BRUSHY STREET VACATION BETWEEN 4TH AND 5TH STREET
CAPITAL METROPOLITAN TRANSPORTATION AUTHORITY

POLICIES AND PROCEDURES FOR REQUESTING STREET OR ALLEY VACATIONS

City of Austin

Office of Real Estate Services

Effective: September 8, 2014

Please mark and include this checklist to insure that all materials are submitted, in order to help expedite your request:

included Please verify and ensure that the area to be vacated lies within the City's jurisdiction. The vacation application fee is non-refundable once the application is processed. **RESPONSE: THE AREA TO BE VACATED, BRUSHY STREET VACATION BETWEEN 4TH AND 5TH STREET, IS WITHIN THE CITY JURISDICTION.**

NA If your property is served by Pedernales Electric Cooperative, they require an additional \$300 application review fee.

NA In most cases, S.M.A.R.T. Housing Projects are ineligible for vacation application fee waivers. If you believe your project to be eligible for application fee waivers, please provide a copy of your S.M.A.R.T. Housing Certification (Neighborhood Housing 4-10-07) for consideration.

NA If you are submitting your vacation request in conjunction with a commercial/residential development project, a site plan should already be submitted prior to submitting your vacation request. Some vacation application reviewers will postpone reviewing your request until the site plan has been submitted.

 City Council adopted the Imagine Austin Comprehensive Plan in 2012, establishing Priority Programs and policy directives which direct the growth and development of the City. Applicants should be aware that requests for right-of-way vacations are reviewed not only for compliance with City Code, but also within the context of the Priority Programs and policy directives set forth in the Imagine Austin Comprehensive Plan.

It is strongly recommended that applicants review Chapter 4 of the Imagine Austin Comprehensive Plan ("Shaping Austin"), and be prepared to demonstrate how a proposed vacation will support the objectives stated therein. The Priority Programs (as listed below) can also be found on page 186 of the Imagine Austin Plan:

1. Invest in a compact and connected Austin.
2. Sustainably manage our water resources.
3. Continue to grow Austin's economy by investing in our workforce, education systems, entrepreneurs, and local businesses.
4. Use green infrastructure to protect environmentally sensitive areas and integrate nature into the City.
5. Grow and invest in Austin's creative economy.
6. Develop and maintain household affordability throughout Austin.

C24
/7

7. Create a Healthy Austin Program.

NA If your requested alley vacation lies within the Downtown Austin Plan (DAP) area, please read below. (DAP area boundaries: East of Lamar Boulevard, west of IH-35, north of Lady Bird Lake and south of Martin Luther King Boulevard).

According to the City Council-adopted Downtown Austin Plan (DAP), alleys within these boundaries (including the Rainey Street District) shall not be vacated unless specific criteria are met. Here is the text from the DAP:

The City should not permit the closure of alleys, as they provide an important service function. Vacation of alleys should only be allowed if equivalent off-street service facilities are provided, and where such a vacation does not result in a need for on-street servicing/loading. (See TP-1.3.)

TP-1.3: Maintain alleys as the principal means of loading, servicing and parking access. Downtown is fortunate to have a comprehensive system of mid-block alleys that provide rear service access to most properties. These alleys relieve pressure on the streets, allowing them to function for pedestrian, bicycle and vehicular circulation. However, alleys are often congested with dumpsters, power poles and even above grade grease traps that prevent them from functioning properly. The following policies are aimed at preserving and enhancing alleys, and improving their efficiency as both service corridors and for access and egress to parking within a development:

- Vacation or abandonment of alleys should be avoided, and occur only in special circumstances where equivalent off-street service facilities are provided (e.g., within a full-block development), and where such vacation does not result in a need for on-street servicing/loading.
- All development abutting an alley should be required to use alleys for loading, servicing and trash collection.
- When at all possible, primary or secondary access and egress to and from onsite parking should be taken from the alley. This will be more possible once alleys become less cluttered with dumpsters and other obstacles.

Please contact Jorge Rousselin at (512) 974-2975 for further information.

EXHIBIT B Provide a transmittal letter explaining in detail the reason for the vacation, and answering the following questions:

1. Is this a residential or commercial project?
2. How was the area to be vacated dedicated? By plat or by separate instrument?

4. Are both the area to be vacated and your property in the same "subdivision"? (They must both be in the same subdivision to be eligible.)
5. Is the area to be vacated functional right-of-way, or is it only dedicated on paper?

C24/8
