APPLICANT: David Cancialosi

OWNER: Susan Goff

ADDRESS: 2224 PARKWAY

VARIANCE REQUESTED: The applicant has requested a variance(s) from:
A. Section 25-2, Subchapter F. Residential Design and Compatibility Standards, Article 2 (Development Standards) Section 2.1 (Maximum Development Permitted) to increase the maximum amount of development permitted on a property from the greater of 0.4 to 1.0 floor-to-area ratio (required) to 0.46 to 1.0 floor-to-area ratio (requested); and

B. Section 25-2-492 (D) (Site Development Regulations) to decrease the rear setback from 10 feet (required) to 0 feet (requested); and

C. to decrease the side street setback from 15 feet (required) to 0 feet (requested) in order to remodel a single family home in a "SF-3", Family Residence zoning district.

The applicant has requested a Special Exception under Section 25-2-476 (Special Exception) from Section 25-2-492 (D) (Site Development Regulations) to decrease the front yard setback from 25 feet (required) to 0 feet (requested) in order to maintain an existing deck constructed more than 10 years ago in an "SF-3", Family Residence Zoning District.

BOARD'S DECISION: POSTPONED TO January 12, 2015 BY APPLICANT

RENOTIFICATION REQUEST: The applicant has requested a variance(s) from:
A. Section 25-2, Subchapter F. Residential Design and Compatibility Standards, Article 2 (Development Standards) Section 2.1 (Maximum Development Permitted) to increase the maximum amount of development permitted on a property from the greater of 0.4 to 1.0 floor-to-area ratio (required) to 0.46 to 1.0 floor-to-area ratio (requested); and B. Section 25-2-492 (D)

(Site Development Regulations) to decrease the rear setback from 10 feet (required) to 0 feet (requested) in order to remodel and expand a single family home in a "SF-3", Family Residence zoning district.

Jan 12, 2015 - POSTPONED TO February 9, 2015 AT THE APPLICANT'S REQUEST

Feb 9, 2015 9, WITHDRAWN BY APPLICANT FOR SPECIAL EXCEPTION AND POSTPONED VARIANCE TO March 9, 2015 AT THE APPLICANT'S REQUEST

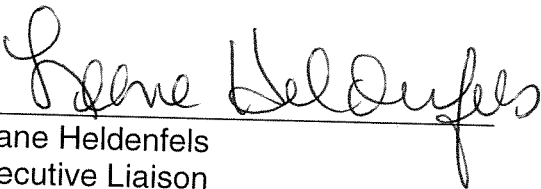

MARCH 9, 2015 POSTPONED TO APRIL 13, 2015 AT THE APPLICANT'S REQUEST

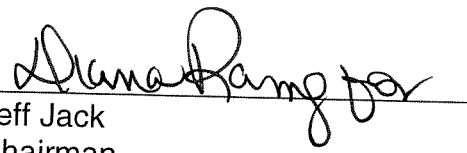

Re-notification request - The applicant has requested a variance(s) from Section 25-2-492 (D) (Site Development Regulations) to decrease the front setback from 25 feet (required) to 12 feet (requested) in order to maintain a recently reconstructed elevated deck for a single family home in a "SF-3", Family Residence zoning district.

BOARD'S DECISION: POSTPONED TO June 8, 2015 AT THE APPLICANT'S REQUEST; June 8, 2015 The public hearing was closed on Board Member Ricardo De Camps motion to Postpone to July 13, 2015, Board Member Michael Von Ohlen second on a 6-1 vote (Board Member Jeff Jack nay); POSTPONE TO July 13, 2015.

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:
(b) The hardship is not general to the area in which the property is located because:
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

RE: 2224 Parkway materials – July agenda case # C15-2014-0159

Dear Commissioners:

The aforementioned case is a variance request to maintain a deck in the same location that it's been in since approximately 1981. The current owner bought the property from long-time owners and started to repair the deck under a city-issued 'repair' permit. The necessary work exceeded the initial repair scope, and it was deemed by the building inspections department after further review that the deck would no longer qualify for a Special Exception as outlined in LDC 25-2-476. As such, the request before the Board was amended to a variance that required findings of fact. The applicant presented the case in June 2015; however, the Board inquired as to the year of the deck's origination in what appeared to be in keeping with a Special Exception. The applicant was unable to provide this information, as the request before the Board was for a variance which no date of origination is required since variances are based on hardships and findings of fact – all of which were clearly provided in the Board's back up material and case presentation during the June 8 public hearing. The applicant offered to the Board supplemental information, but it was deemed inadequate to approve at that time.

As such, please find attached two exhibits delineating the deck's footprint in both the 1997 and 2012 COA GIS arials. Also in the applicant's possession is an email from the prior owner's son stating the deck was built around 1981. In all sense of the Ordinance, the deck clearly meets the benchmarks for a Special Exception. However, since the contractor unknowingly exceeded the scope of work, the City is now prohibiting the owner from seeking relief under that code section. Thus, the request before you is for a variance to allow an approximate 35 year old deck that was / is in dire need of repair to remain in it's current footprint. The footprint encroaches into the setback by 12' at its most non-compliant point. That encroachment decreases as the deck remains parallel to a bending property line that rounds the intersection of this multi-sided corner lot. This lot is a multi-sided corner lot with an approximate 20' change in slope from the rear toward the front of the lot. That site is subject to a lengthy 25' front setback that bends into a 15' street side setback asit continues around the entire 'rear' portion of the lot. There is virtually no rear 10' setback. Further, the uncovered deck in the front yard is virtually the only practically utilized yard area given the lot's slope and orientation. This represents a

significant challenge and hardship when attempting to redevelop the existing residence in accordance with performance standards outlined in SF-3 zoning LDC 25-2-492(D).

The applicant has worked diligently to receive multiple approvals from the City that include HLC approval for the 2nd floor addition. The site is also expected to receive approval for a partial easement vacation to allow a 1.0 SF portion of the residence to remain in the PUE between the date of this letter and July 13 BOA. And, the site has cleared all of the Residential Review zoning comments as of the July 13 BOA.

Last, at the June 8 BOA the Board inquired whether an additional variance is necessary for the 2nd floor addition over the existing legal non-complying wall that faces the street side yard setback along Windsor. The applicant pointed out that COA Zoning review staff has not identified this as an issue and went on to provide the relative code section allowing the increased height of a legal non-complying wall by right in LDC 25-2-963(f)(1)(b) that states:

A person may modify a building that is a noncomplying structure based on a yard setback requirement of this title if... unless located in a street side yard, is not greater in height than the existing noncomplying portion of the building, except for a vertical change in finished floor elevation allowed under Subsection (B)(2) of this section...

This section is interpreted to mean that a legal non-complying wall height can only be increased if it is within a street side yard setback. The wall in question is, in fact, within a street side yard.

Due to simplicity of this case and the amount of outreach performed with the Old Enfield Neighborhood association as well as the two (2) adjacent neighbors – none of which oppose this case – the applicant requests, if possible, the Board approve this item on consent at the beginning of the July 13 hearing.

