Additional Backup Information

The Trail Foundation sponsored a contract with McCann-Adams Studio to master plan parkland along the southeast shore of Lady Bird Lake, in anticipation of the increased usage brought by the completion of the boardwalk trail.

The Master Plan will serve as a guide for best uses for new and existing parkland and facilities. PARD included a Technical Advisory Group (TAG) which consisted of numerous key City of Austin personnel representing various internal departments. The TAG committee provided input on future projects, requirements, regulations and permitting issues associated with any and all proposed improvements within the master plan area.
