**ONE VOICE**  
CENTRAL TEXAS

# Critical Public Policy Issues to Address

- **Planning:** Identify a process the City can use to engage in comprehensive health and human services planning to determine City health and human services priorities
- **Social Determinants of Health:** When addressing health include discussion of the impact of the social determinants of health: housing, education, economic stability
- **Coordinate with Travis County:** Identify how the City of Austin and Travis County Health and Human Services departments can coordinate more closely to use available research and fund collaborative efforts to address the suburbanization of poverty

# Critical Public Policy Issues to Address

- **Prevention and Diversion:** Review how the City can move its focus to prevention and diversion and away from more costly outcomes, such as incarceration, hospitalization, and institutionalization
- **Social Services Index:** Implement the Social Services Index to increase the overall City investment in social services that support vulnerable residents
- **Clear Expectation and Efficient Regulations:** Review the expectations and regulations for health and human services providers to ensure that accountable and efficient processes are in place
