

Austin Integrated Water Resource Plan Draft Statement of Purpose

The Integrated Water Resource Plan (IWRP) aims to provide a mid- and long-term evaluation of, and plan for, water supply and demand options for the City of Austin.

Through public outreach and coordination of efforts between City departments and the Austin Integrated Water Resource Planning Community Task Force, the IWRP offers a holistic and inclusive approach to water resource planning.

The plan embraces an innovative and integrated water management process with the goal of ensuring a diversified, sustainable, and resilient water future.

Clint Dawson:

The statement of purpose looks fine to me. The only comment I would make on the Public Outreach is when we start listing 'gender, economic, ethnic,' etc. at the top it makes me nervous because we're bound to leave out some group which will then get offended. I recognize we want to be explicit about our intents to bring in diverse viewpoints. How about a broader statement such as 'seek input from stakeholders which reflect the diversity of Austin's population.' For example, I think it's important we include as many groups of young people as we can because they are the ones who are going to have to live with this plan for a long time.

William Moriarty:

The Integrated Water Resource Plan (IWRP) aims to provide a mid- and long-term evaluation of, and plan for, water supply and demand options for the City of Austin.

Through public outreach and coordination of efforts between City departments, ~~and~~ the Austin Integrated Water Resource Planning Community Task Force ~~and our Regional Water Partners~~, the IWRP offers a holistic and inclusive approach to water resource planning.

The plan embraces an innovative and integrated water management process with the goal of ensuring a ~~diversified~~, sustainable, and resilient water future, ~~with strong emphasis on advanced water conservation technology~~.
