

CODENEXT

SHAPING THE AUSTIN WE IMAGINE

From Here to There: Setting a Path for Austin's Code Code Approach Alternatives & Annotated Outlines Document Public Review Draft

Presented by:

Daniel Parolek, Principal
Opticos Design, Inc.

Presented:

Austin City Council, Comprehensive Plan and
Transportation Subcommittee

September 4, 2014

Administrative Draft Used for Public Release

**Code Approach Alternatives &
Annotated Outlines**
Austin Land Development Code Update

CODENEXT
SHAPING THE AUSTIN WE IMAGINE

From Here to There: Setting a Path for Austin's Code **Presentation Overview:**

1. Background
2. Overview of Approach Alternatives and **Recommended Approach**
3. Overview of **Elements**
 - These are the “ingredients” for the approaches
4. Comparison of Approach **Alternatives** and **Basis of Recommendation**
 - Overview of 3 Alternative Approaches
 - Comparing Approaches
 - Our recommended Approach
5. **Concluding Thoughts & Next Steps**

What choosing an approach does and does not do:

Selecting an approach...

Does

✓ Set a framework

Creates parameters to guide the revision of the LDC.

✓ Allow for future flexibility

Future City Council will have opportunity to reaffirm selected Approach.

✓ Establish a road map for updating the code

Chooses a direction for the CodeNEXT team to explore with Austinites.

Does Not

✗ Change existing regulations or policies such as neighborhood plans

Does not say which regulations will be kept, replaced, or removed.

✗ Revise zoning districts, neighborhood plans or create new districts

No recommendation of districts.

✗ Decide where new or revised zoning districts will apply within the City

Code Approach does not provide direction for mapping.

Background

Overview of the Project

Chronology of Events

2012

June: Council unanimously adopts Imagine Austin

2013

November: Council unanimously process to revise Austin's LDC

January: Informal briefing on with key stakeholder groups

February: Code Advisory Group created

March: Council selects Opticos Design as lead consultant

2014

2013 - 2014: Listening to the Community

Overview of the Project

Chronology of Events

2014

April: Listening to the Community Report

Diagnosis:

May: Code Diagnosis Report; Council work session on Code Compatibility

June: CodeTALK on Alternatives Report

September: Approach

October: Council selects Approach Alternative

Overview of the Project

Chronology of Events

2015

March/April: Council
Confirmation of Approach

2016

2015-Mid 2016:
Drafting process with
feedback to revise LDC;
CodeTALKS on Issues;
Review of Draft Standards.

Overview of the Project

Chronology of Events

The Work Done to Date Provides a Foundation for Approaches

Current State of the Code and Where Austinites Want to Be

Existing Code	
Ineffective in Implementing Imagine Austin	
Complicated and Inefficient	
Unpredictable, Unclear, and Conflicting	
Difficult to Implement and Administer	
Based on Community Values	

Current State of the Code and Where Austinites Want to Be

Existing Code	Future Code
Ineffective in Implementing Imagine Austin	Supports Creation of Complete Communities and Implementation of Priority Programs
Complicated and Inefficient	Streamlined and Understandable
Unpredictable, Unclear, and Conflicting	Predictable Outcomes
Difficult to Implement and Administer	Transparent, Consistent Processes
Based on Community Values	Based on Community Values

2

Overview of the Alternatives

A Path Forward

The Three Approach Alternatives Explored

The Three Approach Alternatives Explored

The Three Approach Alternatives Explored

I. Brisk Sweep

The Three Approach Alternatives Explored

1. Brisk Sweep

2. Deep Clean

The Three Approach Alternatives Explored

1. Brisk Sweep
2. Deep Clean
3. Complete Makeover

Approach Alternative I

The Brisk Sweep:

- No major structural/organizational changes to the Code.
- Clean-up of the existing LDC.
- Targeted refinements.
- Addition of a **Form-Based Code** that will have **limited** application.
- Primarily to future small area plans.

