

Austin Mobility 2015

Austin Transportation Department

February 9, 2015

How bad is our congestion?

Twelve of the
100 most
congested
roadways in TX
are in Austin.

#4 Austin, TX

Commuters wasted average of 41 hours in traffic

(3 more hours than in 2012)

Worst time for commuters— Thursday, 6 PM

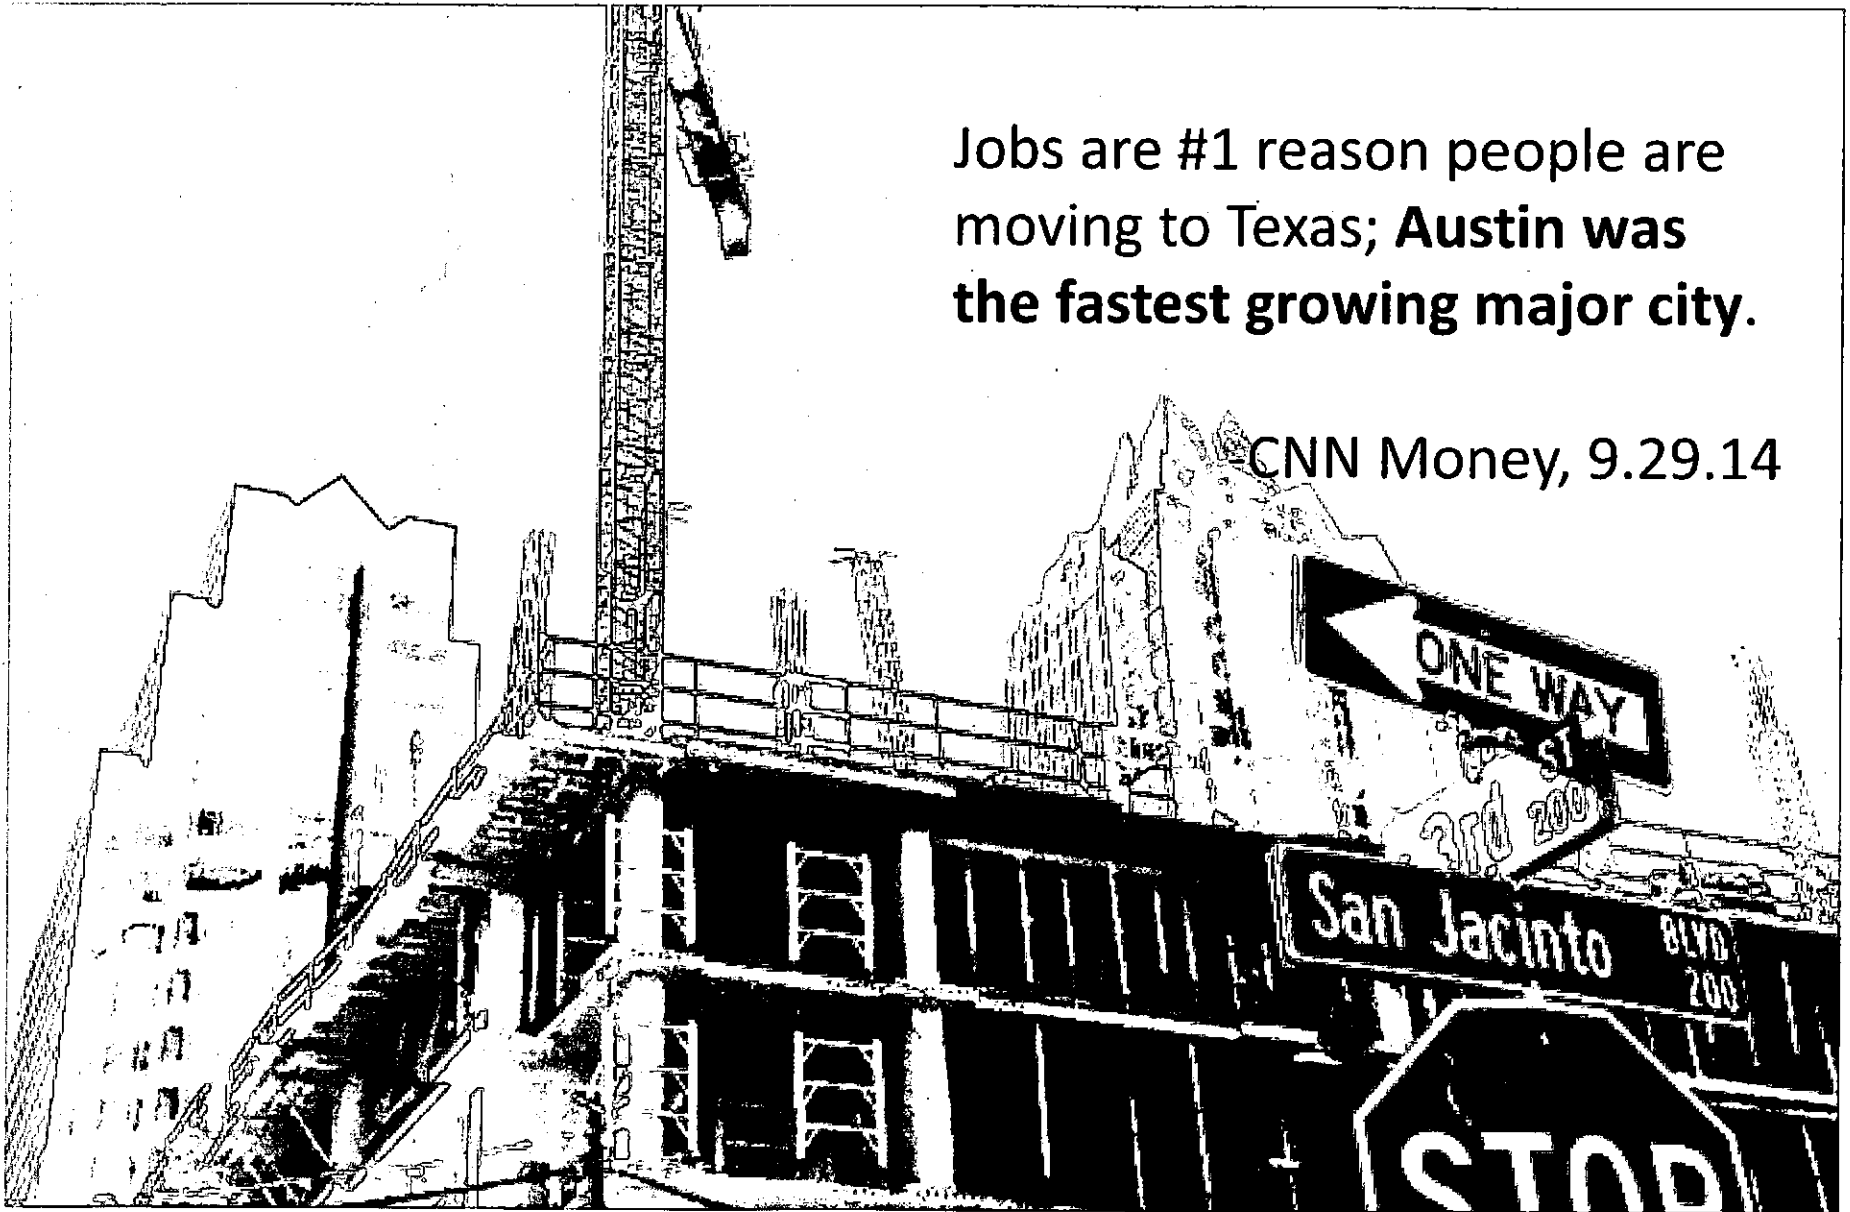

Best time for commuters— Friday, AM

