Re: St. David's Foundation Bldg/ 13th and San Antonio

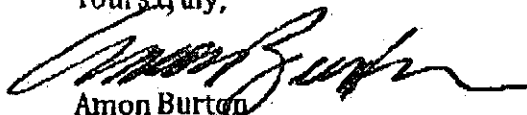

Dear Laura:

My wife, Carol, and I own the property at 1306 Guadalupe and previously filed an objection to the building that the St. David's Foundation plans to build at 13th Street and San Antonio Street because of proposed encroachments into the public right of way.

I met today at the site with Jim Reiss of the Foundation and their architect, Robert Byrnes. I reviewed the plans in relation to the specific site and am now satisfied that the way the proposed encroachments are designed will not create a problem. Therefore, Carol and I want to withdraw the objections we made to this project going forward.

Thank you for being so diligent in considering our concerns.

Yours truly,

Amon Burton