Sincerely,

David C. Cancialosi

I/We David Cancialosi on behalf of myself/ourselves as authorized agent for

Susan Goff affirm that on March 1, 2015, hereby apply for a hearing before

the Board of Adjustment for consideration to:

**(check appropriate items below and state what portion of the Land Development Code you
are seeking a variance from)**

ERECT _____ ATTACH _____ COMPLETE _____ REMODEL X MAINTAIN

Variance from LDC 25-2-492 (D) to maintain an existing deck with a 11' front yard setback.

in a **SF-3-CO-NP** district.
(zoning district)

**NOTE: The Board must determine the existence of, sufficiency of and weight of
evidence supporting the findings described below. Therefore, you must complete each
of the applicable Findings Statements as part of your application. Failure to do so may
result in your application being rejected as incomplete. Please attach any additional
support documents.**

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

REASONABLE USE:

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

The residential site is requesting that an existing uncovered wooden deck remain in the same footprint since it's date of original construction. It is believed the deck was built in the early 1980's based on discussions with prior owners. The current owner was issued an express permit to repair the deck, however, exceeded that scope of work without fully understanding that a remodel permit would be required to improve the structural components of the deck.

The building inspector (Tony Hernandez, since retired) originally approved the deck for a Special Exception, but the inspections department will currently not issue a life safety letter due to the amount of structural improvements made by the owner's GC (to maintain the same footprint). The current application is requesting a variance for an 11' front yard setback. The owner proposes to improve the footing, add siding below the deck to shade the dirt behind it (the lot slope creates a small crawl space under the home's foundation), and maintain the same footprint.

HARDSHIP:

2. (a) The hardship for which the variance is requested is unique to the property in that:

The site is a corner lot at the corner of Parkway and East Windsor Road. The site is unique in that it has a 25' front setback and an unusually large area of 15' street side yard setback along East Windsor that wraps around what is considered the rear of the house. So there is no traditional front, side, or rear yard area with the exception of the 5' interior side setback adjacent to 2222 Parkway. The original house was built fairly close to the respective setback lines. Neither the house footprint nor deck is exactly parallel with either street. This creates varying degree of noncompliance with the front setback due to deck encroachment. The deck does not encroach into the front setback for the full width of the deck, and decreases it's noncompliance towards the southern portion of the lot. Last, because the lot has steep slope from the rear (the lot is higher on East Windsor) toward Parkway, the home's 1st floor is not at grade level when viewed from Parkway. Thus, the deck allows an alternative to building large retaining walls to provide at grade access, and also allows access to and from the exterior of the home in a more reasonable manner. The one-car garage is original to the structure and is accessed from Parkway. The garage provides access to the home. There will be no habitable enclosures behind the siding placed on the lower portion of the deck. The siding only acts to screen the deck's structural supports, the home's foundation, and earth.

- (b) The hardship is not general to the area in which the property is located because:

There are no known residential sites in the area that have an existing residence and deck on a multi-side corner lot that have long lengths of 15' street side yard setback and 25' front yard setback applied to the lot.

AREA CHARACTER:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Maintaining the deck's footprint will not alter the character of the area in that the deck has been there for ~30 years without issue or known complaints. The agent has met with two adjacent neighbors who have not objected to the renderings and site plan shown to each of them at 1:1 meetings. The neighborhood association has indicated a vote of no opposition to the variance request. The siding placed on the lower portion of the deck will match the new siding on the residence. The owner has gone to great length to repurpose the residence and deck in a manner consistent with the surrounding architecture and requests that the Board allow the deck to be rebuilt to current 2012 IRC standards in the same footprint.

NOTE: ~~The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.~~

Subject: Re: 2224 Parkway

My Vespaio case is actually JUNE BOA but if we can notice the April case for 11' front setback then let's do it. If BOA postponed due to HLC then it is what it is.

Otherwise let's move to May if 11' setback is not able to be posted.

Please let me know on that.

No objections at this time.

Kind Regards,
 DC

Hi David – I was able to get it into the packet before it went to the printer, so up to you. We'll have to renotify if postponed again since 60 days will have passed since last notice was mailed, but that's not a charge to you. Some members may question why need for postponement again, but you can say for historic review to be completed and that would be a valid reason. Do hate for you to come and then get postponed awaiting historic, could happen. Any neighbors that may object to postponement?

Subject: 2224 Parkway BOA case

Importance: High

Leane, I am the agent for the owner at 2224 Parkway. I am formally requesting the special exception request for the existing deck be withdrawn. Also, I am formally requesting the language for the two (2) variances be amended to (1) remove the request for increasing the height of a non-complying wall as well as (2) remove the FAR request.

Instead, that language should be amended to include only a single variance for the existing deck to encroach into the 25' front yard setback with a 6' setback being proposed.

I am requesting the variance be postponed to March.

I will be at the February 9 hearing to answer any questions of BOA commissioners re: this case.

Sophie, can you confirm the exact distance of the deck's closest point from the property line?

Subject: 2224 parkway

Good afternoon, I am looking for clarification regarding to what specific agenda date the above case was postponed to?

For the record I believe I have the variances for the wall and FAR removed and we will only be seeking special exception for the existing deck. A prior owner's daughter verified via email that it was built in 1980.

Do you believe that any further documentation is required to substantiate the date or not?

Many thanks.

Subject: Re: Regarding the Notice of Public Hearing for 2224 parkway

If I must humiliate the City of Austin I will. But how about we deal with the repair that was done on the deck in 2004 and turned the carport into a roof for the carport deck/expansion in the setback and apply for our exception on that, because we have the COA GIS Satellite showing the deck, Just like it is over 10 years old. The inspector is saying we added on, so is his boss. Lets get our stop work order taken off so we can comply as instructed and I will meet with the neighborhood association and Historical and make the second floor addition a happy happy Architectural addition to the neighborhood. Or I will bring in the e-mails on what the City has done to my clients. All the money they have had to spend, and delays that where totally uncalled for. The wrong paper work issued to the neighborhood etc... The list really goes on. Now the neighbor that has called the police and we are 1" from the property line thinks we are trying to get rid of our 10' rear yard setback which is adjacent to his property. Thats really great. Thanks Leanne. I made sure we DID NOTHING EVEN NEAR HIS PROPERTY! Except repair the foundation of a historical house. The cornerstone to the the neighborhood. And I have to make modifications to the one corner where the roof overhang extends on his property and fire rate. The "NOTICE OF PUBLIC HEARING AND DEVELOPMENT CODE VARIANCE" IS WRONG FOR THE SECOND MONTH IN A ROW! FYI...Neighborhood Association is attached to this e-mail and so Is historical Commission. It is a 77 year old deck we are discussing.

On Fri, Jan 2, 2015 at 10:27 PM, liz purcell <purcelldesigns@gmail.com> wrote:

The publication is not correct. Only Item A is correct. We are asking for the increase from 40% to 46% regarding our FAR. Item B has nothing to do with our case and is not included in our paper work. I had mentioned it, but I am not even going to raise those ceilings in the little room with everything else. Our paper work requested an exception for an existing deck, that according to TCAD has been in existence since the 30's. When I first applied for this hearing on 2224 Parkway these were the two Items I applied for. Then a gentleman at the City added on that we planned to build within our 15' street side yard setback, which was on our December agenda. It took a month for me to prove that, according to code, we are allowed to do just that. So after a month of showing the City their code, that issue has been dismissed.