Approach Alternative 2 [Recommended Approach] The Deep Clean:

- **Significantly reworks content and structure.**
- **Substantially improves the appearance, usability, and consistency of the existing LDC.**
- Citywide framework for form-based standards will be created and applied to a **limited number of interested communities**. But Allow for easy future applications.
- Hybrid nature allows for **balanced mix** of by-right review, customized zoning, and discretionary review where appropriate.
- Combining districts compressed where feasible.

Approach *Alternative 3*

The Complete Makeover:

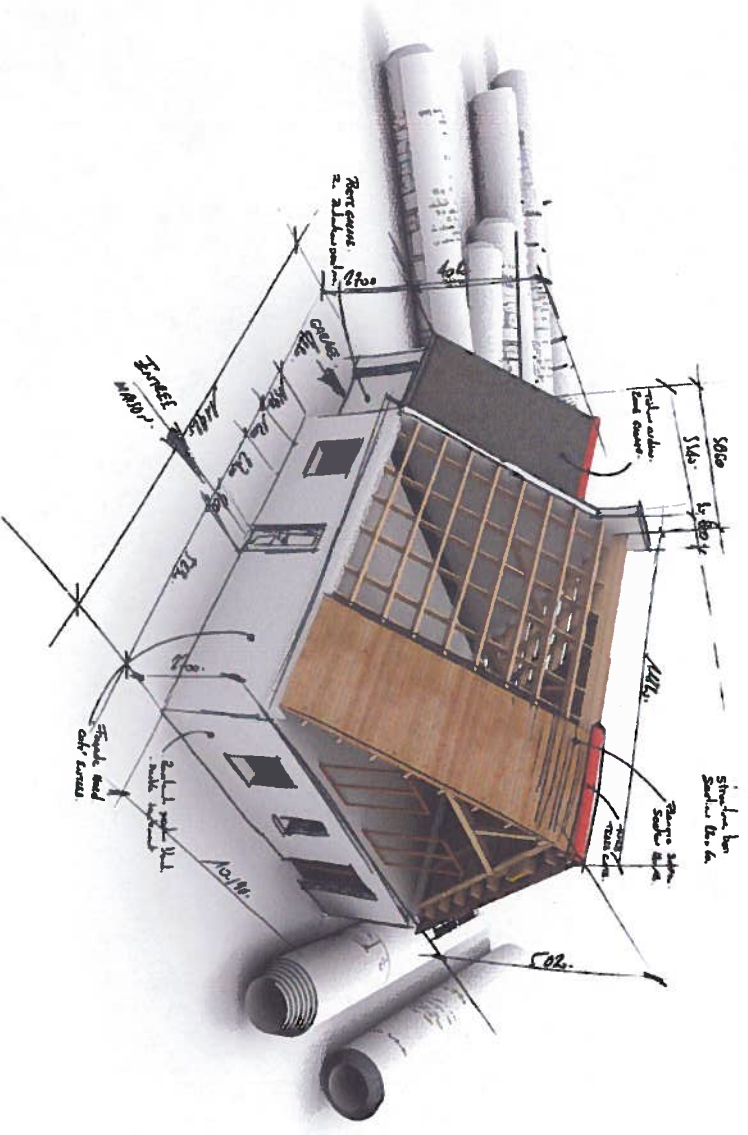

- **Most extensive modifications** to the existing LDC.
- **Significantly reworks content and structure.**
- Development standards include **significant form-based standards. Applied widely** across the city.
- Development **review process relies primarily on by-right review.**
- Combining districts are compressed where feasible

