

PUBLIC SAFETY COMMISSION RECOMMENDATION 20140602-03C

June 2, 2014

Subject: FY14-15 Budget Recommendation

Recommendation

The Public Safety Commission has serious concerns about the current public safety forecasts in that they do not address long existing and emerging needs. Therefore we recommend the following to the Austin City Council:

- 1) All special events pay their own way in terms of their use of public safety services
- 2) The 911 call center be adequately staffed to meet the needs per the forthcoming report
- 3) Weaknesses and needs that were exposed by the Halloween flooding such as the need for additional boats for the Austin Fire Department be addressed in the City's final FY14-15 budget

Vote

The FY14-15 Budget Recommendation was approved unanimously on Chair Rossmo's motion and Commissioner Lauderdale's second.

Absent: Commissioner Ko and Commissioner Anschutz

Attest:
