

**ZONING CHANGE REVIEW SHEET**

C3  
/

**CASE:** C14-2015-0073

**P.C. DATE:** September 8, 2015  
September 22, 2015

**ADDRESS:** 7200 E. Ben White Blvd

**DISTRICT AREA:** 3

**OWNER/APPLICANT:** KWH Properties

**AGENT:** Thrower Design, A. Ron Thrower

**ZONING FROM:** GR-MU-NP & LI-NP **TO:** SF-6-NP **AREA:** 12.03 acres

**SUMMARY STAFF RECOMMENDATION:**

**Recommend GR-MU-CO-NP & SF-6-CO-NP (Exhibit A)**

The existing LI-NP would change to GR-MU-CO-NP and the existing GR-MU-NP would change to SF-6-CO-NP.

The Conditional Overlay would require:

-50 feet buffer along the boundary with LI-NP zoning.

-50 feet of Right-of-Way dedication within the buffer for Carson Ridge collector.

**COMMISSION RECOMMENDATION:**

Planning Commission 9/8/2015: POSTPONED to 9/22 by staff to allow notification for the Neighborhood Plan Amendment.

Planning Commission 9/22/2015:

**DEPARTMENT COMMENTS:**

The property consists of 12.03 undeveloped acres in two tracts located along the west bound frontage road of Ben White Blvd/Highway 71 East. The applicant proposes to develop the property as "Phase II" of the "Eastwood at Riverside" which is an existing detached, single-family, condominium subdivision with 117 units. Phase II would add 82 detached, single-family, condominium units. Although the units could be constructed within the GR-MU-NP portion of the site, residential is prohibited in LI-NP necessitating the zoning change request. In addition, commercial design standards along Ben White Blvd are not required for SF-6-NP. This project is proposing to take vehicle access through the existing Eastwood at Riverside development to Riverside Drive.

The East Riverside Corridor Plan shows the connection of Carson Ridge through this property to Ben White Blvd (**Exhibit B1&B2**). In addition, the Transportation department has requested the extension of Yellow Jacket Lane through the property east to west. After discussions with Transportation and the applicant, it has been determined that the staff recommended buffer along the LI-NP property can serve as the right-of-way for the

C3  
1/2

extension of Carson Ridge. When the adjacent LI-NP property to the west is redeveloped, the remaining right-of-way should be dedicated. Because of rough proportionality, the extension of Yellow Jacket Lane is not feasible in addition to Carson Ridge.

The Neighborhood Plan identified this area as an industrial use however because of its proximity to the central city it is seeing intense pressure to be developed for residential use. Recently, a large multi-family residential development is underway to the west of the adjacent LI-NP tract.

**ISSUES:** The applicant does not agree with the Staff recommendation of separate zoning for tracts 1 & 2. The applicant requests both tracts zoned SF-6. The Montopolis Neighborhood Contact Team has submitted a letter in support of the Neighborhood Plan amendment as well as the change to SF-6-NP for both tracts.

**EXISTING ZONING AND LAND USES:**

	ZONING	LAND USES
Site	GR-MU-NP & LI-NP	Undeveloped
North	SF-6-NP	Single family condominium
South	ERC	Auto Sales
East	ERC	Mobile Home/RV sales
West	LI-NP	Vacant

**NEIGHBORHOOD PLANNING AREA:** East Riverside/Oltorf Combined, Parker Lane

**TIA or NTA:** Applicant has agreed to limit site to 2000 vehicle trips per day so no TIA is required at this time.

**WATERSHED:** Suburban, Country Club Creek

**DESIRED DEVELOPMENT ZONE:** Yes

**CAPITOL VIEW CORRIDOR:** No

**HILL COUNTRY ROADWAY:** No

**STAFF RECOMMENDATION**

**SF-6-NP & GR-MU-CO-NP**

**BASIS FOR RECOMMENDATION**

Land development pressures in this area are changing the uses from light-industrial to residential. Because of this property's proximity to LI and its frontage along Ben White Blvd, staff is recommending:

LI-NP to GR-MU-CO-NP (Tract 1)

GR-MU-NP to SF-6-NP (Tract 2)

Staff has concerns regarding a single family development fronting Ben White Blvd and adjacent to LI-NP and instead recommends a mixed-use transition from the LI to SF-6. If there will be a residential development in the mixed use tract, staff recommends a 50 feet buffer along the boundary with the LI tract to the west. In response to Transportation staff comments, the applicant should also dedicate 50 feet of right-of-way within the buffer for extension of Carson Ridge as recommended in the East Riverside Corridor plan. If/when the adjacent LI property is redeveloped additional right-of-way will be required to complete the Carson Ridge collector.