Now we have a deck, that is sitting over the 25' yard setback that I can at least prove has been there for over 10 years, including the carport, that is not a carport. The City required we send out the inspector to do a life safety inspection and then we bring this existing deck, that according to TCAD is over 77 years old, into code. He left the contractor a report from another site with the wrong address and I had to contact him to get the right report with the correct address. But, the inspector has now shut down the required improvements on this deck. Our LICENSED engineer has submitted a letter to the Inspector, after performing an inspection, that the contractor did not demo or remove or modify anything on this deck that was not rotted or non-code compliant. This will not look good for the City if this issue is brought before the committee with our proof on January 12th. Terry Ortiz, PE is prepared to speak on the fact that our Job Progress, ordered by the City, needs to have the stop work order removed before our hearing. If our hearing regarding this deck is postponed another month because we have not completed work on a life safety issue, well that sure will not go well with my clients.

Leane, this hearing will not really look good to the public on the incompetency of your department if that stop order is not immediately removed. And when we have not completed the life safety issue construction because of an inspector who is incorrect and over worked and overwhelmed.... well I don't believe it should be my

The publication is not correct. Only Item A is correct. We are asking for the increase from 40% to 46% regarding our FAR. Item B has nothing to do with our case and is not included in our paper work. I had mentioned it, but I am not even going to raise those ceilings in the little room with everything else. Our paper work requested an exception for an existing deck, that according to TCAD has been in existence since the 30's. When I first applied for this hearing on 2224 Parkway these were the two Items I applied for. Then a gentleman at the City added on that we planned to build within our 15' street side yard setback, which was on our December agenda. It took a month for me to prove that, according to code, we are allowed to do just that. So after a month of showing the City their code, that issue has been dismissed.

Now we have a deck, that is sitting over the 25' yard setback that I can at least prove has been there for over 10 years, including the carport, that is not a carport. The City required we send out the inspector to do a life safety inspection and then we bring this existing deck, that according to TCAD is over 77 years old, into code. He left the contractor a report from another site with the wrong address and I had to contact him to get the right report with the correct address. But, the inspector has now shut down the required improvements on this deck. Our LICENSED engineer has submitted a letter to the Inspector, after performing an inspection, that the contractor did not demo or remove or modify anything on this deck that was not rotted or non-code compliant. This will not look good for the City if this issue is brought before the committee with our proof on January 12th. Terry Ortiz, PE is prepared to speak on the fact that our Job Progress, ordered by the City, needs to have the stop work order removed before our hearing. If our hearing regarding this deck is postponed another month because we have not completed work on a life safety issue, well that sure will not go well with my clients.

Leane, this hearing will not really look good to the public on the incompetency of your department if that stop order is not immediately removed. And when we have not completed the life safety issue construction because of an inspector who is incorrect and over worked and overwhelmed.... well I don't believe it should be my clients who are detained and have to pay fee after fee after fee because permit applications are expiring, at my clients expense, construction crews are halted, at my clients expense.

The media would love this story. Please see what you can do! The hearing is video taped and public record. We haven't even gotten to the 2nd story addition yet. These are all pre-existing problems this house would have if I applied to add a storage room to the house and never even tried to add a second floor. I will make sure to have every e-mail where I showed your supervisor proof I was allowed to build within the 15' setback. I will submit a photocopy of the inspection report left with my contractor with the wrong address. And I will have all of these documents on my USB stick for all to see. I will have the TCAD that says this deck was built in 1938 and

I HAVE Historical and Next week will have the neighborhood also behind our project, because I am working with historical and will do whatever it takes to make the neighborhood association happy. Right now, WE ARE JUST TRYING TO REPAIR THE EXISTING HOUSE AND WE ARE BEING SHUT DOWN! It sure looks from the TCAD report that the deck was built in 1938 and a carport. and in 2004 they repaired the carport and added the roof of the carport to the existing deck.

Heldenfels, Leane

From: McDonald, John
Sent: Monday, December 22, 2014 3:36 PM
To: Heldenfels, Leane
Subject: 3-sided lot (2224 Parkway)

See pasted below.

25-1-22 - MEASUREMENTS.

(D) In determining required yards and setbacks for an irregularly shaped lot or a lot bounded by only three lot lines, the rear lot line is:

- (1) a line ten feet long;
- (2) parallel to the front lot line; and
- (3) at the most distant location from the front lot line.

(41) FRONT LOT LINE means:

- (a) for an interior lot, the lot line abutting the street;
- (b) for a corner lot, the lot line designated as the front lot line by a subdivision or parcel map, or, if none, the shorter lot line abutting a street;
- (c) for a through lot, the lot line abutting the street that provides the primary access to the lot; and
- (d) for a flag lot, the lot line designated as the front lot line by a subdivision or parcel map, or if none, the line determined by the building official to be the front lot line.

The code is so vague on an irregularly shaped lot and the definition of a front lot line we considered the front on Parkway with a street side yard on Windsor.

APPLICANT: Elizabeth Purcell

OWNER: Susan Goff

ADDRESS: 2224 PARKWAY

VARIANCE REQUESTED: The applicant has requested a variance(s) from:

A. Section 25-2, Subchapter F. Residential Design and Compatibility Standards, Article 2 (Development Standards) Section 2.1 (Maximum Development Permitted) to increase the maximum amount of development permitted on a property from the greater of 0.4 to 1.0 floor-to-area ratio (required) to 0.46 to 1.0 floor-to-area ratio (requested); and

B. Section 25-2-492 (D) (Site Development Regulations) to decrease the rear setback from 10 feet (required) to 0 feet (requested); and

C. to decrease the side street setback from 15 feet (required) to 0 feet (requested) in order to remodel a single family home in a "SF-3", Family Residence zoning district.

The applicant has requested a Special Exception under Section 25-2-476 (Special Exception) from Section 25-2-492 (D) (Site Development Regulations) to decrease the front yard setback from 25 feet (required) to 0 feet (requested) in order to maintain an existing deck constructed more than 10 years ago in an "SF-3", Family Residence Zoning District.

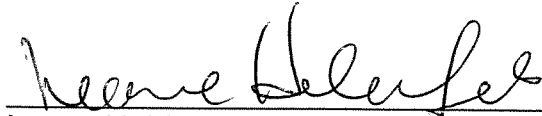

BOARD'S DECISION: POSTPONED TO January 12, 2015 BY APPLICANT

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:

(b) The hardship is not general to the area in which the property is located because:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

ARTICLE 8. NONCOMPLYING STRUCTURES.

§ 25-2-961 NONCOMPLYING DEFINED.

NONCOMPLYING means a building, structure, or area, including off-street parking or loading areas, that does not comply with currently applicable site development regulations for the district in which it is located, but did comply with applicable regulations at the time it was constructed.

Source: Section 13-2-331; Ord. 990225-70; Ord. 031211-11.

§ 25-2-962 STRUCTURES COMPLYING ON MARCH 1, 1984.

(A) A structure that complied with the site development regulations in effect on March 1, 1984, is a complying structure notwithstanding the requirements of this chapter.

(B) A structure that complies with the site development regulations does not become a noncomplying structure as the result of a change in the use, zoning, or development of adjacent property.

Source: Section 13-2-820; Ord. 990225-70; Ord. 031211-11.

§ 25-2-963 MODIFICATION AND MAINTENANCE OF NONCOMPLYING STRUCTURES.

(A) Except as provided in Subsections (B), (C), and (D) of this section, a person may modify or maintain a noncomplying structure.

