

ZONING CHANGE REVIEW SHEET

CASE: C814-97-0001.11

P.C. DATE: May 27, 2014

(Leander Rehabilitation Planned Unit Development Amendment #12)

ADDRESS: North F.M. 620 Road

APPLICANT/OWNER: Austin 129, LLC

AGENT: Metcalfe Wolff Stuart & Williams (Michele R. Lynch)

ZONING FROM: PUD

TO: PUD

AREA: 14.101 acres

The applicant is requesting to amend the Leander Rehabilitation Planned Unit Development (PUD) to request a decrease in the amount of parking spaces required on parcels CRE-8 and CRE-9 by 6.1%. Therefore, the applicant is requesting to revise the Land Use Plan (Exhibit "A") to include a note to permit parcels CRE-8 and CRE-9 to comply with Land Development Code Section 25-6-611, Parking Requirements for a Transit Oriented Development District.

SUMMARY STAFF RECOMMENDATION:

The staff's recommends the proposed 12th amendment to the Leander Rehabilitation PUD.

PLANNING COMMISSION RECOMMENDATION:

5/27/14: Approved staff's recommendation to approve the 12th amendment to the Leander Rehabilitation PUD on consent (8-0, J. Nortey-absent); R. Hattfield-1st, N. Zaragoza-2nd.

DEPARTMENT COMMENTS:

The property in question is undeveloped and moderately vegetated. To the north of the Leander Rehabilitation PUD, there are single-family residential uses under development within the Avery Ranch PUD. The property to the east of the PUD is bounded by the Southern Pacific Railroad and consists of the recently approved Lakeline Station PUD, which is currently undeveloped agricultural land. There are research and development facilities and a greenbelt to the southeast along Spectrum Drive and single family residences along Rutledge Spur. To the west of the PUD there are state offices for the Texas Department of Transportation (TXDOT), office uses at the southeast corner of Lakeline Boulevard and North Lake Creek Parkway, and undeveloped tracts of land along North Lake Creek Parkway. The property to the south of the PUD is right-of-way area that was recently expanded for the S.H. 45 Westbound tollway (North F.M. 620 Road).

In this proposed amendment, the applicant is asking to revise conditions as they apply to only parcels CRE-8 and CRE-9, which are in the southeastern portion of the PUD between Lakeline Mall Boulevard and F.M. 620 Road. The staff recommends the applicant's request to decrease in the amount of parking spaces required on parcels CRE-8 and CRE-9 by 6.1%. This request is consistent with the goals of the Northwest Park and Ride Transit Oriented Development (TOD). The TOD allows for a 40% reduction in the parking per Land Development Code Section 25-6-611. However, while the Northwest Park and Ride TOD overlay covers the Leander Rehabilitation PUD area, the PUD is exempt from the regulations

of the TOD. Therefore, the applicant is requesting an amendment to the PUD that would be in line with the goals of the TOD.

The applicant agrees with the staff's recommendation.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	PUD (Leander Rehabilitation PUD)	Undeveloped
<i>North</i>	PUD (Avery Ranch PUD)	Undeveloped

STAFF RECOMMENDATION

The staff's recommends the proposed 12th amendment to the Leander Rehabilitation PUD.

BASIS FOR RECOMMENDATION

- 1. The Planned Unit Development District (PUD) is intended for large or complex developments under unified control planned as a single contiguous project. The PUD is intended to allow single or multi-use projects within its boundaries and provide greater flexibility for development proposed within the PUD.*

The proposed 12th amendment to the Leander Rehabilitation PUD is a request to change to the First Board Order and the attached land use plan of the Leander Rehabilitation PUD to allow parcels CRE-8 and CRE-9 to comply with transit oriented development (TOD) parking regulations in the Code. Land Development Code Section 25-6-611 allows for a 40% reduction in the parking. However, while the Northwest Park and Ride TOD overlay covers the Leander Rehabilitation PUD area, the PUD is exempt from the regulations of the TOD. Therefore, the applicant is requesting an amendment to the PUD that would be in line with the goals of the TOD.

Existing Land Use

The property in question is part of an existing PUD that consists of 446.40 acres of land located to the north of the recently expanded S.H. 45 Westbound Toll Road (North F.M. 620). The site is bounded by the Avery Ranch PUD to the north, the Southern Pacific Railroad and Rutledge Spur Road to the east, the S.H. 45 Westbound Toll Road (North F.M. 620 Road) to the south, and the Texas Department of Transportation Cedar Park Campus, developing office uses, and undeveloped Tracts along North Lake Creek Parkway to the west. The parcels under consideration are currently undeveloped.

Comprehensive Planning

This PUD amendment request is part of the Leander Rehabilitation Center PUD, which is a 446.4 acre project. This particular amendment only concerns a 14.1 acre portion of this project and the request is to reduce the amount of parking for a proposed 419 multifamily apartment complex (the required parking is 647 spaces and the request is to reduce the number of space by 42 spaces; or a 6.1% parking decrease.) This property is within the boundaries of the Regional Center surrounding Lakeline Mall in north Austin, and the existing Northwest Park and Ride Transit Oriented Development (TOD). Surrounding land uses include a variety of hotels, offices, retail shops, restaurants, and vacant land.