3

Overview of Elements

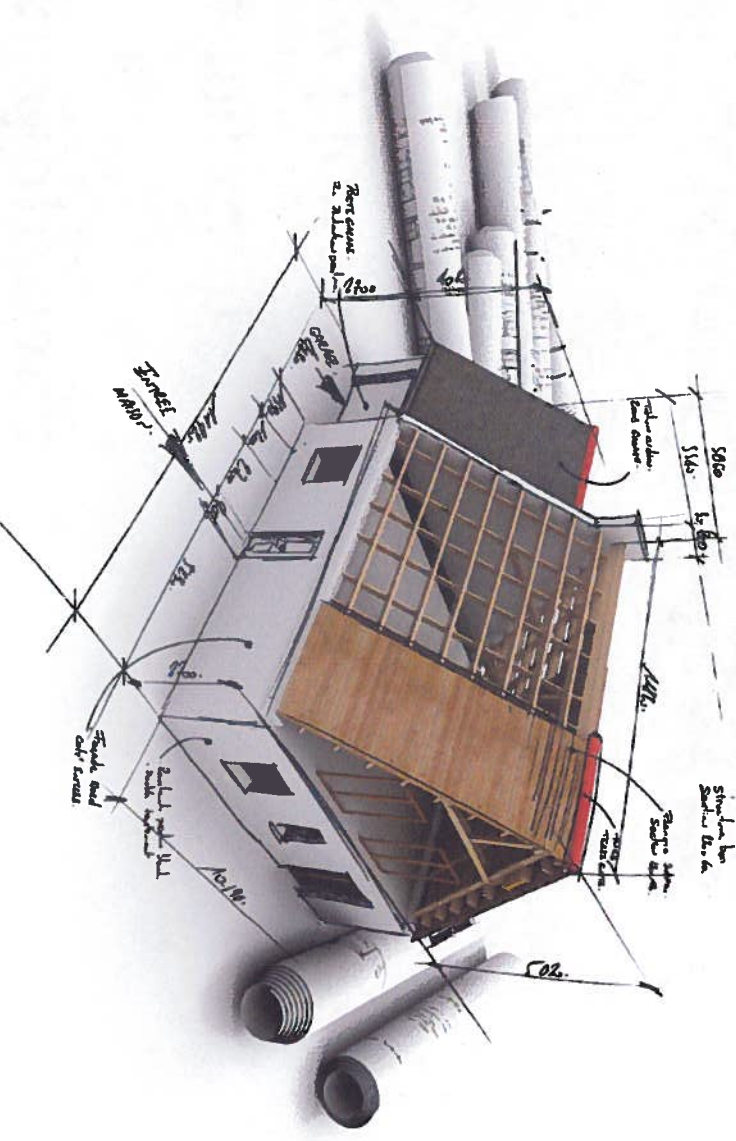

Elements that Form an Approach

Elements that Form an Approach

Elements that Form an Approach

I. Code Format & Organization

1. Code Format & Organization
2. Development Review Models

Elements that Form an Approach

1. Code Format & Organization
2. Development Review Models
3. Development Standards Models

1. Code Format & Organization
2. Development Review Models
3. Development Standards Models

Criteria to Evaluate Elements of Code Approaches

1. Effectiveness
2. Clarity
3. Consistency
4. Predictability
5. Simplicity
6. Ease of Implementation
7. Ease of Administration

Evaluate Each Element Option with Criteria

Models	Ease of						
	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Implementation	Administration
1 REVISED CODE FORMAT AND ORGANIZATION	●	○	●	○	○	●	○
2 REPLACEMENT CODE FORMAT AND ORGANIZATION	●	●	●	●	●	○	●

Key: ● High Level ○ Medium Level ○ Low Level

Key: High Level Medium Level Low Level

Key: High Level Medium Level Low Level

Evaluate Each Element Option with Criteria

Models	Ease of					Ease of	
	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Implementation	Administration
1 REVISED CODE FORMAT AND ORGANIZATION	●	●	●	●	○	●	○
2 REPLACEMENT CODE FORMAT AND ORGANIZATION	●	●	●	●	●	○	●

Key: ● High Level ○ Medium Level ○ Low Level

Key: ● High Level ○ Medium Level ○ Low Level

Evaluate Each Element Option with Criteria

	Ease of						Ease of	
Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Implementation	Administration

	1 REVISED CODE FORMAT AND ORGANIZATION						Implementation	Administration
2 REPLACEMENT CODE FORMAT AND ORGANIZATION								

Key: ● High Level ○ Medium Level ○ Low Level

Key: ● High Level ○ Medium Level ○ Low Level

Code Format and Organization

How Standards are Presented

Code Format and Organization:

- Format refers to the way information is laid out on a page; size and style of text, indenting, clear graphics, tables, and paragraph structure help to make information easy to find and understand.