(B) The following requirements must be met in order to modify, maintain, or alter a non-complying residential structure:

(1) Demolition or removal of walls must comply with the following requirements:

(a) No more than fifty percent of exterior walls and supporting structural elements of the existing structure may be demolished or removed, including load bearing masonry walls, and in wood construction, studs, sole plate, and top plate. For purposes of this subsection, exterior walls and supporting structural elements are measured in linear feet and do not include the roof of the structure or interior or exterior finishes.

(b) Replacement or repair of structural elements, including framing, is permitted if required by the building official to meet minimum health and safety requirements.

(2) Replacement or alteration of an original foundation may not change the finished floor elevation by more than one foot vertically, in either direction.

(3) For any residential use other than a single-family use in an SF-3 or more restrictive zoning district, the following requirements must be met in order to add square footage or convert accessory space into conditioned or habitable space:

(a) If the lot is non-complying with current lot size or lot width requirements, the cost of improvements may not exceed 20 percent of the value of the structure before the improvements.

(b) Compliance with current parking and occupancy regulations is required.

(4) If a noncomplying portion of a structure is demolished, it loses its noncomplying status and may only be rebuilt in compliance with current code.

(C) Except as provided in Subsections (E) and (F), a person may not modify or maintain a noncomplying structure in a manner that increases the degree to which the structure violates a requirement that caused the structure to be noncomplying.

(D) The following requirements must be met in order to repair, reinforce, or maintain a non-complying dock, bulkhead, or shoreline access as defined in Section 25-2-1172 (*Definitions*), or to modify a noncomplying dock:

(1) Modification of a dock must comply with the following requirements:

(a) the dock must be an accessory to a single-family residence;

(b) the alteration must be confined within the existing footprint;

- (c) the total footprint of the dock must be reduced by 50%;
 - (d) the number of boat slips on the dock is reduced by 50%; and
 - (e) the alternation may not increase the degree to which the structure violates a requirement that caused the structure to be noncomplying.
 - (2) Repair, reinforcing, or maintaining a noncomplying dock, bulkhead, or shoreline access must comply with the following requirements:
 - (a) no more than 50 percent of existing piles, pilings, or sheet pile or no more than 50 percent of the length of the dock, bulkhead, or shoreline access may be removed or replaced; and
 - (b) the location, footprint, and degree of noncompliance of the structure is not altered;
 - (3) Demolition is subject to the limitation in Subsection (B)(4) of this Section.
 - (E) A person may increase the height of a building that is a noncomplying structure based on a height requirement of this title if:
 - (1) the increase is made to a portion of the building that:
 - (a) does not exceed the existing maximum height of the building; and
 - (b) complies with the yard setback requirements of this title;
 - (2) the increase does not exceed 15 percent of the existing maximum height of the building; and
 - (3) after modification, the height of the modified portion of the building does not exceed the existing maximum height of the building.
 - (F) A person may modify a building that is a noncomplying structure based on a yard setback requirement of this title if:
 - (1) the modified portion of the building:
 - (a) does not extend further into the required yard setback than the existing noncomplying portion of the building, except for a vertical change in finished floor elevation allowed under Subsection **(B)(2) of this section:**
 - (b) **unless located in a street side yard,** is not greater in height than the existing noncomplying portion of the building, except for a vertical change in finished floor elevation allowed under Subsection (B)(2) of this section; and
 - (c) complies with the height requirements of this title; and
 - (2) the additional length of a modified portion of the building does not exceed the lesser of 50 percent of the length of the noncomplying portion of the building or 25 feet measured from the existing building and parallel to the lot line.
 - (G) Subsection (F) applies to each yard setback requirement with which the existing building does not comply.
 - (H) A person may modify a noncomplying building once under Subsection (E) and once under Subsection (F). This section does not prohibit a person from modifying a building along more than one yard setback as part of a single project.
- Source: Sections 13-2-820 and 13-2-823; Ord. 990225-70; Ord. 031211-11; Ord. 20060216-043; Ord. 20060309-058; Ord. 20060622-022; Ord. 20060928-022; Ord. 20100624-149; Ord. 20101209-075.*

§ 25-2-964 RESTORATION AND USE OF DAMAGED OR DESTROYED NONCOMPLYING STRUCTURES.

- (A) A person may restore a noncomplying structure that is damaged or destroyed by fire, explosion, flood, tornado, riot, act of the public enemy, or accident of any kind if the restoration begins not later than 12 months after the date the damage or destruction occurs.
- (B) Except as provided in Section 25-2-963 (*Modification And Maintenance Of Noncomplying Structures*):

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
 - appearing and speaking for the record at the public hearing;
- and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of the case.

To: liz purcell [REDACTED]

We didn't have to renote the special exception, it was just postponed. We did send a new notice on the variance because we needed to take off the street side yard variance not needed.

I do think you'll have to come back one more time to get the deck reviewed as a full variance rather than a special exception, but that won't preclude them from acting on your other two requests (for FAR and rear setback), though they may ask why not go to RDCC for FAR (I know you'll say because you had other variances pending, but they still like to limit the number of variances they grant so may want you to go to them first).

Just my thoughts, not positive on what's going to happen – good luck in your meeting w/ Neighborhood -
Leane

but it is not even on the agenda sent to me in the mail. This will also mean my clients will have to PAY MORE Money for the engineer to attend. If this hearing doesn't resolve some of these issues I just advised my clients to hire an attorney. I am meeting with the neighborhood association on Thursday. This is Absolutely UNCALLED FOR!

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak **FOR** or **AGAINST** the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of the case.

Subject: Re: Board of Adjustment Meeting Monday 1/12 at City Hall Council Chambers starting at 5:30

Hi Leane,

Liz Purcell is no longer representing me (2224 Parkway) for my permit application. I have not had a chance to meet with the new company yet and will need a postponement. I would also like to apologize to you for Liz's behavior. I am very sorry if she has offended you in anyway. Please let me know if there is anything else you may need from me.

Thanks,
Maile Roberts-Loring

On Fri, Jan 9, 2015 at 3:33 PM, Heldenfels, Leane <Leane.Heldenfels@austintexas.gov> wrote:

Greetings Board of Adjustment Applicants:

Attached is the agenda for Monday's meeting, please print a copy so you can follow along with the meeting proceedings, we won't have paper copies at the meeting.

Please take a look at the back-up we have downloaded for your cases at the Board and Commission website. If you see something is missing, bring 10 copies of that info to the meeting.

We will have a late back up packet that will include all correspondence (mostly responses from the public notice) received between when we sent the packet to the board and noon Monday. I will have a copy of the late back-up with your case number written on it at the sign in table so you can see if we received any late responses on your case.

If you find you need to postpone or withdraw your case, email me and advise. The Board will vote on whether or not to postpone cases as requested at the beginning of the meeting, so if possible please attend just the beginning of the meeting if you are requesting postponement in case they have questions about the request and in case there is opposition to your request.

I can validate parking stubs for the garage below the building, just remember to bring them up with you.

Take care – let me know if there are any other issues, questions, concerns with your case that haven't been covered –

Leane Heldenfels

**Re: Postponement Request of the Old Enfield Homeowners Association of Items M-1 and K-1;
2224 Parkway (C15-2014-0159).**

Dear Ms. Heldenfels,

The Old Enfield Homeowners Association ("OEHOA") respectfully requests a postponement of consideration of Items M-1 (variances) and K-1 (special exception) for 2224 Parkway. OEHOA is the designated neighborhood association for the Old Enfield neighborhood.

