Recommendation for Council Action (Purchasing)

Austin City Council

Item ID:

33765

Agenda Number

50.

Meeting Date:

June 26, 2014

Department:

Purchasing

Subject

Authorize award, negotiation, and execution of a 36-month requirements service contract with INNOVYZE, INC. for hydrologic and hydraulic modeling software, training, and maintenance for the Watershed Protection Department in an amount not to exceed \$66,825.

Amount and Source of Funding

Funding in the amount of \$16,975 is available in the Fiscal Year 2013-2014 Operating Budget of the Watershed Protection Department. Funding for the remaining 33 months of the contract period is contingent upon available funding in future budgets.

Fiscal Note

There is no unanticipated fiscal impact. A fiscal note is not required.

MBE / WBE:

This contract will be awarded in compliance with City Code Chapter 2-9C (Minority-Owned and Women-Owned Business Enterprise Procurement Program). No subcontracting opportunities were identified; therefore, no goals were established for this contract.

Additional Backup Information

This contract with Innovyze, Inc., Arcadia, CA, is for the continuation of maintenance and support for hydraulic modeling software, training, and maintenance including additional modules for the Watershed Protection Department (WPD). WPD's Master Plan identified the high priority need to reduce the impacts of flooding to Austin's citizens.

WPD is tasked with identifying localized and creek flooding issues and developing solutions to mitigate the flooding. Innovyze's InfoWorks two-dimensional (2D) analysis has been used since 2010 to better quantify the extent of localized flooding in an area through stormwater conveyance system analysis. This contract will provide the required annual software maintenance for the existing software licenses and allow for the purchase of additional licenses when funding is available during the term of the contract.

Innovyze Inc. is the manufacturer and the sole provider of maintenance, support, and enhancements to this proprietary software.