Imagine Austin

The site is located over the Edwards Aquifer Recharge Zone, as identified on the Imagine Austin's Environmental Resources Map, found in the Image Austin Comprehensive Plan (IACP). An aquifer contributing zone is an area where runoff from precipitation flows to the recharge zone of an aquifer. Streams in the contributing zone flow downstream into the recharge zone and "contribute" water to the aquifer.

Conclusion

The request to change the required amount of parking for a proposed apartment complex relative to the scale of this large PUD project falls below the scope of Imagine Austin, which is broad in

scope, and consequently the plan is neutral on the proposed rezoning. However, due to the site's location over the Edwards Aquifer Recharge Zone, which is an environmentally sensitive area, there will be during the site planning stage if this property is redeveloped, an environmental review to determine if any critical environmental features are located on the site. If any are located on the site, mitigation and setbacks necessitated by the land development code will be required.

Environmental

No EV review comments.

Impervious Cover

This project is located at NFM 620 RD and is within the South Brushy Creek watershed(s), which are classified as Suburban Watershed. This project is located within the Edwards Aquifer Contributing Zone.

Site Plan

No comments received.

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program, if available.

Transportation

The site is within the area covered by State legislation (S.B. 1396), which went into effect September 1, 1995. Under this legislation, the City may not "deny, limit, delay, or condition the use of development of land...because of traffic or traffic operations that would result from the proposed use or development of the land." A traffic impact analysis is not required for any development within this area, and traffic issues may not be considered in the approval of the application. Right-of-way dedication, however, may still be required.

The Transportation Review Section has no objections to the proposed PUD Amendment.

Water and Wastewater

Per the amendment summary letter received by e-mail this PUD amendment is to reduce parking space requirements. AWU has no comment.

CASE 1

12. THE MINIMUM OFF-STREET PARKING REQUIREMENT FOR CRE-B & CRE-B IS PRESCRIBED BY CITY CODE SECTION 25-4-611

METCALFE WOLFF
STUART & WILLIAMS, LLP

Via Hand Delivery

April 4, 2014

Mr. Greg Guernsey
Planning and Development Review Department
City of Austin
505 Barton Springs Road, 5th Floor
Austin, Texas 78704

Re: Proposed 12th Amendment to the Leander Rehabilitation PUD (Case No. C814-97-0001.11); 14.101 acres located at RR 620, Austin, Texas 78729 (the "Property").

Dear Mr. Guernsey:

As representatives of the prospective owner of the above referenced Property, we respectfully submit the attached Application for Zoning Amendment. The Property is located at RR 620, Austin, Texas 78729 (see Location Map attached). The Property is part of an approved Planned Unit Development known as the Leander Rehabilitation PUD (C814-97-0001; the "PUD"). The PUD encompasses 446.4 acres of land. A map is attached to this letter showing the location of the PUD. The Property is known as CRE-8 & CRE-9 within the PUD and is comprised of 14.101 acres. The Property is currently undeveloped. The remaining areas of the PUD are not included in this request to amend the PUD. The proposed 12th amendment to the PUD will allow for development of a 419 unit multifamily project on the Property.

Leander Rehabilitation PUD and Proposed Amendment

The PUD was created by the First Order of the Special Board of Review regarding the Leander Rehabilitation PUD dated January 16, 1998, Doc. No. 9802790 ("First Order"). The First Order was amended by a Second Order (Doc. No. 9815646) and a Third Order (Doc. No. 2010065204).

The First Order was the only document that regulated parking. Section 12 of the First Order states "All development within the Leander Rehabilitation PUD may use the parking standards set forth in Section 13-5-100 of the City Code. If Section 13-5-100 is modified, the Developer may comply with either the existing or modified regulations." This code section requires 689 spaces on the Property.

We are proposing a PUD amendment to decrease the amount of parking spaces required on the Property to 647 spaces (42 less spaces; 6.1% parking decrease). The overall parking requirements in the PUD would stay the same, but the Property would be allowed a reduction in the standard parking requirements. This request is in line with the goals of the Northwest Park and Ride Transit Oriented Development (TOD). The TOD is an overlay that covers the PUD, although the PUD is exempt from the regulations of the TOD. The TOD does allow for a reduction in parking per Section 25-6-611 of the City Code, which allows for a 40% reduction. The proposed PUD amendment requests only a 6.1% reduction. Additionally, the allowance for a reduction in parking allows for an increase in tree preservation.

The General Land Office (GLO) has historically revised the Board Orders as needed. However, the GLO has formally relinquished responsibility for the PUD to the local governing body (see attached letter). As such, a revision to the Board Order will not be needed in conjunction with a PUD amendment.

As such, the following note is proposed on the PUD Plan related to the amendment request:

Note 12. The minimum off-street parking requirement for CRE-8 & CRE-9 is prescribed by City Code Section 25-6-611.

Thank you for your review of this letter and the attached application and materials. If you have any questions or require additional information, please do not hesitate to contact me at your convenience. Thank you for your time and attention to this project.

Sincerely,

Michele Rogerson Lynch