The applicant is requesting significant variances and a special exception, and has made no effort whatsoever to communicate with OEHOA regarding their development plans or these specific requests. The variances sought include effectively removing existing setbacks from 15' and 10' to 0' and 0', respectively, and a variance from maximum floor-to-area ratios contained within the Residential Design and Compatibility Standards of Code. We would ask that the Board of Adjustment take no action on either the variance requests or the special exception until such time as the applicant has engaged with OEHOA, immediate neighbors and interested parties.

Thank you for your consideration of this request.

Sincerely,

Marlene Romanczak
President, OEHOA

Subject: Re: 2224 Parkway

I will postpone it all... its okay. I would rather anyway...better to have the neighborhood on my side even though they have known about this for months, never answered my e-mails until you forwarded it, and have a disconnected phone number as the contact. So I really need to be there for a postponement? I just guess if the deck is finished by the next hearing they wont postpone me on that next time

5-2014-0159

I will talk with Leane in the morning and see what she thinks. At this point I am just trying to address the issues of the existing house as it sits. IE foundation repair, existing deck issue, and the portion of the house that is sitting in the utility easement. I don't mind postponing at all on the second floor addition issues, I had spoken with the client already about that probability before I even spoke with you.

If you look at my proposed new roof plan, it will be modified per historic recommendations slightly and the proposed second floor addition will be altered per recommendations by all concerned. But the deck has the only access my clients have to the front yard. And as you can see, if it is not approved for exception.... there is not much I can do but tear it down. The only access to a deck will lead to a 15' drop and the only other access to a new conforming deck would be through a bed room. If I don't get the exception for the deck, I will instruct the clients not to move forward with a second floor so we can keep the deck and then we wont need to have any more hearings. What good is a house that you cant sit on your deck and look at the park?

On Sun, Dec 7, 2014 at 5:19 PM, liz purcell <[REDACTED]> wrote:

I don't have to have a variance on the deck. I have proven it is over 10 years old and Leane has already had us begin repairs. I really don't like my clients having to pay to repair something that will still be awaiting a hearing. That deck has no relationship to any thing else we are doing. It has been there forever and is not safe and has NOTHING to do with my proposal for a second floor.. We are requesting an exception on it, nothing more. We are repairing it and bringing it to life safety codes. Why does the neighborhood Association even have concerns over the deck?

Should I really inform my clients that the City requested they move forward with repairs on something that could possible be required to be torn down? TCAD shows that deck has been there since the 30's just like that house, but I cannot find proof of its existence prior to the oldest city of austin GIS website satellite images. If I hadn't applied to add a second floor the deck would not have any been an issue and I would have been allowed to pull express permits to repair it, just like I did. However, I just want to make sure it will be allowed to remain before construction gets any further along.

I would just like to put at least one of many issues to rest.

Yes I would love to meet...any time sounds good to me.

On Dec 5, 2014, at 8:02 PM, liz purcell <[REDACTED]> wrote:

I sent several e-mails at the beginning of the year when I began the project with no response. You were also notified of the historic hearing that we are approved with conditions weren't you? That was 2 months ago. The project has every hurdle that a project can have...I have been working with Steve Sadowsky with his recommendations. Most of our variance request is because of the existing deck that has been there forever. It is over the 25' setback. We are just trying to add a second floor but because of the shape of the lot...every thing is a problem, and mostly issues regarding the original house (historic house). I would gladly like a postponement but would request we proceed with the deck issues. It is only being repaired and brought up to life and safety codes. right now we are just leveling the house and that is a whole other nightmare. I am keeping all of the original house except the roof where I am going up. I would love to meet with the board.. just tell me when and where.

I will request a postponement also except for the deck

I visited the site, and the floor is actually 4" lower and was built that way, leveling the foundation did not cause the 4" difference in elevation, also, code requires a min of 7' ceiling height. If you want to raise the floor and ceiling you would need to get the appropriate permit to reflect it. The active permits for the site are for a foundation repair and an expess permit to replace sheetrock, and a permit to add a 2nd floor which has been rejected, any work outside that scope will need to be permitted to reflect this.

Subject: 2224 parkway

We occurred a problem in leveling this portion of the house that i had no intention of modifying. This portion of the house was probably a garage, and during leveling it ended up with a slope of approximately 4" from west to east. It also has 7' ceilings that i was planning of just vaulting to get adequate ceiling height.

(F) A person may modify a building that is a noncomplying structure based on a yard setback requirement of this title if:

(1)

the modified portion of the building:

(a)

does not extend further into the required yard setback than the existing noncomplying portion of the building, except for a vertical change in finished floor elevation allowed under Subsection (B)(2) of this section;

(b)

unless located in a street side yard, is not greater in height than the existing noncomplying portion of the building, except for a vertical change in finished floor elevation allowed under Subsection (B)(2) of this section; and

(c)

complies with the height requirements of this title; and

(2)

the additional length of a modified portion of the building does not exceed the lesser of 50 percent of the length of the noncomplying portion of the building or 25 feet measured from the existing building and parallel to the lot line.

(b)(2) Replacement or alteration of an original foundation may not change the finished floor elevation by more than one foot vertically, in either direction.

In order to level this area of the house it will crack all of the walls and provide un -usable ceiling heights.

I also am required to comply with:

(a) No more than fifty percent of exterior walls and supporting structural elements of the existing structure may be demolished or removed, including load bearing masonry walls, and in wood construction, studs, sole plate, and top plate. For purposes of this subsection, exterior walls and supporting structural elements are measured in linear feet and do not include the roof of the structure or interior or exterior finishes.

(b)

Replacement or repair of structural elements, including framing, is permitted if required by the building official to meet minimum health and safety requirements.

will this cause a new Historical review Steve?

and will the replacement of the roof structure and raising the walls count towards my 50% if it is necessary Susan?

Subject: The neighborhood association wants a postponement

I am in agreement with this due to the little (major error) the residential reviewers made on 4 separate occasions regarding our 15' setback. I am requesting the hearing for the deck move forward...But postpone the rest. We want to make the neighborhood association happy. They haven't had time to review our case. Even though they were notified about our project when we had our historic hearing several months back....So don't plan on coming Monday, I will still attend and move forward with the deck.

FYI.. The phone number on the City of Austin website for your neighborhood association is disconnected. I sent them several e-mails way back when to try and reach someone. I finally gave up! I even asked Maile if she could put me in contact with someone. Leane at the City had to help me finally contact them. They knew about our historical hearing and they were a no show. They were notified about that hearing and this hearing, just like we were.

That was 2 months ago. The project has every hurdle that a project can have...I have been working with Steve Sadowsky with his recommendations. Most of our variance request is because of the existing deck that has been there forever. It is over the 25' setback. We are just trying to add a second floor but because of the shape of the lot...every thing is a problem, and mostly issues regarding the original house (historic house). I would gladly like a postponement but would request we proceed with the deck issues. It is only being repaired and brought up to life and safety codes. right now we are just leveling the house and that is a whole other nightmare. I am keeping all of the original house except the roof where I am going up. I would love to meet with the board.. just tell me when and where.

I will request a postponement also except for the deck

Ms. Heldenfels -

You and I spoke the other day about this case. I was under the impression that the hearing had been postponed until January because of an incorrect address and an incorrect subject tract designation on the Notice. I see that it is listed on the Agenda for tomorrow, December 8. Could you please let me know the status of this case?