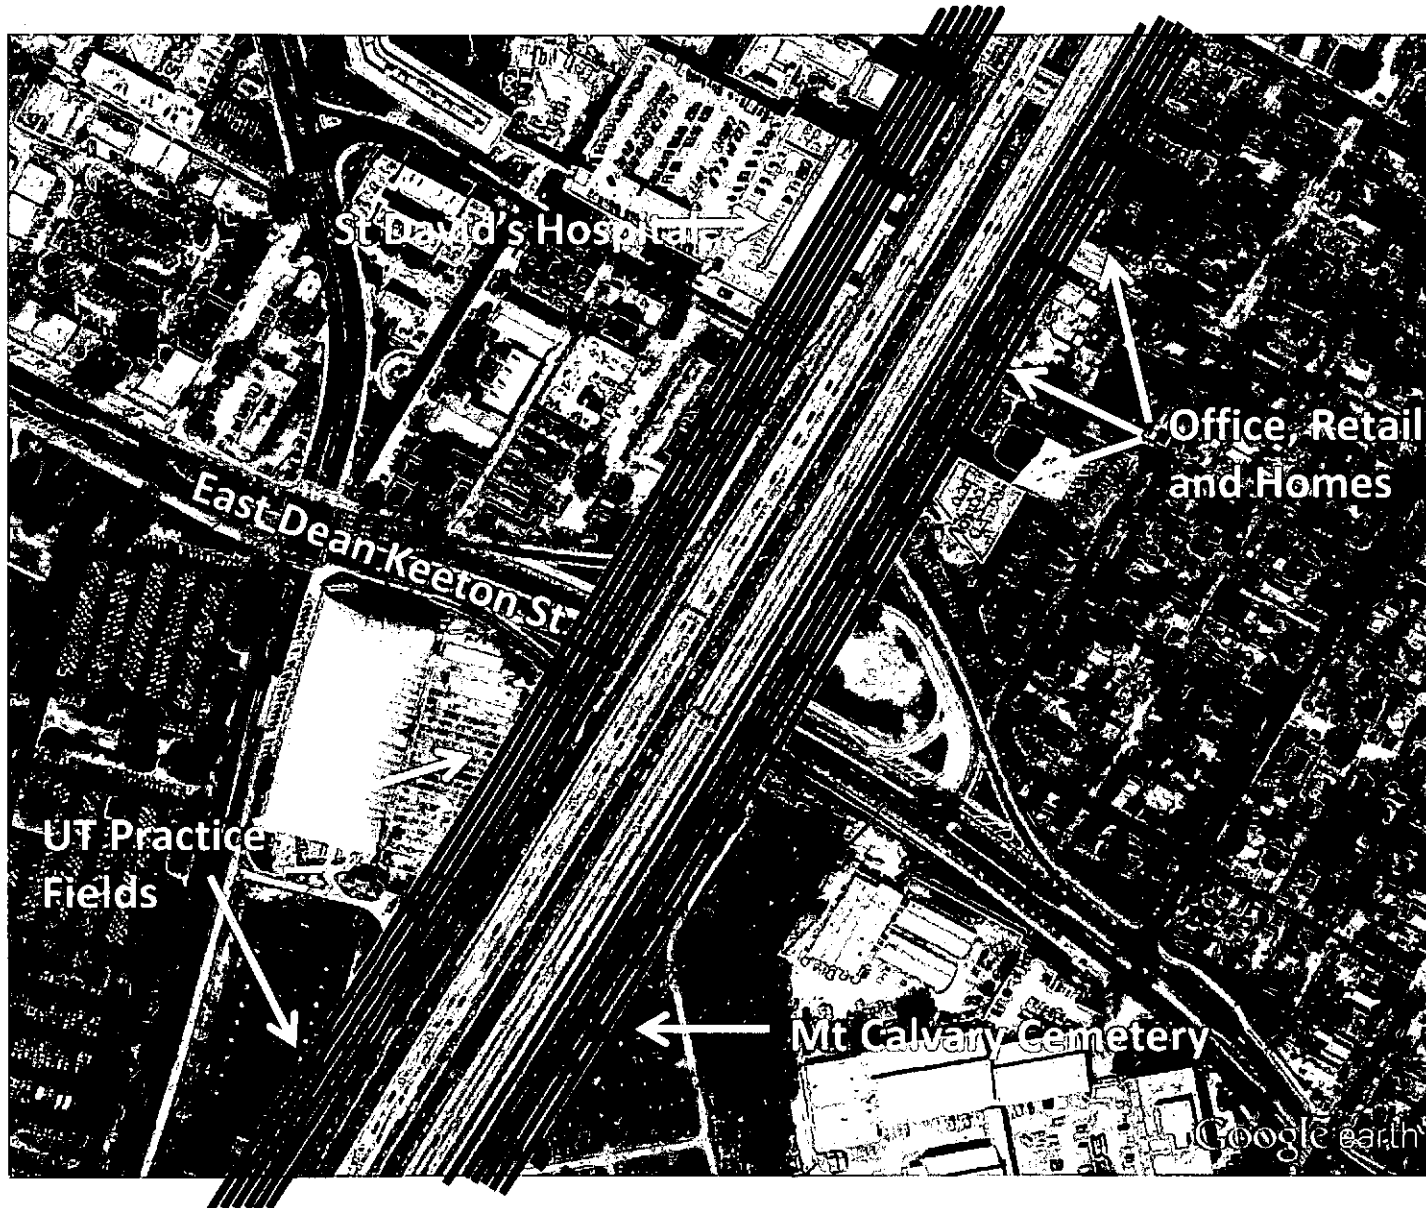

What's causing congestion? Growth

Jobs are #1 reason people are moving to Texas; **Austin was the fastest growing major city.**

