Additional Backup Information

Austin Water requests approval, in accordance with Federal Treasury Regulations, of an Official Declaration of Intent to Reimburse acquisition and construction costs of the Fiscal Year (FY 2015-2016) Capital Improvement Projects. Austin Water reasonably expects to issue debt through October 2016, with an aggregate maximum principal amount of \$170,000,000 for the purpose of paying for costs incurred from October 1, 2015 through October 31, 2016, which are associated with Austin Water Capital Improvement Projects. All costs to be reimbursed will be capital expenditures within the meaning of Section 1.103-18(c)(2)iii of the Treasury Regulations.

A city must have budgeted for and provided a source of funds in order to enter into a contract. For the City to spend money today, but reimburse itself from the issuance of debt obligations in the future, a reimbursement resolution is required by state and federal law. The resolution must contain certain information and is generally reviewed by bond counsel to protect the tax-exempt status of the future issuance. The resolution must be passed not more than 60 days after the date that the cost to be reimbursed is paid. Failure to adopt a qualified declaration of official intent will

prohibit the City from reimbursing the cost with the proceeds of tax exempt obligations. Reimbursement bonds generally must be issued no later than 18 months after the later of, the date the expenditure was made, or the date that the project, with respect to which the expenditure was made, is placed in service.

WATER SYSTEM
