involving Asian American community stakeholders and identify outreach to non-mainstream Asian Americans to ensure a diversified study. Rey Arellano reported that a community outreach staff from the Public Information Office, who served in the Hispanic Quality of Life study, had been added to assist with this study, which will require an interlocal agreement with UT after receiving and incorporating feedback from Commission members on the scope of work. The next presentation will focus on more concrete steps such as collaboration with other UT researchers. Commissioners will email questions to Staff Liaison Sarah Chen. Sarah Chen will locate information regarding duration and funds spent on the African American Quality of Life Study and the Hispanic Quality of Life Study.
