

Hi Steve –

The two colors are the Historical Colors from Kelly Moore attached to the application (attached hereto). HLS4251-1 (light green) and HLS4247-2 (light purple).

The current colors are below. The purple will replace the yellow, and the light green will replace the dark green. Also, the window screen frames are all currently a dark purple and those will be replaced by the light green.

Is that enough info?