I have copied Jason Thompkins on this email as President of the West 31st Street Creekside Neighborhood Association.

Thank you. Susan Philips

Subject: Re: 2224 Parkway
Attachments: Goff- SP1-terry.pdf; SP1.0.pdf

I will talk with Leane in the morning and see what she thinks. At this point I am just trying to address the issues of the existing house as it sits. IE foundation repair, existing deck issue, and the portion of the house that is sitting in the utility easement. I don't mind postponing at all on the second floor addition issues, I had spoken with the client already about that probability before I even spoke with you.

If you look at my proposed new roof plan, it will be modified per historic recommendations slightly and the proposed second floor addition will be altered per recommendations by all concerned. But the deck has the only access my clients have to the front yard. And as you can see, if it is not approved for exception.... there is not much I can do but tear it down. The only access to a deck will lead to a 15' drop and the only other access to a new conforming deck would be through a bed room. If I don't get the exception for the deck, I will instruct the clients not to move forward with a second floor so we can keep the deck and then we wont need to have any more hearings. What good is a house that you cant sit on your deck and look at the park?

On Sun, Dec 7, 2014 at 5:19 PM, liz purcell <purcelldesigns@gmail.com> wrote:

I don't have to have a variance on the deck. I have proven it is over 10 years old and Leane has already had us begin repairs. I really don't like my clients having to pay to repair something that will still be awaiting a hearing. That deck has no relationship to any thing else we are doing. It has been there forever and is not safe and has NOTHING to do with my proposal for a second floor.. We are requesting an exception on it, nothing more. We are repairing it and bringing it to life safety codes. Why does the neighborhood Association even have concerns over the deck?

Should I really inform my clients that the City requested they move forward with repairs on something that could possible be required to be torn down? TCAD shows that deck has been there since the 30's just like that house, but I cannot find proof of its existence prior to the oldest city of austin GIS website satellite images. If I hadn't applied to add a second floor the deck would not have any been an issue and I would have been allowed to pull express permits to repair it, just like I did. However, I just want to make sure it will be allowed to remain before construction gets any further along.

I would just like to put at least one of many issues to rest.

Yes I would love to meet...any time sounds good to me.

Elizabeth,

Thank you very much for responding. I certainly understand the complexities this project is presenting.

We feel strongly that since all these requests are all interrelated they should be heard at the same time. Therefore, we are still requesting a postponement for all items related to the BOA hearing regarding 2224 Parkway.

We very much would like to meet and discuss the entire project.

All my best,
Marlene Romanczak

Subject: 2224 Parkway Items for inclusion in BOA member files for 12/8 Meeting

I copied you on an e-mail exchange with Douglas McAfee and an e-mail sent by my son, Nick Hamner to Tony Hernandez who requested photos of 2224 Parkway. I would like these two e-mails included in the back up material for the Board of Adjustment on both BOA agenda items pertaining to 2224 Parkway for today's meeting.

I will also forward to you two e-mail exchanges which took place earlier between myself and Susan Purcell and Susan Purcell and City of Austin Officials when construction was taking place on the foundation. This is pertinent to the variance being sought as the second agenda item for 2224 Parkway, most particularly the second variance requested for the side yard setback. In the photos sent to Tony Hernandez, the fourth and fifth photo show the room for which the side yard variance is being sought and its proximity to, if not incursion across, the property line and to my house. Please include these two e-mails which will follow in the back up material.

Please contact me at 512-983-6708 or by e-mail to indicate receipt of this and the two follow up e-mails.

I appreciate your effort. It is my understanding from your original response to my inquiry on December 3 that this construction on the deck is being performed without an appropriate permit.
Is that correct?

As I was writing this I got a call from Tony Hernandez asking me to take pictures of this construction. He said there is a permit to repair the deck. I have not located it anywhere in the file.

I will forward this exchange to Mr. Hernandez, Susan Barr, Daniel Word, and Leane Hedenfels.

Subject: 2224 Parkway

I attempted to reach you by phone before noon today regarding this home which has multiple applications for permits pending with the City of Austin.

As best I can tell applications are pending for a variance for a deck and for setback requirements. The owner's construction contractor began dismantling the existing deck yesterday even though the Board of Adjustment meeting on it is not scheduled until December 8, 2014. I contacted the City Inspector about this yesterday. He indicated there was no permit and he would check by the site today, but as I write construction continues and I have heard nothing from him.

What is the status of construction on this house and permits pending before the Board of Adjustment? When will the agenda information for that meeting be posted and available for my review?

Was this house the subject of a RDCC meeting on December 3, 2014, as a memo in the applicant's file written by you in late November indicated might happen? There is no indication on the RDCC website this was an agenda item.

Thank you for a prompt response.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of this case.

Subject: Re: 2224 Parkway
[REDACTED]

the FAR request is on the application but now I have to justify the 15' setback that I was misinformed on four separate occasions and Susan Barr will be back in town from vacation tomorrow so I am scheduling a meeting with her and Jaun Camou to find out why they approved something so wrong!

18. Sheet A4.2

- a. dimension string height to be revised per section 3.4 of subchapter F. Elevation from which dimension is based is to be provided.
- b. Second floor addition encroaching into the street side yard property line to be noted as allowed per LDC section 25-2-963 (F)(1)(b).
- c. Roof section over south property line to be pulled back to the southern property line per comment 15.b. above.
- d. West street side property line to be provided.

This is from my rejection comments from Susan Barr from my first submittal!!!!!!!!!!!!!!!!!!!!!!...Please see comment 18 B.

Can someone at the City make this very HUGE MISTAKE RIGHT? Without my clients having to pay for it? Our design was based on this information. Being a tiny bit over on our FAR 6% with 25% allowable is nothing. BUT this? My client has paid for structural and architectural services with the wrong information.

Susan, I think it would be appropriate for you and Jaun to be at our hearing to testify to your error.
1/12/15 5:30 Or is it the Variance department that has it incorrect?

Some supervisors at the COA need to get together and figure out how to interpret this section of code and make it consistent between the departments

APPLICATION TO BOARD OF ADJUSTMENT GENERAL VARIANCE

Property: 2224 Parkway
Austin, TX 78703

Date: October 26, 2014

Client: Susan J. Goff

Permit App. No. 2014-078928 PR

We are requesting a hearing regarding ³2 variances that we are required to acquire.

The first is an existing deck that according to TCAD dates in the late 30's that sits over a 25' easement that was deeded at the time of construction of this residence.

I built as I am requesting a

And the second is for my FAR on my proposed second floor addition.

REASONABLE USE:

DECK: If I could have proved the deck is over 10 years old I could have applied for a Special Exception for this deck that has obviously been a part of this neighborhood and community for years. Please refer to **Attachment "A"** This deck encroaches into the 25' front yard setback. The house does not encroach, but the existing deck does. The portion of the deck that extends to the East provides a carport for the existing driveway, which we are bringing into code compliance.

FAR: This residence has many challenges. It is in a Historical Neighborhood. The existing kitchen wall from the original construction in the 30's and existing roof along the west wall are sitting over the P.U.E. so I am applying for an easement release on that. The deck, as mentioned above is over the 25' easement. The residence is considered non-compliant. There exists no real rear property line (I had to pay to meet with Jaun Camou, City of Austin, on Feb. 4th, 2004 to have the Residential Review make up a fictitious rear property line

for me to use. In fact, the C.O.A. had to determine where all of my property lines and setbacks begin and end, because of the unusual shape of the lot. Please Ref: **Attachment A and B**. **Attachment B** shows the property lines and setbacks as determined by the C.O.A. The residence is also 1" away from the neighbors property on the South side.

