

## ZONING CHANGE REVIEW SHEET

**CASE:** C14-2014-0100  
(12008 Pollyanna Avenue)

**ZAP DATE:** August 5, 2014

**ADDRESS:** 12008 Pollyanna Avenue

**OWNER:** Timothy M. Holck

**ZONING FROM:** SF-1

**TO:** SF-3

**AREA:** 0.6 acres (26,137.15 sq. ft.)

### SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant SF-3, Family Residence District, zoning.

### ZONING AND PLATTING COMMISSION RECOMMENDATION:

### DEPARTMENT COMMENTS:

The property in question is an undeveloped lot located on Wren Avenue, a local residential street, just to the west of the southbound frontage road for Interstate Highway-35. The applicant is requesting SF-3, Family Residence District, zoning to develop a duplex residence on the site.

The staff recommendation is to grant SF-3, Family Residence District, zoning. The site under consideration meets the intent of the SF-3 zoning district. The property is located on a local residential street with moderate sized residential lots. The rezoning of this site will permit the applicant to develop the property with a duplex use adjacent to other existing duplex residential uses to the south and will provide for additional housing opportunities in this area.

The applicant agrees with the staff's recommendation.

### EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	SF-1	Undeveloped
<i>North</i>	RR	Undeveloped-Floodplain
<i>South</i>	SF-3	Duplex Residences
<i>East</i>	SF-1	Single-Family Residences
<i>West</i>	SF-1	Single Family Residence

## **SUMMARY STAFF RECOMMENDATION**

The staff's recommendation is to grant SF-3, Family Residence District, zoning.

## **BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)**

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

Family residence (SF-3) district is the designation for a moderate density single-family residential use and a duplex use on a lot that is a minimum of 5,750 square feet. An SF-3 district designation may be applied to a use in an existing single-family neighborhood with moderate sized lots or to new development of family housing on lots that are 5,750 square feet or more. A duplex use that is designated as an SF-3 district is subject to development standards that maintain single-family neighborhood characteristics.

2. *Granting of the request should result in an equal treatment of similarly situated properties.*

The rezoning of this site to the Family Residence district will permit the applicant to develop the property with a duplex use adjacent to other existing duplex residential uses to the south.

3. *Zoning should allow for reasonable use of the property.*

The proposed SF-3 zoning will permit the applicant to develop this property with residential uses that will provide for additional housing opportunity in this area.

## **EXISTING CONDITIONS**

### **Site Characteristics**

The site under consideration is an undeveloped lot with moderate vegetation. There are single-family residences to the east and duplex residences to the south along Wren Avenue.

### **Comprehensive Planning**

SF-1 to SF-3

This zoning case is situated on a .6 acre vacant parcel, and is not located within the boundaries of neighborhood planning area. The property is surrounded by vacant land to the north and single family houses to the south, east and west. The proposed use is a duplex.

### **Imagine Austin**

The comparatively small scale of the site relative to the rest of the residential development in the area, in addition to the property not being located along an Activity Corridor or within an Activity Center as per the Imagine Austin Growth Concept Map falls below the scope of Imagine Austin; and consequently the plan is neutral on the proposed rezoning.

CH  
10

### **Environmental**

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

According to floodplain maps there is a floodplain within the project location. Based upon the location of the floodplain, offsite drainage should be calculated to determine whether a Critical Water Quality Zone exists within the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

### **Hill Country Roadway**

The site is not within a Hill Country Roadway Corridor.

### **Impervious Cover**

The maximum impervious cover allowed by the SF-3 zoning district is 45%. However, because the watershed impervious cover is more restrictive than zoning district's allowable impervious cover, the impervious cover is limited by watershed regulations as shown in the table below.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

04/11

### **Site Plan Review**

No site plan comments at this time. Comments will be provided if a site development permit application is submitted.

### **Stormwater Detention**

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program if available.

### **Transportation**

No additional right-of-way is needed at this time.

According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, bicycle facilities are existing and/or recommended along the adjoining streets as follows: Pollyanna Ave.

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro
Pollyanna Avenue	50'	40'	Local	No	Yes	No

Capital Metro bus service is not available within 1/4 mile of this property.

The plan complies with all applicable transportation requirements.

