Additional Backup Information

The draft ordinance clarifies the definition of a "private solid waste collection service" and clarifies that (1) City employees, (2) City's agents, and (3) individuals who remove or transport solid waste generated from his or her residence in vehicles with one ton or less carrying capacity are not subject to the private solid waste collection program.

The draft ordinance amends Section 15-6-54 to eliminate the requirement to put decals on each collection container. Verification will be accomplished through an auditing process. This change will reduce the number of permits that must be printed.

The draft ordinance also amends Subsections 15-6-56 (D), (E), and (F) to require licensed private collection service providers to pay license fees based on container use during a month rather than on a daily basis.