[illegible]

- A** Clear break between major portions of code.
- B** Table of Contents in each new section.
- C** Clear indenting, section breaks, and labeling.
- D** Strong headers and footers explain where you are in the document.
- E** Clear graphics and illustrations visually explain regulations.

Example of “Best Practices” for Usability and Clarity in Codes

10-40.40.030 T3 Neighborhood I (T3N.I) Standards

Transect Zones

Key

- ROW/Property Line
- Building Area
- Building Setback Line
- Facade Zone

C Building Placement

Setback (Distance from ROW/Property Line)

Principal Building	20 min.; 30' max.
Front	20 min.; 30' max.
Front Facade within Facade Zone	50% min.
Side Street/Cut Space	12 min.; 25' max.
Side	5 min.; 12' min. combined
Rear	25' min.

Accessory Building or Structure

Front	20 min.
Side	3 min.; 6' max.
Rear	3 min.

The setback may match an existing adjacent building as follows: the building may be placed to align with the facade of the front most immediately adjacent property, for a width no greater than that of the adjacent property's facade that encroaches into the minimum setback.

40.40.14

Flagstaff Zoning Code

Transect Zones

10-40.40.030 T3 Neighborhood I (T3N.I) Standards

Key

- ROW/Property Line
- Encroachment Area
- Building Setback Line

E Encroachments and Frontage

Front	5' max.
Side Street/Cut Space	5' max.
Side	3' max.
Rear	5' max.

Property Line

Rear Line or Alley	15' max.
--------------------	----------

Encroachments are not allowed within a street ROW. See Division 10-50.040 (Encroachments) for allowed encroachments.

Allowed Private Frontage Types¹

Common Yard

Front

Covered/Attached

Uncovered

Side Street/Cut Space

Side

Rear

Minicellars

Linear Feet of Front or Side

Facade that may be Garage

See Division 10-50.80 (Parking Standards) for additional parking regulations.

Flagstaff Zoning Code

40.40.15

Example of “Best Practices” for Usability and Clarity in Codes

C. Building Placement

Setback (Distance from ROW/Property Line)

Principal Building

Front¹

20' min.; 30' max. **A**

Front Façade within Façade Zone

50% min.

Side Street/Civic Space 12' min.; 25' max. **B**

Side 5' min.; 12' min.

combined **C**

Rear 25' min. **D**

Accessory Building or Structure

Front 20' min.

Side 3' min.; 6' max.

Rear 3' min.

¹ The setback may match an existing adjacent building

Tables and diagrams make information easy to find and simple to understand.

Code Format and Organization:

Code Organization

Organization refers to the way information is arranged within the overall code document (the table of contents).

Section	Page
1.01.000 Residential Law Density (R/L) Zone	141
1.02.000 Commercial Law Density (C/L) Zone	142
1.03.000 Industrial Law Density (I/L) Zone	143
1.04.000 Office Law Density (O/L) Zone	144
1.05.000 Professional Law Density (P/L) Zone	145
1.06.000 Retail Law Density (R/L) Zone	146
1.07.000 Community Law Density (C/L) Zone	147
1.08.000 Neighborhood Law Density (N/L) Zone	148
1.09.000 Village Law Density (V/L) Zone	149
1.10.000 Suburban Law Density (S/L) Zone	150
1.11.000 Rural Law Density (R/L) Zone	151
1.12.000 Agricultural Law Density (A/L) Zone	152
1.13.000 Forest Law Density (F/L) Zone	153
1.14.000 Park Law Density (P/L) Zone	154
1.15.000 Recreation Law Density (R/L) Zone	155
1.16.000 Cultural Law Density (C/L) Zone	156
1.17.000 Historical Law Density (H/L) Zone	157
1.18.000 Architectural Law Density (A/L) Zone	158
1.19.000 Environmental Law Density (E/L) Zone	159
1.20.000 Other Law Density (O/L) Zone	160

Potential Code: one location for all of the same regulations.

