Subject: RE: 12th & Navasota BOA Cases

Hi Leane,

This project was approved at Council last week. We will need to remove the variance request for lots 1-3 but keep the same requests for lots 4 and 5.

Please let me know if you have any questions.

Thank you

Understood. We will update you prior to July 2nd, following Council action on the 26th, with the new request.

Thank you for letting us know.

FYI – since it will have been 60 days since the first hearing we will be renotifying on your postponed case and I can change/reduce the variance request to just the 2 lots for the rear setback if you know the result by my notice deadline of July 2nd. Or we can just renotify again as per original request.

To follow-up. We will remove all variance requests for Lots 1-3 and maintain the variance request for both the rear setback and the side setback for AC units for lots 4 and 5.

Let us know if you need anything else for this.

Thanks!