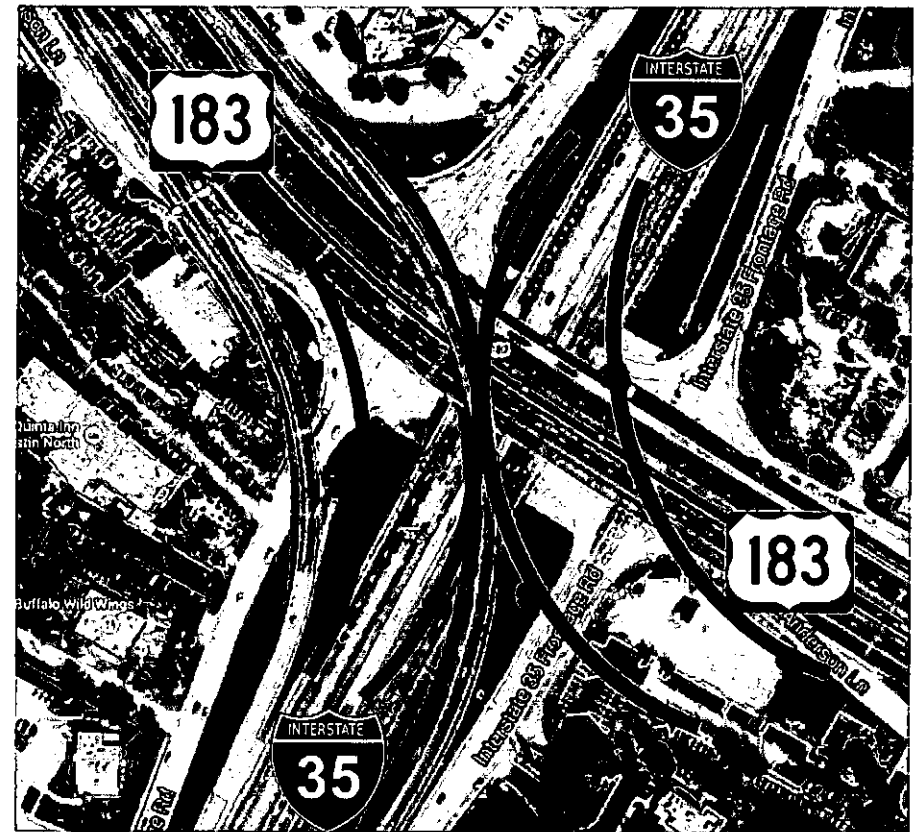

CNN Money, 9.29.14

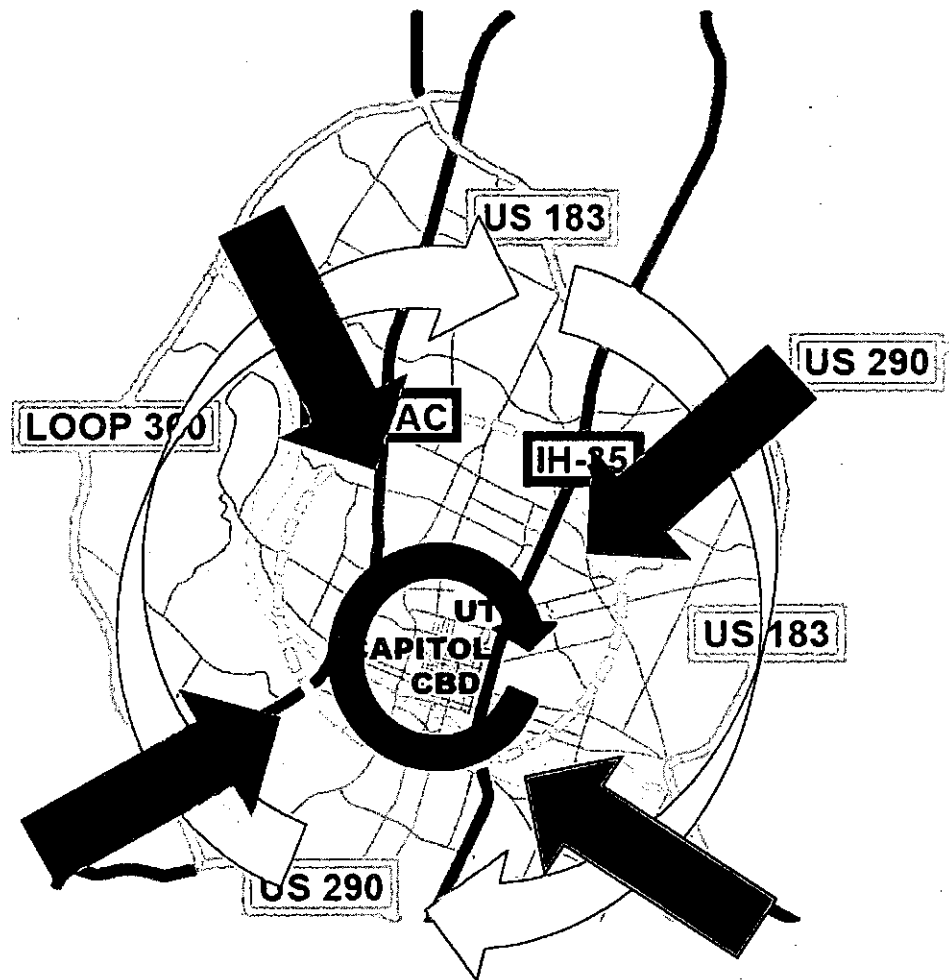

What's causing congestion? CONSTRAINTS

What's causing congestion? Discontinuous

How do we fix it? System Approach

Simultaneously invest in projects that enhance **vehicle moving capacity** around the **region's central core**, allowing through-trips to bypass the core, and

invest in projects and policies that increase **people moving capacity into the central core**, primarily, focused on commuter trips and **ALL modes**, in order to

change travel behaviors & travel culture.