Section	Page
1.01.000 Residential Law Density (R/L) Zone	141
1.02.000 Commercial Law Density (C/L) Zone	142
1.03.000 Industrial Law Density (I/L) Zone	143
1.04.000 Office Law Density (O/L) Zone	144
1.05.000 Professional Law Density (P/L) Zone	145
1.06.000 Retail Law Density (R/L) Zone	146
1.07.000 Community Law Density (C/L) Zone	147
1.08.000 Neighborhood Law Density (N/L) Zone	148
1.09.000 Village Law Density (V/L) Zone	149
1.10.000 Suburban Law Density (S/L) Zone	150
1.11.000 Rural Law Density (R/L) Zone	151
1.12.000 Agricultural Law Density (A/L) Zone	152
1.13.000 Forest Law Density (F/L) Zone	153
1.14.000 Park Law Density (P/L) Zone	154
1.15.000 Recreation Law Density (R/L) Zone	155
1.16.000 Cultural Law Density (C/L) Zone	156
1.17.000 Historical Law Density (H/L) Zone	157
1.18.000 Architectural Law Density (A/L) Zone	158
1.19.000 Environmental Law Density (E/L) Zone	159
1.20.000 Other Law Density (O/L) Zone	160

Existing Code: Many different locations to look for basic regulations.

Code Format and Organization Options:

I. Revised Format & Organization

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Implementation	Administration
1 REVISED CODE FORMAT AND ORGANIZATION	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Key: ☒ High Level ☐ Medium Level ☐ Low Level

- Use the **existing** code framework/organization.
- Clean up and **targeted** recalibration of standards.
- This might mean creating **new** districts and compressing some existing districts, but **few** changes to the overall code structure.

Code Format and Organization Options:

2. Replacement Format & Organization

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
2 REPLACEMENT CODE FORMAT AND ORGANIZATION	●	●	●	●	●	○	●
Key: ● High Level ○ Medium Level ○ Low Level							

- Replace the entire code with a **new, alternative framework.**
- **Recalibrate the standards in detail.**

Code Format and Organization Options: Comparing Options

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
1 REVISED CODE FORMAT AND ORGANIZATION	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
2 REPLACEMENT CODE FORMAT AND ORGANIZATION	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Key: ☒ High Level ☐ Medium Level ☐ Low Level

- **Replacing** the code format and organization will produce a document that is:
- **Substantially more simple to use** than revising code format and organization.
- **More clear and predictable.**

Development Review Models

How the Code is Used

Approach Elements:

Development Review Models

- Process by which development applications are submitted, evaluated, and ultimately approved or denied. Or more simply, **“how do you use the code.”**
- The **length of the review process**, the number of review loops, and the **subjective or objective** nature of the process should be kept in mind.
- In any of the development review models, careful consideration should be given to the development standards to ensure predictability in the built results.

Approach Elements:

Development Review Models

Approach Elements:

Development Review Models

I. By-right (Standards-based)

Approach Elements:

Development Review Models

1. By-right (Standards-based)
2. Discretionary Review

Approach Elements:

Development Review Models

1. By-right (Standards-based)
2. Discretionary Review
3. Customized

Development Review Models:

I. By-Right (Standards-Based)

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
1 BY-RIGHT (STANDARDS-BASED)	●	●	●	●	●	●
Key: ● High Level ○ Medium Level ○ Low Level						

- In a by-right system, development **applications that comply** with zoning can **move** to the building department/permit **quickly**.
- This system is **most effective** when **clear development standards** provide **predictable built results**.
 - This can be applied to any Euclidean, performance or form-based standards.
- Example Administrative Site Plan Review.

Development Review Models:

2. Discretionary Review

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
2 DISCRETIONARY REVIEW	●	○	○	○	○	○
Key: ● High Level ○ Medium Level ○ Low Level						

- **Standards are less specific** and allow for more interpretation.
- Requires a **more extensive**, and **sometimes subjective review** process to ensure the intent is met.
- Projects often undergo **multiple review loops** to obtain approval.
- Permits are **issued at the “discretion”** of the review authority.
- Example Sub-chapter E: Alternative Equivalent Compliance.