### **Water and Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Ms. Sirwaitis,

I am a property owner within 500 ft of the property located at 12008 Pollyanna Avenue that is being requested for a zoning change from SF-1 to SF-3. I wish to state that at this time I can NOT support the re-zoning request. The property is located on the Pollyanna/Wren intersection which is a very sharp and narrow turn. The street was designed/built many years ago prior to City annexation, and would not meet today's design criteria. The curve is extremely dangerous comprising of a blind curve with a high side embankment limiting any sight. The property located at 12006 Pollyanna recently completed construction of a duplex. Although the owner, Tim Holck did a very good job designing that duplex with on-site parking, the tenants never the less park on the street along the blind curve and create a very dangerous situation. My concern is that another duplex will only add to the congestion and safety of that curve.

I will be supportive of the re-zoning request only if the City of Austin installs "No Parking Tow Away" signs on both sides of the street along the curve. I would welcome you or your staff to perform a site visit to see exactly what the existing situation is, and potential safety issue should another duplex be built and additional cars park on the street.

Please contact me with any questions or if I can provide any additional information.

Quite frankly, I would like to go on record requesting that the City install the "No Parking Two Away" signs regardless of this zoning case. There already exist a dangerous situation.

Thank you,

Mike Byrne (owner)  
12000 Pollyanna Avenue

I do have some issue with additional zoning in lot that has not been build on yet.

1. Home on corner that Tim is the owner (three bed rm home ) tenets has approximately 6 car's one at gutter that never moves (at curve turn of Pollyanna and Wren ave)
- 2, New's duplex that was built recently Tim also owns (six bed rm -three rm each side) tenets has approximately 4 to 5 car's non in witch even us the garage so when there friends come over also on corner park on turn both side of road. (at curve turn Pollyanna and Wren ave)
3. Original duplex 6 of them, for in witch Tim owners exuding one, also each one has 2 rm's totaling 12 tenets with car's, just before corner turn, that approximately 1 each in drive leaving if they would park there and the other 6 on street way and/or non drive way parking and parking on both side of Pollyanna just coming to curve around to Wren Ave.

I've provided Tim my concern in this mater of parking around such are of a 90 degree turn because he may not be aware of the parking problems that already exist. Adding another sf-3 family also on turn may not be a safe thing to do.. that area should be kept as a run off or access to the back property another person owns.

Subject: Proposed Zoning change from SF-1 to SF-3/Project location 12008 Pollyanna Ave/Case #C14-2014-0100

OK  
15

Francisco J. Alfaro II  
12005 Pollyanna Ave.  
Austin, Texas 78753

My son has asked me to respond on his behalf of the rezoning issue.

My son is the owner of the property at 12005 Pollyanna Ave. and will be greatly affected by building of a duplex on 12008 Pollyanna. The owner of that property Timothy Holck bought the property from Mike Byrne when Mike was told by the city council that he could not build a duplex on 12006

Pollyanna because the neighborhood association was opposed to having a duplex being built there because it would cause traffic problems. I don't know how the city allowed him to have it built there. Now he wants to have another duplex built on the property next to it. Building it would cause more problems with parking since the tenants don't like parking in their designated parking. The tenants park out on the street instead of in their drive ways. My son and my granddaughter were almost hit when they were walking their dog because of the cars that are parked on the curve and drivers trying to avoid hitting the parked cars. There is a blind side to it because my son's house sits on an embankment that is about 6 feet tall. The city at one time had signs that said no parking along the whole curve even up to half way up in front of my son's house, but when the city had some rainwater culverts put in, the signs were never replaced. My son says that he objects to a duplex being built if there is no solution to the parking problems that the already new duplex has created. Adding a new duplex will create additional problems. Where is their drive way going to be built if there is a fire hydrant and a rain culvert on the entrance to that property?

Sincerely,  
Maria Alfaro

Ms. Sirwaitis,

I am a property owner closer than 500 feet and am endorsing Mr. Byrne's letter below with his permission. I want to expound on his request of the no parking signs on both sides of the street at the **corner of Pollyanna & Wren**. I have spoken with Mr. Holck, by phone, concerning a tenant leaving his disabled vehicle parked on this corner for quite sometime. His response was for me to report it to the Police. This is a blind corner and is well used morning and afternoon.

## PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:  
<http://www.austintexas.gov/development>.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Appendix A

C4/19

- 1) An extensive rental concentration (four duplexes and a rental house) already exists near this property, and this existing rental concentration is not compatible with our neighborhood of largely single-family, owner-occupied homes. The addition of another duplex only exacerbates the incompatibility. Moreover, because several duplexes already exist here, the additional duplex does not meet the diversity consideration of ImagineAustin.
- 2) The additional street parking associated with another duplex will further impair an already problematic mobility and accessibility due to the curve. There is a lot of street parking associated with the current run of duplexes, to the point that driving around this curve can be quite nerve wracking and risky due to narrow tolerances and poor visibility. Regardless of the site requirements for parking, duplexes ALWAYS bring additional extensive street parking because typically more than one household will be present in each unit of a duplex.
- 3) The additional duplex will provide additional densification BUT WITHOUT ADDITIONAL INFRASTRUCTURE IMPROVEMENTS. Our neighborhood will not receive sidewalks or a wider street in this area in return for accepting densification, nor will we receive a pocket park to offset the rental district density that has developed in this area.
- 4) The City of Austin should at some point stand behind its zoning, since surrounding properties were in some instances purchased based on the protection THOUGHT TO BE provided by the SF-1 for 12008 Pollyanna. I am one such purchaser.
- 5) The map provided with the notification is incorrect in two germane aspects: the "undev" to the south of 12008 Pollyanna is a duplex and the "undev" to the northeast is a single-family dwelling now a rental.
- 6) Regardless of the densification trend these days, large concentrations of rentals should be discouraged. Rentals are typically not well maintained, although this is a general statement that does not apply in all instances. More importantly, renters very, very typically do not participate in the life of the neighborhood. They typically do not show up for the National Night Out party, or to the meetings of the neighborhood association, or to the neighborhood clean ups, etc. Rental concentrations thus destroy the cohesiveness of the neighborhood.

## PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:  
<http://www.austintexas.gov/development>.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: I bought in this neighborhood especially because of its large lots and low density. (changing the zoning will change the character of this old neighborhood. Additionally, the streets are narrow + have no sidewalks. Additional traffic + on-street parking will make it more hazardous for pedestrians.

Thank you for your consideration of my comments. - Diane Rudy

 Christian Ninaud, WCNA LEAD

Hello!

Could you please forward my concerns to the appropriate party re: zoning change request? I think this would go to staff of the ZAP Committee. The property owner at 12008 Pollyanna Avenue has requested that this property be zoned up from SF-1 to SF-3. The City of Austin case number is C14-2014-0100.

My name is Christian Ninaud, I am a member of the WNCA Board, and live at 11809 Oakwood Drive. Along with several Board members, I am opposed to the requested zoning change due to concerns about increased traffic, and conversion of single family properties to duplex properties. Our Board encourages single family ownership over rental properties, and feel this zoning change would have a negative impact on our community. This particular street, Pollyanna is subject to a lot of cut through traffic off of I-35, and the curve at Pollyanna/Whitewing is quite dangerous.

Thank you for your consideration in this matter!

Christian Ninaud

Public Hearing: Aug 5, 2014, Zoning and Platting Commission  
Aug 28, 2014, City Council.

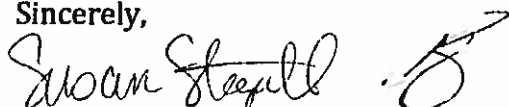

We are opposed to the rezoning of 12008 Pollyanna Avenue to SF-3. This property is located directly behind our property. We purchased our home knowing a single-family residence would one day be built behind us. The property next door to 12008 Pollyanna was rezoned and a two-story duplex was constructed. We are afraid that is what Mr. Holck intends to do on this property as well. Having a duplex back up to our house will affect our property value. If someone wants to build a duplex, I feel they should buy property zoned accordingly.

We have seen many young couples starting families move into our neighborhood. A custom homebuilder is building a very nice new home down the street from us. Our neighborhood is moving in a very positive direction. We fear setting a precedent to allow for multi-family property zoning will change that. Pollyanna does not need another duplex increasing street side parking and congestion. The aesthetic quality of our neighborhood will decrease along with our property values. We want our neighborhood to be the best it can be for raising our children and protecting our investment.

Before allowing this zoning, please have an environmental agent with the city determine the effect rezoning would have on the creek behind the property. It is a thriving wildlife habitat and the creek feeds into Walnut Creek.

Thank you for your time and considering our opinion.

Sincerely,

  
Susan Stegall and Donnie Shumate