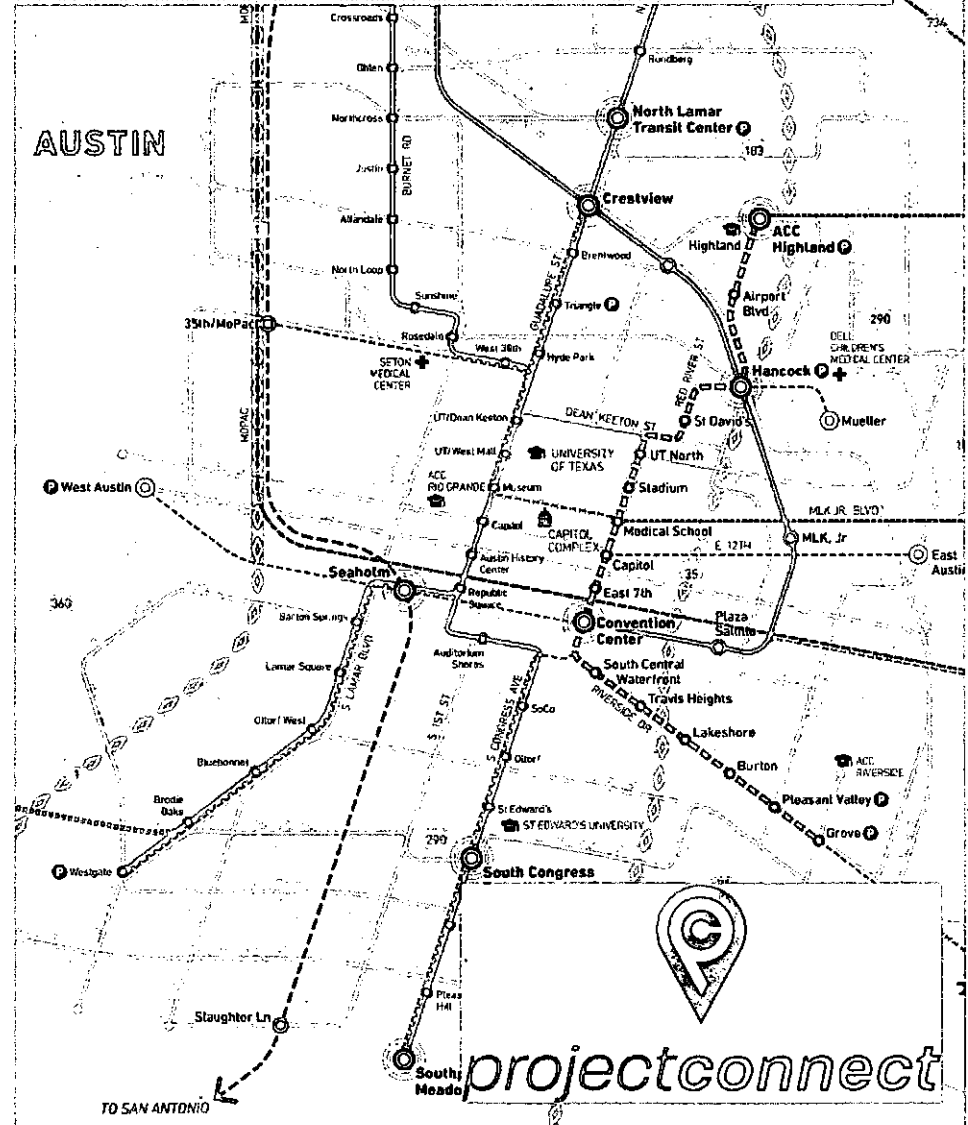

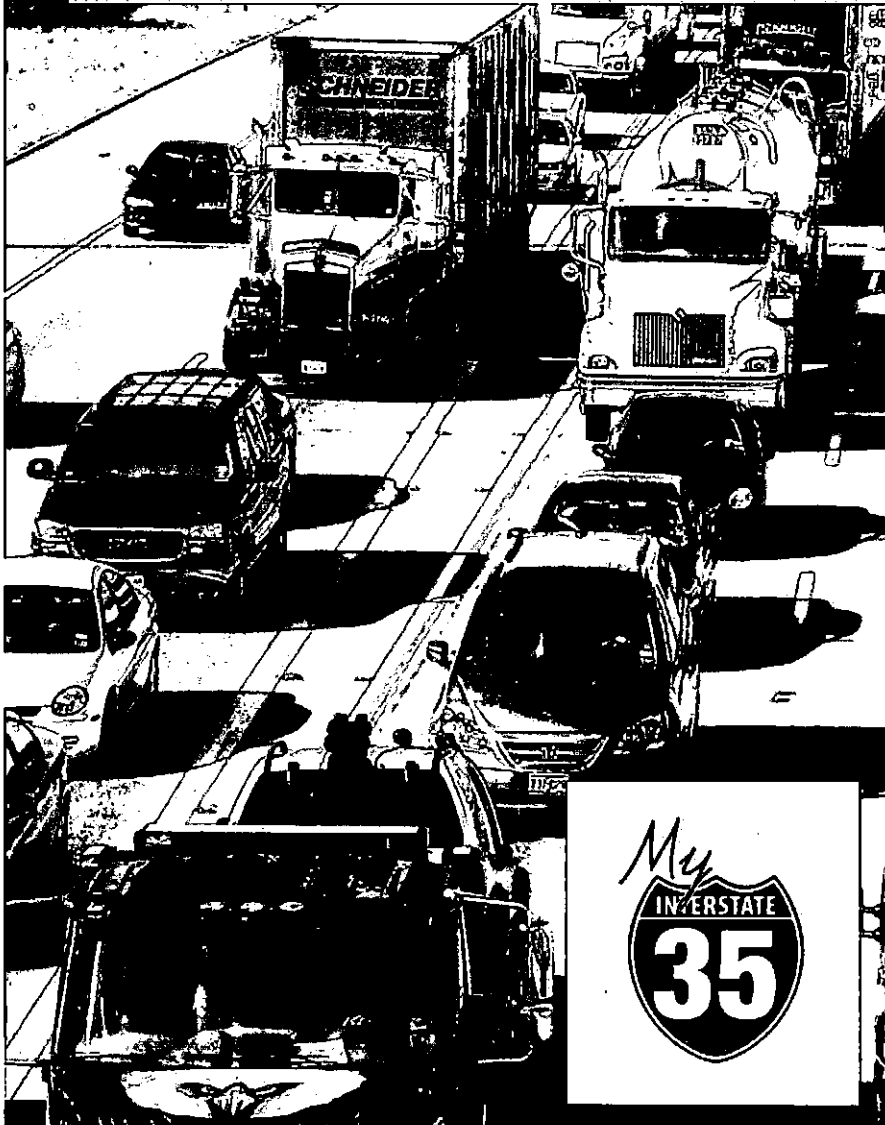

How do we fix it? Manage Demand

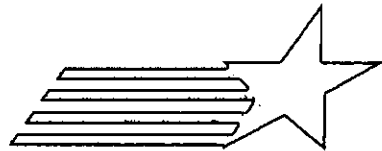

For working Downtown from Oak Hill.

Google fiber

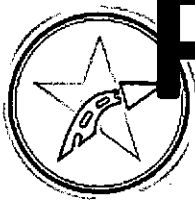

Promote commuting alternatives.

How do we fix it? Efficiency