**EXISTING CONDITIONS**

The property is currently undeveloped. The area is developed to the north and east with a mixture of single-family and manufactured homes and the initial "Phase I" of the proposed development. Also to the east is East Riverside Corridor (ERC) zoned property used as a used car dealer. To the west is a currently vacant LI zoned warehouse facility previously used as a gas station warehouse. Immediately to the west of the LI zoned property is a multi-family development under construction on CS-MU.

***Site Characteristics***

The zoning change request is for two heavily wooded, undeveloped tracts totaling 12.03 acres located in the Montopolis Neighborhood Planning Area with frontage along Ben White Blvd/Highway 71 East. It is relatively gently sloped from north to south.

***Comprehensive Planning***

**There is an associated Neighborhood Plan Amendment for this case. Please see report for NPA-2015-0005.02**

***Environmental***

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Carson Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.
2. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

3. According to floodplain maps there is no floodplain within or adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.
7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

***Transportation***

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]

FYI – If the zoning is approved, there is concern that a single family residential development fronts an arterial.

A Neighborhood Traffic Analysis will be required at the time of site plan if triggered per LDC 25-6-114. LDC, Sec. 25-6-114.

C3  
/A

The East Riverside Corridor Plan requires the extension of Carson Ridge from Montopolis to Ben White Boulevard through this property. Right of Way should be dedicated to complete Carson Ridge.

The Austin Metropolitan Area Transportation Plan calls for a total of 400 feet of right-of-way for E. Ben White Boulevard. If the requested zoning is granted, then 75 feet of right-of-way should be dedicated and 125 feet of right-of-way reserved from the existing centerline of E. Ben White Boulevard in accordance with the Transportation Plan. TxDOT may request the reservation of additional right-of-way in accordance with the Transportation Plan when the site is redeveloped. [LDC, Sec. 25-6-51 and 25-6-55).

Additional right-of-way maybe required at the time of subdivision and/or site plan.

**Complete Streets Review**

It is recommended, as a condition of zoning, that Yellowjacket Lane be extended to Ben White with right-of-way through the property in accordance with our Complete Streets Policy Ordinance #20140612-119 for connectivity to Riverside Drive.

The existing roadway conditions:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
E. Ben White Boulevard	350 ft.	<140 ft.	Arterial	No	Yes, Route # 418.06 Shared Lane	No
Yellowjacket Lane	<88 ft.	28 ft.	Local	Yes, One Side	No	No, but there is a bus stop .3 miles away on Riverside Drive

If the requested zoning is recommended for this site, stub out internal drives to the west for future connection.

Nadia Barrera, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, a Wide Shoulder is recommended along E. Ben White Boulevard.

13/4

### ***Water and Wastewater***

WW1. The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

FYI. Based on current public infrastructure configurations, it appears that service extension requests will be required to provide service to this lot. For more information pertaining to the Service Extension Request process and submittal requirements contact Phillip Jaeger with the Austin Water Utility, Utility Development Services at 625 E. 10th St., 7<sup>th</sup> floor. Ph: 512-972-0232.

### ***Storm Water Detention***

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in storm water runoff will be mitigated through on-site storm water detention ponds, or participation in the City of Austin Regional Storm water Management Program if available.

### ***Site Plan and Compatibility Standards***

A Site Plan will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

This site is in a neighborhood planning area, Montopolis, more comments may be generated at time of site plan review.

Any new development is subject to Subchapter E. Design Standards and Mixed Use (Urban Roadway requirements). Additional comments will be made when the site plan is submitted.