Development Review Models:

3. Customized Zoning

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
3 CUSTOMIZED ZONING	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Key: <input checked="" type="radio"/> High Level <input type="radio"/> Medium Level <input type="radio"/> Low Level						

- In a customized zoning system, **new and independent regulations** are necessary to successfully regulate major projects.
- These new regulations are **not** coordinated with the overall LDC.
- **Hard to administer** in the long term.
- Examples are planned unit developments (**PUD**) and small area plans (**regulating plans**).

Development Review Models:

Comparing Development Review Models

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
1 BY-RIGHT (STANDARDS-BASED)	●	●	●	●	●	●
2 DISCRETIONARY REVIEW	●	○	○	○	○	○
3 CUSTOMIZED ZONING	○	○	○	○	○	○

Key: ● High Level ○ Medium Level ○ Low Level

- **By-Right** achieves the **best scores** using these criteria.
- Discretionary Review can be **very effective in targeted applications**, especially when a clear process and criteria are defined.
- Customized Zoning achieves the weakest scores when assessed using these criteria.

Development Standards Models

Determine What and How a Code
Regulates

Approach Elements:

Development Standards Models

- Development standards determine **what** and **how** a code regulates.
- Also affect the **efficiency** of different development review.

Approach Elements: Development Standards Models

Approach Elements: Development Standards Models

Approach Elements:

Development Standards Models

I. Euclidean Zoning Standards;

Approach **Elements:**

Development Standards Models

1. Euclidean Zoning Standards;
2. Performance Zoning Standards;

Approach Elements:

Development Standards Models

1. Euclidean Zoning Standards;
2. Performance Zoning Standards;
3. Form-Based Zoning Standards; and,

Approach Elements:

Development Standards Models

1. Euclidean Zoning Standards;
2. Performance Zoning Standards;
3. Form-Based Zoning Standards; and,
4. Hybrid code.

Development Standard Models:

I. Euclidean Zoning Standards

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
1 Euclidean Zoning Standards	●	●	●	○	●	●	○
Key: ● High Level ○ Medium Level ○ Low Level							

- Zones and code structure **based primarily on desired uses** Focus on use separation.
- Also sometimes called **use-based zoning** standards.

Development Standard Models:

2. Performance Zoning Standards

Models	Effectiveness				Ease of			Ease of	
	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Implementation	Administration		
2 Performance Zoning Standards	●	○	●	●	○	○	○		

Key: ● High Level ○ Medium Level ○ Low Level

- Regulates the **effects or impacts** of a proposed development or activity on the community. **Goal Oriented**
- Less specific standards, providing more flexibility, but often complex formulas that are hard to understand.
- Often used to protect natural resources.
- Performance standards can be negative or positive.
- Ex. They can set a **maximum level for the noise impacts** or they can require **specified types of buffers** to be established between certain types of land uses.

Development Standard Models:

3. Form-Based Zoning Standards

Models

3 | Form-Based Zoning Standards

Effectiveness

Clarity

Consistency

Predictability

Simplicity

Ease of

Implementation

Ease of

Administration

Key: ● High Level ○ Medium Level ○ Low Level

- Zones and code structure **based primarily on desired form** rather than desired use.
- Focus on building form and **public space**.
- Typical Standards:
 - Build-to-Lines;
 - Broad Approach to Uses (still has allowed use tables);
 - Frontages and Building Types; and,
 - Thoroughfare Standards.

Development Standard Models:

4. Mix of Zoning Standards (Hybrid Code)

Models

Effectiveness

Clarity

Consistency

Predictability

Simplicity

Implementation

Administration

Ease of

Ease of

4 | Mix of Zoning Standards (Hybrid Code)

Combination and **careful coordination** of the best of conventional, performance and form-based elements.