HARDSHIP:

DECK:

There is no proof anywhere how old this deck is. All of the documentation on this property varies. I have yet to find one single piece of older documentation that completely matches the others. The lot is an odd shape. We have already pulled the permit for the life and safety inspection. We have already filed for review and all of our drawings are on file at the City Of Austin to scale. The engineering address's all life and safety issues to bring the deck to current code. **Attachment "C"**. Our only modifications to the deck will be replacing the decking and a new guardrail.

FAR:

Because the house is non-compliant, I am not allowed to remove more than 50% of exterior walls and structural members. I based my design on only removing the roof structure. 25-2-963 MODIFICATION AND MAINTENANCE OF NONCOMPLYING STRUCTURES. I had to find a cleaver way of creating a second floor addition without modifying the downstairs except in a few areas of the house that I am raising the ceiling to 9'-0" because they are 7'-6" in height now and my clients would like to have all of their ceilings the same height. Ref: **Attachment "D" and "E"**. I instructed my contractor and Structural Engineer of my intent to keep original ceiling framing and work new framing into the existing to reduce the amount of demolition to the ceiling framing, which is measured in linear feet. This made the upstairs design become very tricky. I had to match, as best as possible the structural walls below. Please Ref: **Attachment "E" and "E" new proposed** New "E" proposed are the modifications to meet the Historical recommendations. I have so many hearings and variances on this project left to attend that I am not making all of my modifications, or having my Structural Engineer make modifications to our drawings until the hearing process is finished. Ref: **Attachment "F" p.1 and p.2**. I am 6% over on my FAR and request a variance due to the complexity of ALL of the zoning issues and historical issues that this project must comply to for permitting the addition of a second floor.

HARDSHIP AND NEIGHBORHOOD:

The modifications are not general to the area. Our hardships are based on the shape of our lot and the violations of the placement of our building in the 1930's that violated our setbacks and P.U.E. We only have a neighbor on one side, to the south. I am not proposing any modifications that will in anyway impact the only neighbor adjacent to the property.

AREA CHARACTER:

Neither our proposed second floor addition or our existing (age undetermined) deck will alter the area adjacent to the property. Three sides of the house are the woods with no neighbors. Most of the houses in the area are two story and there is even one that the garage doors are on the sidewalk because of its non-compliance. Our proposed modifications to our structure adds to the neighborhood. It has the thumbs up from historical. The minor overage on the FAR or the variance on the deck effect no one. I am removing the little portion of roof

that overhangs the neighbors property and fire rating that corner, that is the S.E. corner of the residence that I am not making any modifications to.

Please contact me if you have any questions.

Respectfully Submitted,

Elizabeth S. Purcell

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

25-2-476 SPECIAL EXCEPTIONS.

(A) The Board of Adjustment shall grant a special exception for an existing residential structure, or portion of an existing structure, that violates a setback required under Chapter 25-2 (Zoning) if the board finds that the special exception meets the requirements of this section.

(B) The Board shall grant a special exception under Subsection (A) of this section if:

(1) the residential use for which the special exception is sought is allowed in an SF-3 or more restrictive zoning district;

(2) the building official performs an inspection and determines that the violation does not pose a hazard to life, health, or public safety; and

(3) the Board finds that:

(a) the violation has existed for:

(i) at least 25 years; or

(ii) at least 10 years, if the application for a special exception is submitted on or before June 6, 2016;

(b) the use is a permitted use or a nonconforming use;

(c) the structure does not share a lot with more than one other primary residence; and

(d) granting a special exception would not:

(i) alter the character of the area;

(ii) impair the use of adjacent property that is developed in compliance with city code;

or

(iii) grant a special privilege that is inconsistent with other properties in the area or in the district in which the property is located.

(C) A special exception granted under this section:

(1) applies only to the structure, or portion of a structure, for which the special exception was granted and does not run with the land;

(2) may not authorize an increase in the degree of noncompliance or excuse compliance with minimum health and safety requirements; and

(3) may not authorize a remodel or addition to the existing structure, except to the extent required by the building official to meet minimum life and safety requirements.

(D) A structure granted a special exception under this section shall be treated as a non-complying structure under Chapter 25-2, Article 8 (Noncomplying Structures).

I think that I may have one additional item I would like to possibly go for a variance on. I need to see. I have a little room to the west of the house, probably the original garage. During the leveling of the house, the floor has a slope from the west side to the east. As all of you are aware, the house has every issue possible at the COA. The ceiling height in this part of the house is only 7'. And I have my "Invented by the COA" rear setback right in the middle of that room. We have already basically gotten approval from historical, but that was based on me not touching that little room. And on top of that the South East corner of the room is 1" away from the property line so I have to fire rate that corner anyway. We need to go up in that setback to get a livable ceiling height in that room. My clients are all very tall. Can I include that in one of my hearings? Could you guys all pick a day and give me all of my hearings at once? Anyway...can I combine a hearing for raising the ceiling in that little room by a foot where it is crooked on the setbacks..except the street side yard of course?

Steve, what will this do to my historic review? will I have to do another?

Subject: Heads up, potential RDCC case application coming in for your 12/3 meeting (2224 Parkway)
To: "Word, Daniel" <Daniel.Word@austintexas.gov>
Cc: "Ramirez, Elaine" <Elaine.Ramirez@austintexas.gov>, liz purcell [REDACTED]

This case was first applied for as a BOA setback for existing deck up to property line in 25' front setback and 6% FAR variance, but now we have aerial evidence that deck has been in existence for 10 years and can take the setback part of the request forward as a Special Exception.

So I recommended to applicant to take the FAR request to RDCC since Board will most likely ask if she first attempted that and then postpone her anyway since her request is for only 6% FAR increase, not over 25%.

She/applicant (Liz Purcell) wanted to keep on BOA in case she was denied at RDCC, but I told her it would cost her the fee of \$388 since notices will have to go out soon for the agenda, so now instead she will go to the 1/12 BOA if denied at RDCC in December.

Let me know if questions – she said she would come in ASAP w/ the RDCC application.

Thanks –

Leane

- Is a sidewall articulation required for this project? ☒ Y ☐ N
- Does any portion of the structure extend beyond a setback plane? ☐ Y ☒ N
- Are any ceilings over 15 feet in height? ☐ Y ☒ N

Parking Area exemption: Up to 450 square feet of a parking area may be deducted if it is a detached rear parking area that is separated from the principal structure by not less than 10 feet; or attached by a covered breezeway that is completely open on all sides, with a walkway not exceeding 6 feet in width and a roof not exceeding 8 feet in width; or a parking area that is open on two or more sides, if it does not have habitable space above it; and the open sides are clear and unobstructed for at least 80% of the area measured below the top of the wall plate to the finished floor of the carport. Up to 200 square feet may be deducted if it is an attached parking area used to meet the minimum parking requirement; or a garage that is less than 10 feet from the rear of the principal structure, provided that the garage is either detached from the principal structure; or attached by a covered breezeway that is completely open on all sides, with a walkway not exceeding 6 feet in width and a roof not exceeding 8 feet in width. An applicant may receive only one 450-square foot exemption per site under Article 3. An applicant who receives a 450-square foot exemption may receive an additional 200-foot exemption for the same site under Article 3, but only for an attached parking area used to meet minimum parking requirements.

