PLAT NOTES:

- No lot shall be occupied until the structure is connected to the City of Austin water and wastewater utility system. City wastewater service availability to this lot is contingent upon the completion DR 4857.027
- All water and wastewater improvements must be in accordance with City of Austin water and wastewater design criteria and specifications. All plans must be presented to the City of Austin Water and Wastewater Utility Department for review and approval. All construction must be inspected by the City of Austin.
- Building setback lines shall be in accordance with the City of Austin Zoning ordinance requirements.

- Prior to construction on lots in this subdivision, drainage plans will be submitted to the City of Austin for review. Rainfall run-off shall be held to the amount existing at undeveloped status by ponding or other approved methods.
- The owner of this subdivision, and his or her successors and assigns, assume responsibility for phone for construction of subdivision improvements which comply with applicable codes and requirements of the City of Austin. The owner understands and acknowledges that plot vegetation or replanting may be required, at the owner's sole expense, if plans to construct the subdivision do not comply with such codes and requirements.

- Prior to construction, except detached single family on any lot in this subdivision, a Site Development Permit must be obtained from the City of Austin.
- All streets, drainage, sidewalks, erosion controls, and water and wastewater lines are required to be constructed and installed to City of Austin standards.

- Austin Energy had the right to cut and trim trees and shrubbery and remove obstructions to the extent necessary to keep the easements clear of obstructions. Austin Energy will perform all tree work in compliance with the City of Austin Land Development Code.

- The owner / developer of this subdivision / lot may provide Austin Energy any easement and / or access required for the installation and ongoing maintenance of overhead and underground electric facilities within or along the perimeter of this subdivision / lot. These easements / access are required to provide electric service to the building and will not be located as to cause the site to be out of compliance with the City of Austin Land Development Code.

- The owner shall be responsible for installation of temporary erosion, revegetation and tree protection. In addition, the owner shall be responsible for any initial pruning and tree removed that is within ten feet of the center line of the proposed overhead electrical facilities designed to provide electric service to this project. The owner shall include Austin Energy's work within the limits of construction for this project.

- All signs shall comply with the Austin Sign Ordinance.

- By approving this plat, the City of Austin assumes no obligation to construct any infrastructure in connection with this subdivision. Any subdivision infrastructure required for the development of the lots in the subdivision is the responsibility of the developer and the owners of the lots. Failure to construct any required infrastructure to City standards may be just cause for the City to deny applications for certain development permits including building permit, site plan approvals and / or certificates of occupancy.

- Public sidewalks, built to City of Austin standards, are required along the following street and as shown by a dotted line on the face of the plat: Middle Fiskville Road. Failure to construct the sidewalks may result in the withholding of Certificates of Occupancy, building permits, or utility connections by the governing body or utility company.

- The landowner is responsible for providing the subdivision infrastructure, including the water and wastewater utility improvements.

- Erosion / Sedimentation controls are required for all construction on each lot, including single family and duplex construction, pursuant to the City of Austin Land Development Code and the Environmental Criteria Manual (ECM).

- Water quality controls are required for all development pursuant to the Land Development Code.

- Off-street loading and unloading facilities shall be provided on all commercial and industrial lots.

- This subdivision was approved and recorded before the construction and acceptance of streets and other subdivision improvements. Pursuant to the terms of a Subdivision Construction Agreement between the subdivision and the City of Austin, Dated _____ 20_____, the subdivision is responsible for the construction of all streets and facilities needed to serve the lots within this subdivision. The responsibility may be assigned in accordance with the terms of that agreement. For the Construction Agreement pertaining to this subdivision, see the separate instrument recorded in Doc# _____ in the Official Public Records of Travis County, Texas.

- Development of this subdivision is restricted to uses other than residential.