Development Standard Models: Comparing Models

Models	Effectiveness	Clarity	Predictability	Simplicity	Ease of Implementation	Ease of Administration
1 EUCLIDEAN-BASED ZONING STANDARDS	●	○	○	●	●	○
2 PERFORMANCE-BASED ZONING STANDARDS	●	○	●	○	○	○
3 FORM-BASED ZONING STANDARDS	●	●	●	●	○	○
4 MIX OF ZONING STANDARDS (HYBRID CODE)	●	●	●	●	●	○

Key: ● High Level ○ Medium Level ○ Low Level

- The mix of zoning standards – a Hybrid Code – **scores the highest** with this criteria.
- Form-Based Standards and Euclidean-Based Standards can be effectively applied to the right context.
- Performance standards can be **less simple and clear**, but can be effectively applied to implement certain goals.

CodeNEXT Team Recommendation

Deep Clean: Why this Approach?

- Code Format & Organization: This approach introduces a new format and re-organization of the document to **maximize usability and clarity**.
- Development Review Models: This approach introduces a **good balance** of by-right development in selected areas and discretionary review where appropriate.

CodeNEXT Team Recommendation

Deep Clean: Why this Approach?

- Development Standards Models: This approach creates a hybrid code that applies Euclidean standards and form-based standards to appropriate contexts, **maximizing the benefits and strengths** of each without pushing the application of a form-based approach too aggressively.
- This approach is the closest alignment to Imagine Austin priority programs, community input (Listening to the Community Report) and Code Diagnosis.
- Best fit with Austin's civic culture and the community's desired level of change.

5

Concluding Thoughts

The Road Ahead

When does the team get more specific about code changes? How will detailed comments from the community and city staff be used?

- **Content**
- **Development**
- Fleshing out Table of Contents, with the core management team on staff to a higher level of detail.
- Continue to engage community, stakeholders, staff, boards and commissions and Council.

Approach Alternatives and Annotated Outline

Upcoming Schedule

September 4:

- Approach Alternatives Document Released
- Council Comprehensive Plan & Transportation (CPT) Committee
- Community Presentation: Approach Alternatives Document

September 8-22: Board and Commission presentations

September 9: Planning Commission

September 16: Codes & Ordinances Committee of Planning Commission, and Zoning and Platting Commission

Approach *Alternatives* and *Annotated Outline*

Upcoming Schedule

September 22: Code Advisory Group meeting

September 23: Planning Commission (2nd meeting)

