RE: Site Plan Extension Request Letter for Permit SP-2010-0319D, Parkside Hills LTD, Shoreline Improvements

To whom it may concern:

On behalf of DFI Resources, LLC, Texas Engineering Solutions would like to request an XT2 extension to the site plan expiration date for Parkside Hills LTD Shoreline Improvements. A Commission approved, one time, three year, extension is requested for this project.

The property owner has been unable to complete the permitted improvements at this time, as there has not been a drawdown of Lake Austin since it was lowered January 3rd through February 13th of 2011. An administrative, one time, one year extension was released November 5, 2013 to November 5, 2014; however mobilization and completion of work were not possible. In addition, since the lake was not lowered in this time period, it is expected that completion of the project is not feasible until the lake is drawn down again.

Therefore we request that the site plan expiration date be extended to November 5, 2017. Please contact me if you have any questions regarding this request.

Thanks for your time and consideration.

Sincerely,

Justin Lange, P.E.