Ground Floor Porch exemption: A ground floor porch, including a screened porch, may be exempted, provided that the porch is not accessible by automobile and is not connected to a driveway; and the exemption may not exceed 200 square feet if a porch has habitable space or a balcony above it.

Basement exemption: A habitable portion of a building that is below grade may be exempted if the habitable portion does not extend beyond the first-story footprint and is below natural or finished grade, whichever is lower; and it is surrounded by natural grade for at least 50% of its perimeter wall area and the finished floor of the first story is not more than three feet above the average elevation at the intersections of the minimum front yard setback line and the side property lines.

Habitable Attic exemption: A habitable portion of an attic may be exempted if: 1. The roof above it is not a flat or mansard roof and has a slope of 3 to 12 or greater; 2. It is fully contained within the roof structure; 3. It has only one floor; 4. It does not extend beyond the footprint of the floors below; 5. It is the highest habitable portion of the building, or a section of the building, and adds no additional mass to the structure; and 6. Fifty percent or more of the area has a ceiling height of seven feet or less.

**City of Austin
Planning and Development Review
Land Status Determination
1995 Rule Platting Exception**

March 11, 2014

File Number: **C8I-2014-0069**

Address: **2224 PARKWAY**

Tax Parcel I.D. **#0113010401**

Tax Map Date: **08/08/2013**

The Planning & Development Review Department has determined that this parcel, as described in the attached description and map, **IS EXCEPTED FROM THE REQUIREMENT TO PLAT** in accordance with the Land Development Code, Section 25-4-2(C), and is eligible to receive utility service.

The parcel of land consists of five acres or less, and is described as being a tract or parcel of land containing 0.175 acres (7,639 sq ft) out of and a part of lot 24, Enfield D and being all of that tract of land called the "north part of lot 24" in the current deed, recorded on Nov 12, 2013, in Document #2013203682, Travis County Deed Records. This parcel existed in its current configuration on January 1, 1995, as evidenced by a deed recorded on Mar 31, 1980, in Volume 6936, Page 911, Travis County Deed Records. The parcel was lawfully receiving utility service, as defined in Section 212.012 of the Texas Local Government Code, on January 1, 1995, as evidenced by water service on Mar 31, 1975. The parcel meets the requirements of the Land Development Code for roadway frontage and is located on an existing street.

Additional Notes/Conditions:
NONE

This determination of the status of the property is based on the application of Chapter 212, Municipal Regulation of Subdivisions and Property Development, Texas Local Government Code; and the City of Austin Land Development Code, Chapter 25-4, Subdivision. Recognition hereby does not imply approval of any other portion of the City Code or any other regulation.

Client: Susan J. Goff

SCOPE OF PROJECT:

The scope of work is to raise the ceilings in areas of the existing residence and add a second floor as indicated on the plans. We are only adding a stairwell to the existing footprint of the structure to gain access to the new second floor. We are a non-compliant structure but according to the code I am allowed to go up within the 15' street side yard setback as I have indicated on my plans. I have had numerous meetings with reviewers at the COA to verify everything I have done is in compliance.

The site is a "boomerang" site and I had no rear setback according to all of the legal surveys. I met with Juan Camou on Feb. 4, 2014 in a paid consultation to verify my setbacks, my non compliance issues and the exceeding of the FAR requirement and was informed that the COA made up a rear setback for the site for me to comply to and that if I exceeded the FAR that would just require sidewalks and a driveway. We are prepared to pay the fee to waiver the sidewalks and are providing a driveway with a Type 1 apron. Not only did Juan advise me on the FAR but I also had 2 other reviewers confirm that this would require sidewalks.

**CITY OF AUSTIN
APPLICATION TO BOARD OF ADJUSTMENT
GENERAL VARIANCE/PARKING VARIANCE**

WARNING: Filing of this appeal stops all affected construction activity.

**PLEASE: APPLICATION MUST BE TYPED WITH ALL REQUESTED
INFORMATION COMPLETED.**

STREET ADDRESS: 2224 Parkway

LEGAL DESCRIPTION: Subdivision – TRACT OF land Containing 0.175 acres

Lot(s) 24 Block Outlot Division I/

We Elizabeth Purcell on behalf of myself/ourselves as authorized agent for

- Susan Goff affirm that on 10 , 15 , 2004

hereby apply for a hearing before the Board of Adjustment for consideration to:

(check appropriate items below and state what portion of the Zoning Code you are seeking a variance from)

 ERECT ATTACH COMPLETE REMODEL MAINTAIN

To maintain an Exist. 489 Sq. ft. Deck built
in 1938. (TCAD has the wrong Sq. ft) a no 184.0
Sq. ft. Deck was ever built. Engineering Drawings
Have already Been Submitted to Bring the Deck up to
in a district. current Codes.

NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

REASONABLE USE:

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

SPECIAL EXCEPTION

HARDSHIP:

SEE SPECIAL EXCEPTION ATTACHMENT.

2. (a) The hardship for which the variance is requested is unique to the property in that:

This Deck is also an historical feature of the house.

- (b) The hardship is not general to the area in which the property is located because:

N/A

AREA CHARACTER:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

N/A

PARKING: (Additional criteria for parking variances only.)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonable require strict or literal interpretation and enforcement of the specific regulation because:

N/A

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

N/A

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

N/A

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

N/A

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

WE ARE APPLYING FOR A SPECIAL EXCEPTION
Please see all the * that Apply to our
Situation.

25-2-476 SPECIAL EXCEPTIONS.

(A) The Board of Adjustment shall grant a special exception for an existing residential structure, or portion of an existing structure, that violates a setback required under Chapter 25-2 (Zoning) if the board finds that the special exception meets the requirements of this section.

(B) The Board shall grant a special exception under Subsection (A) of this section if:

- * yes (1) the residential use for which the special exception is sought is allowed in an SF-3 or more restrictive zoning district;
 - * (2) the building official performs an inspection and determines that the violation does not pose a hazard to life, health, or public safety; and *Engineering Dwg. on submitted For Bringing Deck to current Code*
 - (3) the Board finds that:
 - (a) the violation has existed for:
 - * (i) at least 25 years; or *SEE T CAD ATTACHMENT*
 - (ii) at least 10 years, if the application for a special exception is submitted on or before June 6, 2016;
 - * (b) the use is a permitted use or a nonconforming use; *The house is already non-conform*
 - * (c) the structure does not share a lot with more than one other primary residence; and *NO*
 - (d) granting a special exception would not:
 - * (i) alter the character of the area; *ITS BEEN THERE SINCE 1938*
 - * (ii) impair the use of adjacent property that is developed in compliance with city code; *IT DOES NOT*
 - or (iii) grant a special privilege that is inconsistent with other properties in the area or in the district in which the property is located.
 - (C) A special exception granted under this section:
 - (1) applies only to the structure, or portion of a structure, for which the special exception was granted and does not run with the land;
 - (2) may not authorize an increase in the degree of noncompliance or excuse compliance with minimum health and safety requirements; and
 - (3) may not authorize a remodel or addition to the existing structure, except to the extent required by the building official to meet minimum life and safety requirements.
 - (D) A structure granted a special exception under this section shall be treated as a non-complying structure under Chapter 25-2, Article 8 (Noncomplying Structures).

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.