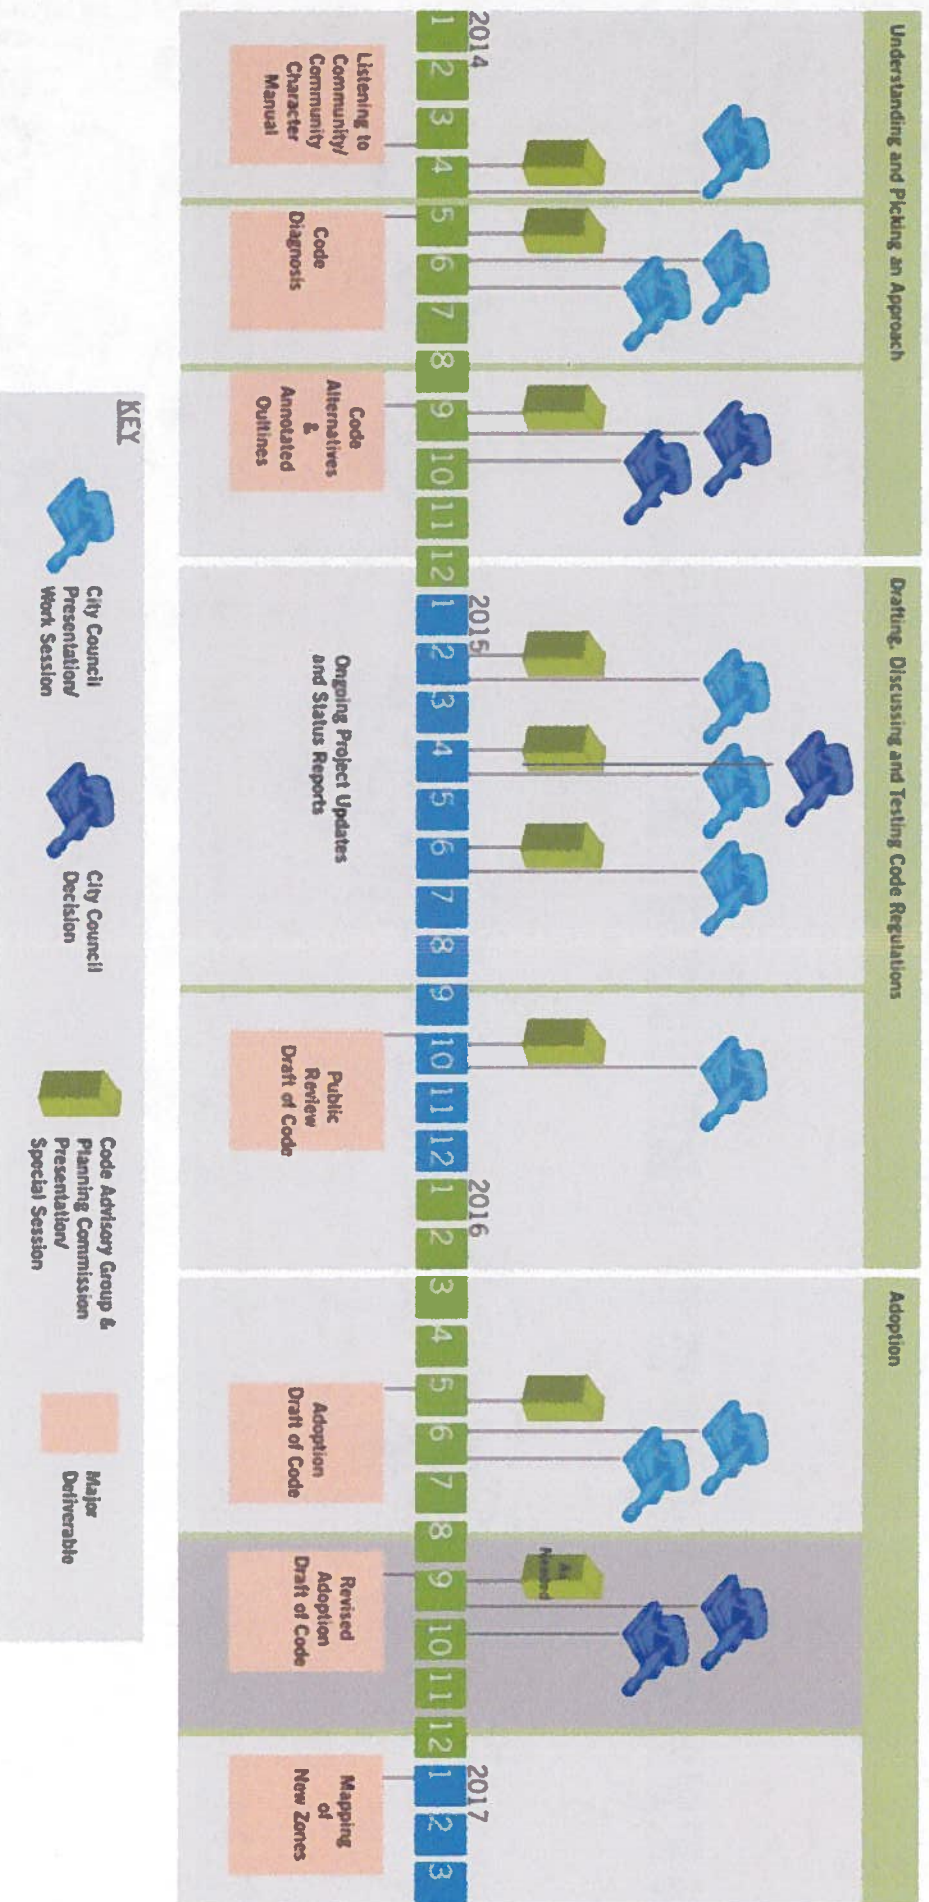

October 2: City Council briefing

October 6: Code Advisory Group meeting

October 20: Code Advisory Group meeting

October 23: City Council hearing