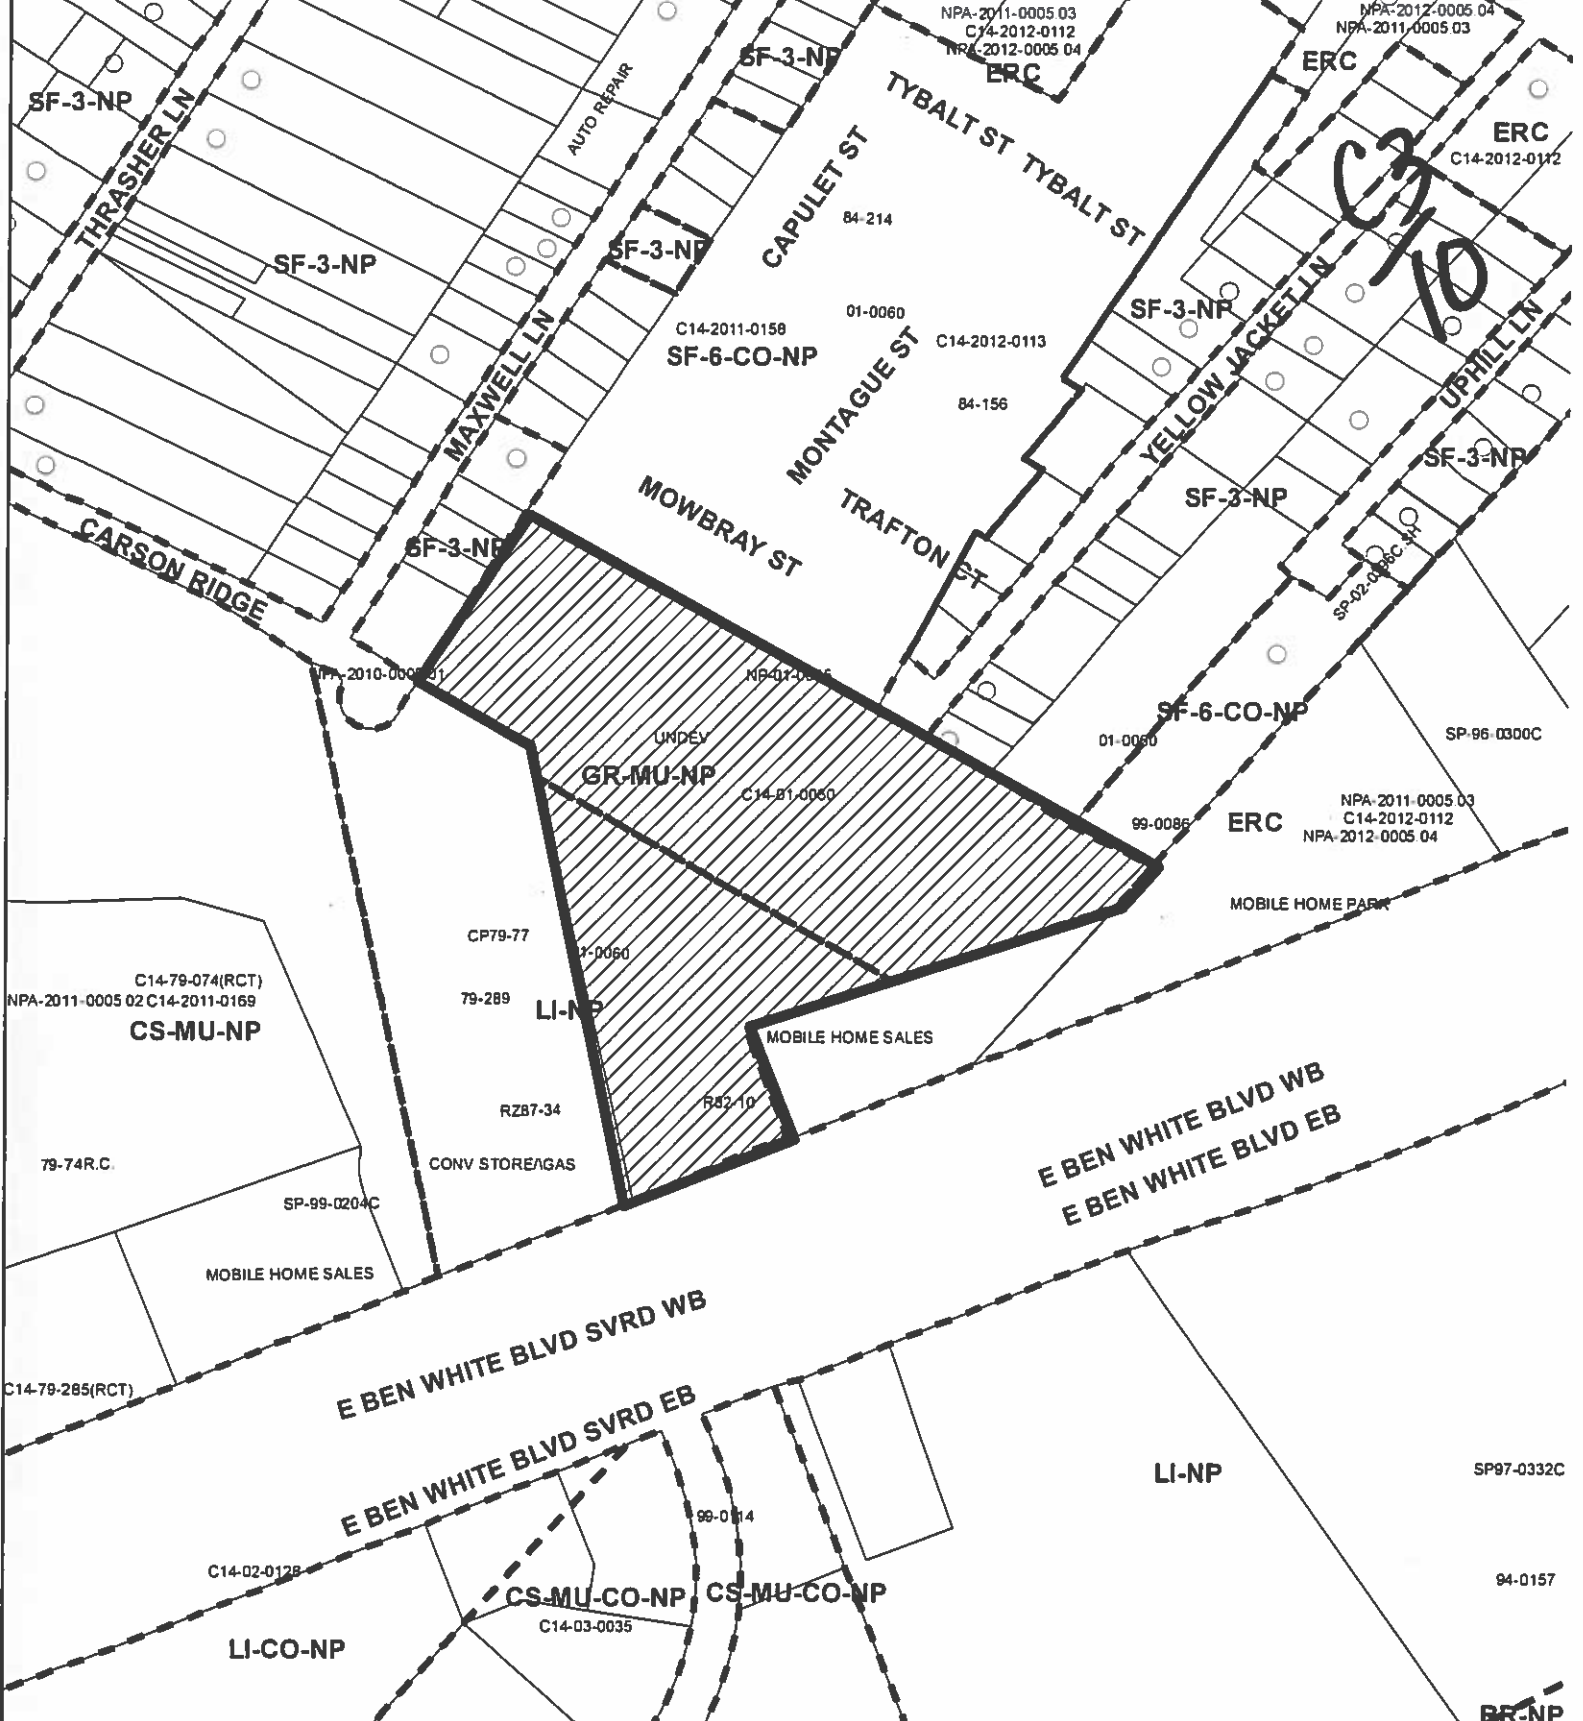

C3  
/9

The site is subject to compatibility standards. Along the northeast and the northwest property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection. Additional design regulations will be enforced at the time a site plan is submitted.

This property is within the Controlled Compatible Land Use Area defined by Chapter 241 of the Local Government Code. Development on this property is limited by Chapter 25-13 of the Austin City Code. Airport hazards as defined in Federal Aviation Regulations Part 77, as adopted by the City in Sections 25-13-23, are prohibited. For more information, contact Joe Medici, Noise Abatement Officer at (512) 530-6652.

Ms. Maureen Meredith  
Neighborhood Planning & Zoning Department  
P O Box 1088  
Austin, TX 78767

RE: Eastwood at Riverside, Phase 3 Rezoning and Neighborhood Plan Amendment

Dear Maureen Meredith;

The Montopolis Neighborhood Contact Team (MNPCT) held its meeting on May 13<sup>th</sup>, 2015 to review a zoning request and Plan Amendment Request for out-of-cycle. The MNPCT reviewed Garrett S. Martin's Eastwood at Riverside, Phase 3 request.

This letter is to express the full support by the Montopolis Neighborhood Contact Team for the request by Milestone Community Builders, LLC for the Neighborhood Plan Amendment of the future land use designation from Industry and Mixed Use to Single Family Residential of the Eastwood at Riverside, Phase 3 property.

Furthermore, we fully support the proposed re-zoning of the tract from LI-NP and GR-MU-NP to SF-6.

We have worked together with Milestone to satisfy the Montopolis Neighborhood Contact Plan Team that these changes will be beneficial to both the surrounding neighborhood and the City of Austin.

Please grant Milestone's request for these changes.

Sincerely,

*Susana Almanza*  
Susana Almanza, President  
Montopolis Neighborhood Contact Team
