

ZONING CHANGE REVIEW SHEET

CASE: C14-2015-0035
(10810 Spicewood Parkway Rezoning Request)

Z.A.P. DATE: April 21, 2015

ADDRESS: 10810 Spicewood Parkway

DISTRICT AREA: 6

OWNER/APPLICANT: Michael W. Wilson

ZONING FROM: SF-1

TO: SF-2

AREA: 0.327 acres (14,244 sq. ft.)

SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant SF-2, Single Family-Standard Lot District, zoning.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

4/21/15: Approved staff's recommendation of SF-2 by consent (6-0, S. Compton-absent);
R. McDaniel-1st, C. Banks-2nd.

DEPARTMENT COMMENTS:

The property in question is developed with a single family residence. The applicant is requesting a rezoning from SF-1 to SF-2 for additional impervious cover to construct swimming pool and patio area in their backyard.

The staff recommends SF-2, Single Family-Standard Lot District, zoning for this site as the SF-2 district will permit the applicant to redevelop the property with standard lot size single family residences in an existing neighborhood where the majority of property consists of large or moderate sized single family lots. The proposed SF-2 zoning will provide for a mixture of housing and will promote consistency and orderly planning because there are existing single family residential uses to the north, south, and east of this site. There is precedence for SF-2 zoning in this area as there is SF-2 zoning to the east on Chateau Hill, Keystone Bend and Wintergreen Hill.

The applicant agrees with the staff's recommendation.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	SF-1	Single-Family Residence
<i>North</i>	SF-1	Single-Family Residence
<i>South</i>	SF-1	Single-Family Residences
<i>East</i>	SF-1	Single-Family Residence
<i>West</i>	RR	Golf Course

STAFF RECOMMENDATION

The staff's recommendation is to grant SF-2, Single Family-Standard Lot District, zoning.

BASIS FOR RECOMMENDATION

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

Single-family residence standard lot (SF-2) district is the designation for a moderate density single-family residential use on a lot that is a minimum of 5,750 square feet. An SF-2 district designation may be applied to a use in an existing single-family neighborhood that has moderate sized lots or to new development of single-family housing on lots that are 5,750 square feet or more.

SF-2-CO zoning will permit the applicant to redevelop the property in question with low density single family uses adjacent to other of large or moderate sized single family lots and zoning.

2. *The proposed zoning should promote consistency and orderly planning.*

The proposed SF-2 zoning will promote consistency and orderly planning because there are existing single family residential uses to the north, south, and east of this site. There is precedence for SF-2 zoning in this area as there is SF-2 zoning to the east on Chateau Hill, Keystone Bend and Wintergreen Hill.

EXISTING CONDITIONS

Site Characteristics

The site under is developed with a single-family home. There are single family residences surrounding the property to the north, south and east. The property to the west is part of the golf course for Balcones Country Club.

Comprehensive Planning

SF-1 to SF-2

This zoning case is situated on a .32 acre parcel, which contains a house within a single family subdivision. This property is not located within the boundaries of neighborhood planning area and is surrounded to the north, south, and east by other single family houses and to the west by a vacant tract with a walking trail. The proposal is to change the zoning from SF-1 to SF-2, which increases the maximum building lot coverage from 35 to 40 percent and the maximum impervious coverage from 40 to 45 percent.

Imagine Austin

The comparatively small scale of the site relative to the rest of the residential uses in the area, and the property not being located along an Activity Corridor or within an Activity Center as per the Imagine Austin Growth Concept Map falls below the scope of Imagine Austin; and consequently

the plan is neutral on the proposed rezoning. However, due to the site's location in an environmentally sensitive area (the Edward Aquifer), there will be at the site planning stage an environmental review to determine if any critical environmental features are located on the site. If any are located, mitigation and setbacks necessitated by the land development code will be required.

Environmental

The site is located over the Edwards Aquifer Recharge Zone. The site is in the Bull Creek Watershed of the Colorado River Basin, which is classified as a Water Supply Suburban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Drinking Water Protection Zone.

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Impervious Cover

The maximum impervious cover allowed by the SF-2 zoning district would be 45%. However, because the Watershed impervious cover is more restrictive than the SF-2 zoning district's allowable impervious cover, the impervious cover on this site would be limited by the watershed ordinance.

Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>
One or Two Family Residential	30%	40%
Multifamily Residential	40%	55%
Commercial	40%	55%

Development within a Water Quality Transition Zone is limited to 18%.

Note: The most restrictive impervious cover limit applies.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in storm water runoff will be mitigated through on-site storm water detention ponds, or participation in the City of Austin Regional Stormwater Management Program, if available.

Transportation

According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, a bicycle facility is not identified on Spicewood Parkway.

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
Spicewood Parkway	65'	45'	Neighborhood Collector	Yes	No	No

Water and Wastewater

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Re: Rezoning Request Letter
10810 Spicewood Parkway Rezoning Request (the "Application")
Austin, Travis County, Texas

Dear Mr. Guernsey,

Please accept this summary letter and accompanying material as an introduction of our formal request for a rezoning of the above referenced address. The property, which has been our single-family residence since April 30, 1997, is designated Single Family Residence Large Lot (SF-1) District Designation. We are proposing a rezoning request to Single-Family Residence Standard Lot (SF-2) District Designation. This rezoning request application is being filed in connection with an envisioned remodel of our current residence.

On December 4, 1997, the City of Austin annexed our area and zoned our property as Single Family Residence Large Lot (SF-1) District Designation. This zoning designation limits impervious cover to 40% of the total lot area. When we purchased our house in 1997, we were in the County and not subject to City of Austin regulations. At the time of our purchase, and prior to City of Austin oversight, the improvements on the property totaled 43% impervious cover. Impervious cover in the City of Austin is defined as "the total horizontal area of covered spaces, paved areas, walkways, and driveways. The calculation of impervious cover excludes pools, ponds, fountains, and areas with gravel placed over pervious surfaces that are used only for landscaping or by pedestrians." The Single-Family Residence Standard Lot (SF-2) District Designation being sought would increase our allowable impervious cover to 45% of the total lot area. This equates to an additional 260 square feet of allowable impervious cover. This would be an area roughly 16 feet by 16 feet.

Our parcel seeking rezoning is highlighted in yellow on the attached figure. We trust that you will find the rezoning request satisfactory for the intended use. Should you have any questions or require additional information, please don't hesitate to contact us at (512) 992-0095.

Sincerely,

Michael W. Wilson

Elizabeth S. Wilson

Mike, thanks for reaching out to me. I have spoken to the board members last week concerning our response.

What we are comfortable with is taking no stance regarding any petition either for or against the zoning changes you are planning to request.

While we won't sign the petition "for" the changes, we also see no reason to oppose your planning. As long as you go through the City of Austin processes, we expect to see your changes approved.

I hope this stance from the club is understood as our neutral neighbor thinking.

Best regards,

Dave Roon
President BCCMA Board

Mike,
Let's shoot for Wednesday December 11th...sorry I didn't get back with you sooner. The holiday got in my way.

6:30 pm at BCC? I think we will have at least a handful of board members.

Dave

Not exactly, but let me offer this...we could get probably half of more of the board to attend a meeting with you to discuss the matter. Will that work? I think if you could provide 3 dates for early evening meetings, we could accommodate. I probably should have just offered this to begin with.

Let us know.

Thanks,

Dave

10810 Spicewood Parkway Rezoning Request

The Single-Family Residence Standard Lot (SF-2) District Designation being sought would increase the allowable impervious cover to 45% of the total lot area. This equates to an additional 260 square feet of allowable impervious cover. This would be an area roughly 16 feet by 16 feet. We find the rezoning request satisfactory for the intended use.

11005	Chateau Hill	Resident George and Marlo Langdon	0168151206	

10810 Spicewood Parkway Rezoning Request

The Single-Family Residence Standard Lot (SF-2) District Designation being sought would increase the allowable impervious cover to 45% of the total lot area. This equates to an additional 260 square feet of allowable impervious cover. This would be an area roughly 16 feet by 16 feet. We find the rezoning request satisfactory for the intended use.

Subject: RE: Zoning and Platting Commission Hearing on April 21, 2015, Case Number C14-2015-0035

Ms. Sirwaitis,
I just received mailed notice for this item and cannot attend the hearing.
I live at 11003 Chateau Hill, Austin, TX 78750.
I have reviewed the files online and am in favor of the proposed zone change.
Regards, Rob Brueck

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:
<http://www.austintexas.gov/development>.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: The reason we bought our house
in this neighborhood because it was
zoned SFH and we would like to
keep it this way.
