPED DESIGN SOLUTIONS FOR LANDSCAPE TYPES, ACTIVITIES, AND PROGRAMMING NEEDS RELATIVE TO SITE SPECIFIC FORM, FUNCTION, COST, AND PHASING.

DECLARACIÓN DE VISIÓN

ES UN ESQUEMA GENERAL PARA LO QUE EL PARQUE SERA BASADO EN LAS APORTACIONES DE LAS PARTES INTERESADAS.

PROPORCIONA UN INVENTARIO Y ANÁLISIS DE LAS OPORTUNIDADES Y LIMITACIONES AMBIENTALES DE LA LOCALIDAD DEL PARQUE.

COMPARA PROYECTOS DE SIMILAR TAMAÑO, CONTEXTO Y DEMOGRAFÍA DE USUARIOS.

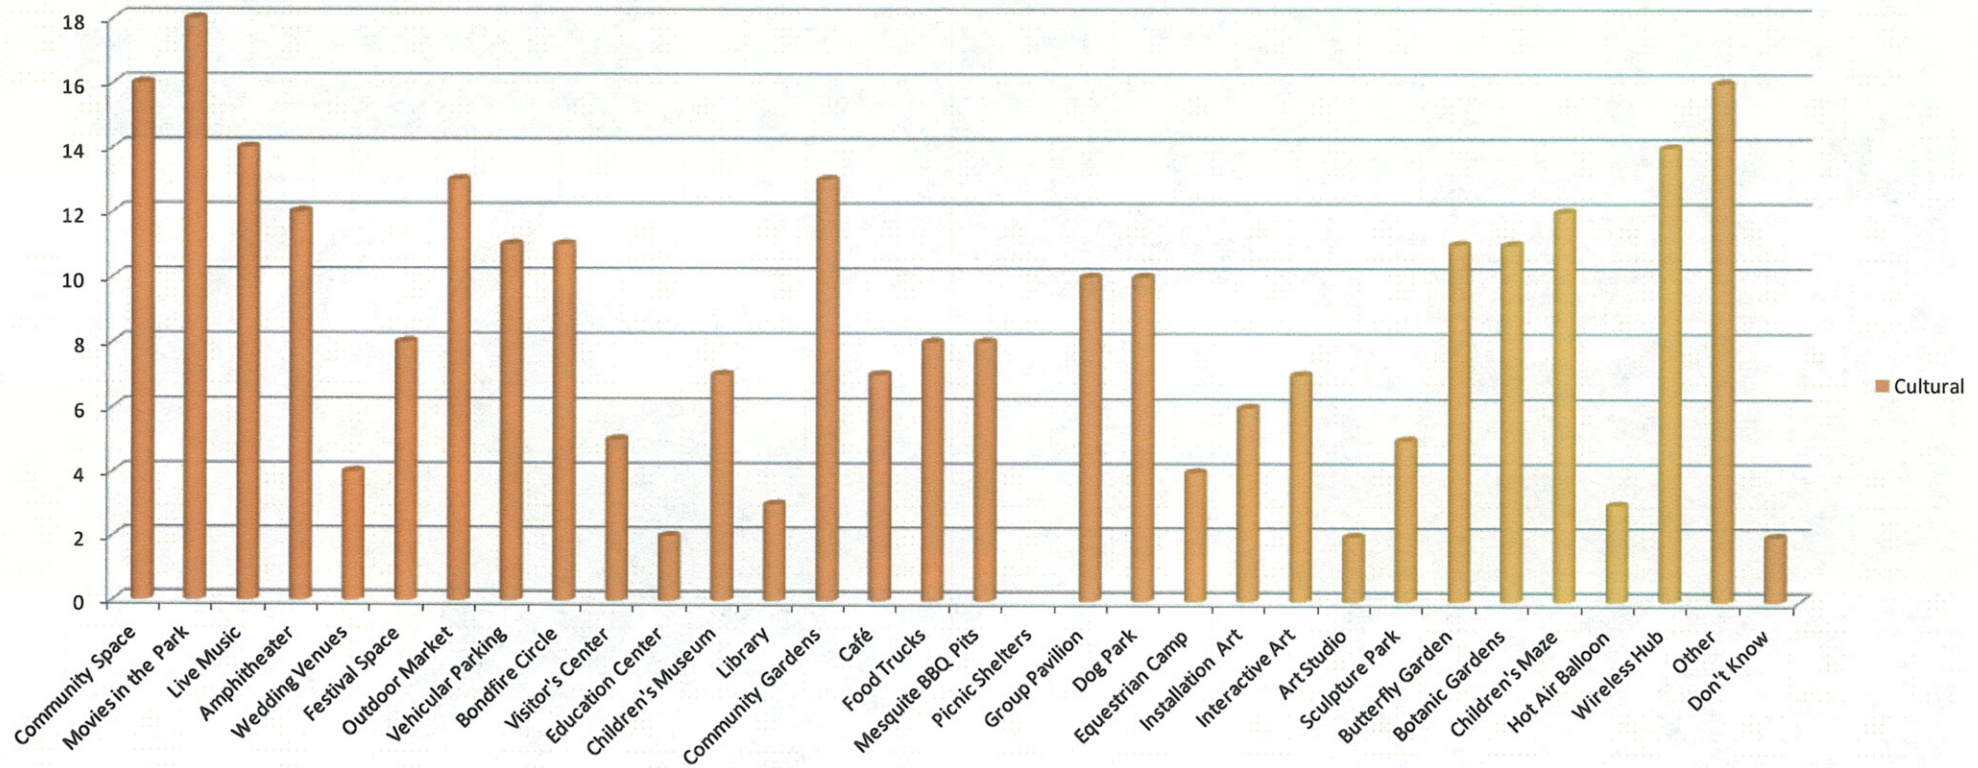

ESTABLECE EL CARÁCTER DEL PARQUE RELATIVO A LA ECOLOGÍA, IMPORTANCIA HISTÓRICA Y CULTURAL, LOS USUARIOS ANTICIPADOS, LA ECONOMÍA Y EL MANTENIMIENTO A LARGO PLAZO.

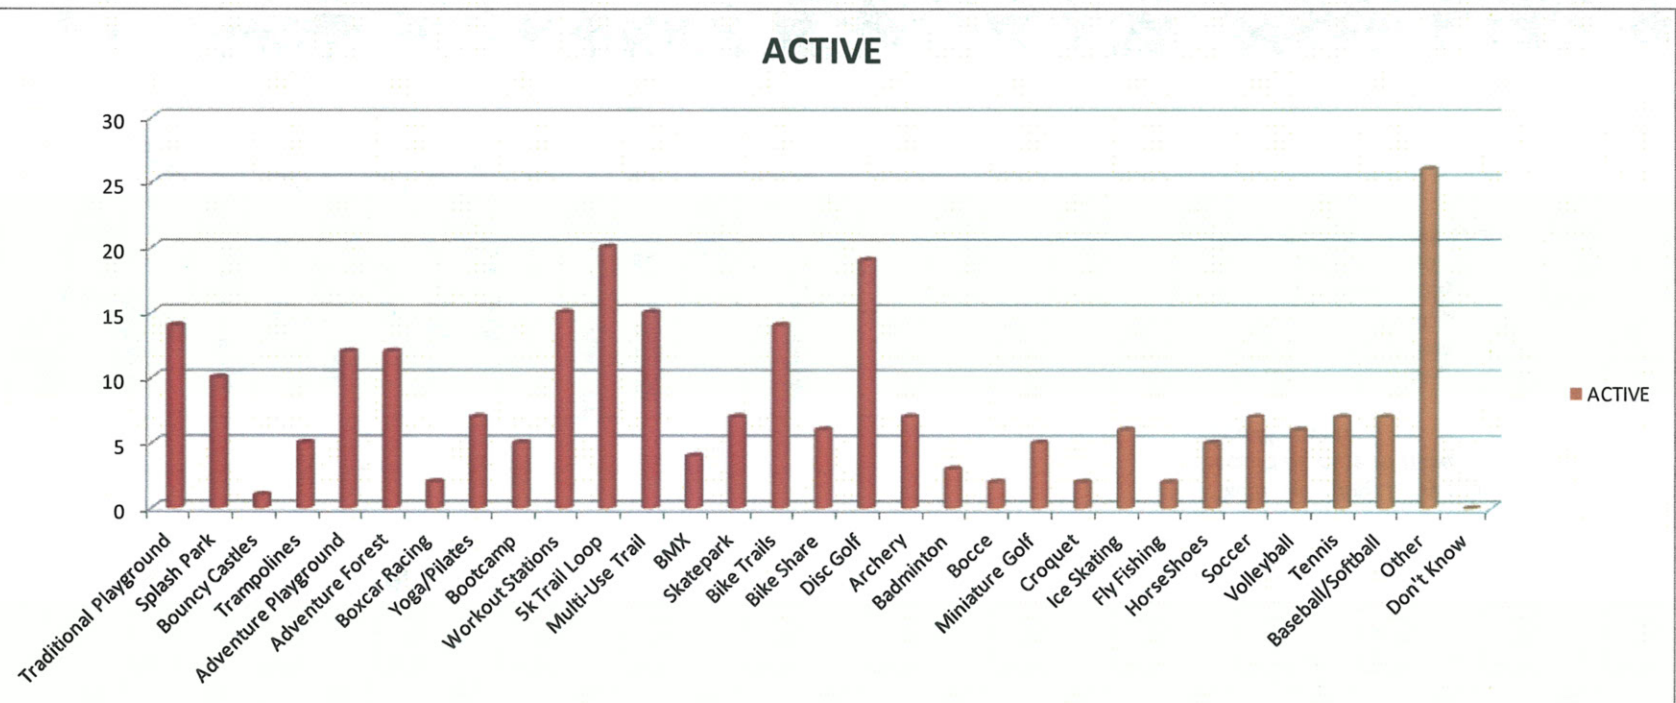

INFORMA UN PLAN MAESTRO DONDE LOS PLANIFICADORES INCORPORARÁN SOLUCIONES DE DISEÑO ALTAMENTE DESARROLLADAS PARA TIPOS DE PAISAJES, ACTIVIDADES Y NECESIDADES DE PROGRAMACIÓN EN RELACIÓN CON LA FORMA, USO, FUNCIÓN, COSTO Y FASES.

PUBLIC FEEDBACK

"Would love to see a place that integrates all the above selected items to create a natural play environment while using old tires to create children friendly interactive activity areas"

"Carport like open sided structures for picnics, a playscape, bathrooms and maybe a small amphitheater, pavilion or gazebo for free live music/shows should be the maximum for structures replacing any homes demolished, Overall, the park should have fewer structures as homes are demolished, not more. A mix of wild and maintained spaces should connect visitors with nature instead of things man-made. would love a beginner and intermediate disc golf courses"

"With the aging baby boomer population it would be nice to have some sort of senior activity center."

"Parkour is a way to get all ages involved in being active, learning new skills, challenging oneself, building a strong supportive community, getting kids involved in something that will build self esteem and confidence."
