

ZONING CHANGE REVIEW SHEET

CASE: C14H-2010-0006 – Castle Hill Historic District

P.C.: August 25, 2015

H.L.C.: August 24, 2015

ADDRESS: Roughly bounded by W. 6th Street on the south, Baylor Street on the west, W. 12th Street on the north, and Blanco Street on the east.

DISTRICT: 9

OWNER/APPLICANT: City of Austin (Planning and Zoning Department)

STAFF: Steve Sadowsky and Jerry Rusthoven, Planning and Zoning Department

SUMMARY STAFF RECOMMENDATION:

Staff recommendation is to grant the modification of compatibility standards in the Castle Hill Local Historic District for the property at 614 Blanco Street.

COMMISSIONS RECOMMENDATION:

Historic Landmark Commission: August 24, 2015

To grant the modification of compatibility standards in the Castle Hill Local Historic District for the property at 614 Blanco Street. [D. Whitworth, T. Myers – 2nd] 7-0 C. McKenzie, B. Tollett - ABSENT

Planning Commission: August 25, 2015

Forwarded to Council without a recommendation due to a lack of a vote in the affirmative.

DEPARTMENT COMMENTS:

The Land Development Code (25-2-1052 (A) (2) provides an exemption from compatibility standards for historic landmarks and within historic districts. Staff believes that the exemption for historic districts was inadvertent and should be corrected with the Code Next process. For this reason with the Castle Hill, Hyde Park and proposed Bluebonnet Hills local historic districts staff has included a provision in the ordinance that waives that exemption and reinstates Article 10, Compatibility Standards. This case intends to modify that reinstatement for the property at 614 Blanco Street. and replace it with a modified compatibility standard.

In 1992 a home known as the Armstrong – Odom House was zoned historic in spite of the former property owner's opposition. Shortly thereafter there was a fire that damaged the property extensively. A second fire further damaged the property and its ruins were eventually demolished for safety reasons. These fires and the demolition of the house

caused much anguish among the neighbors, the City Historic Preservation Office and historic advocates. The historic designation remains on the property and it is located in the Castle Hills Local Historic District.

A new proposal for the construction of a 12 unit multi-family complex has been reviewed and approved for a certificate of appropriateness by the Historic Landmark Commission. This project as approved by the Historic Landmark Commission has a 19.5 front yard setback instead of 25 feet a side yard setback of 5 feet instead of 25.ft and a height of 36 feet instead of 30. The proposed change to the historic district ordinance would modify compatibility for just 614 Blanco and only to the extent as approved by the Historic Landmark Commission.

CITY COUNCIL DATE: September 10, 2015 **ACTION:** Postponed to September 17, 2015 at the neighborhood's request (11-0)

On page 10 of 16 of Exhibit C (Preservation Plan and Design Standards), amend subsection B. to read as follows:

B. Reference to City Ordinances

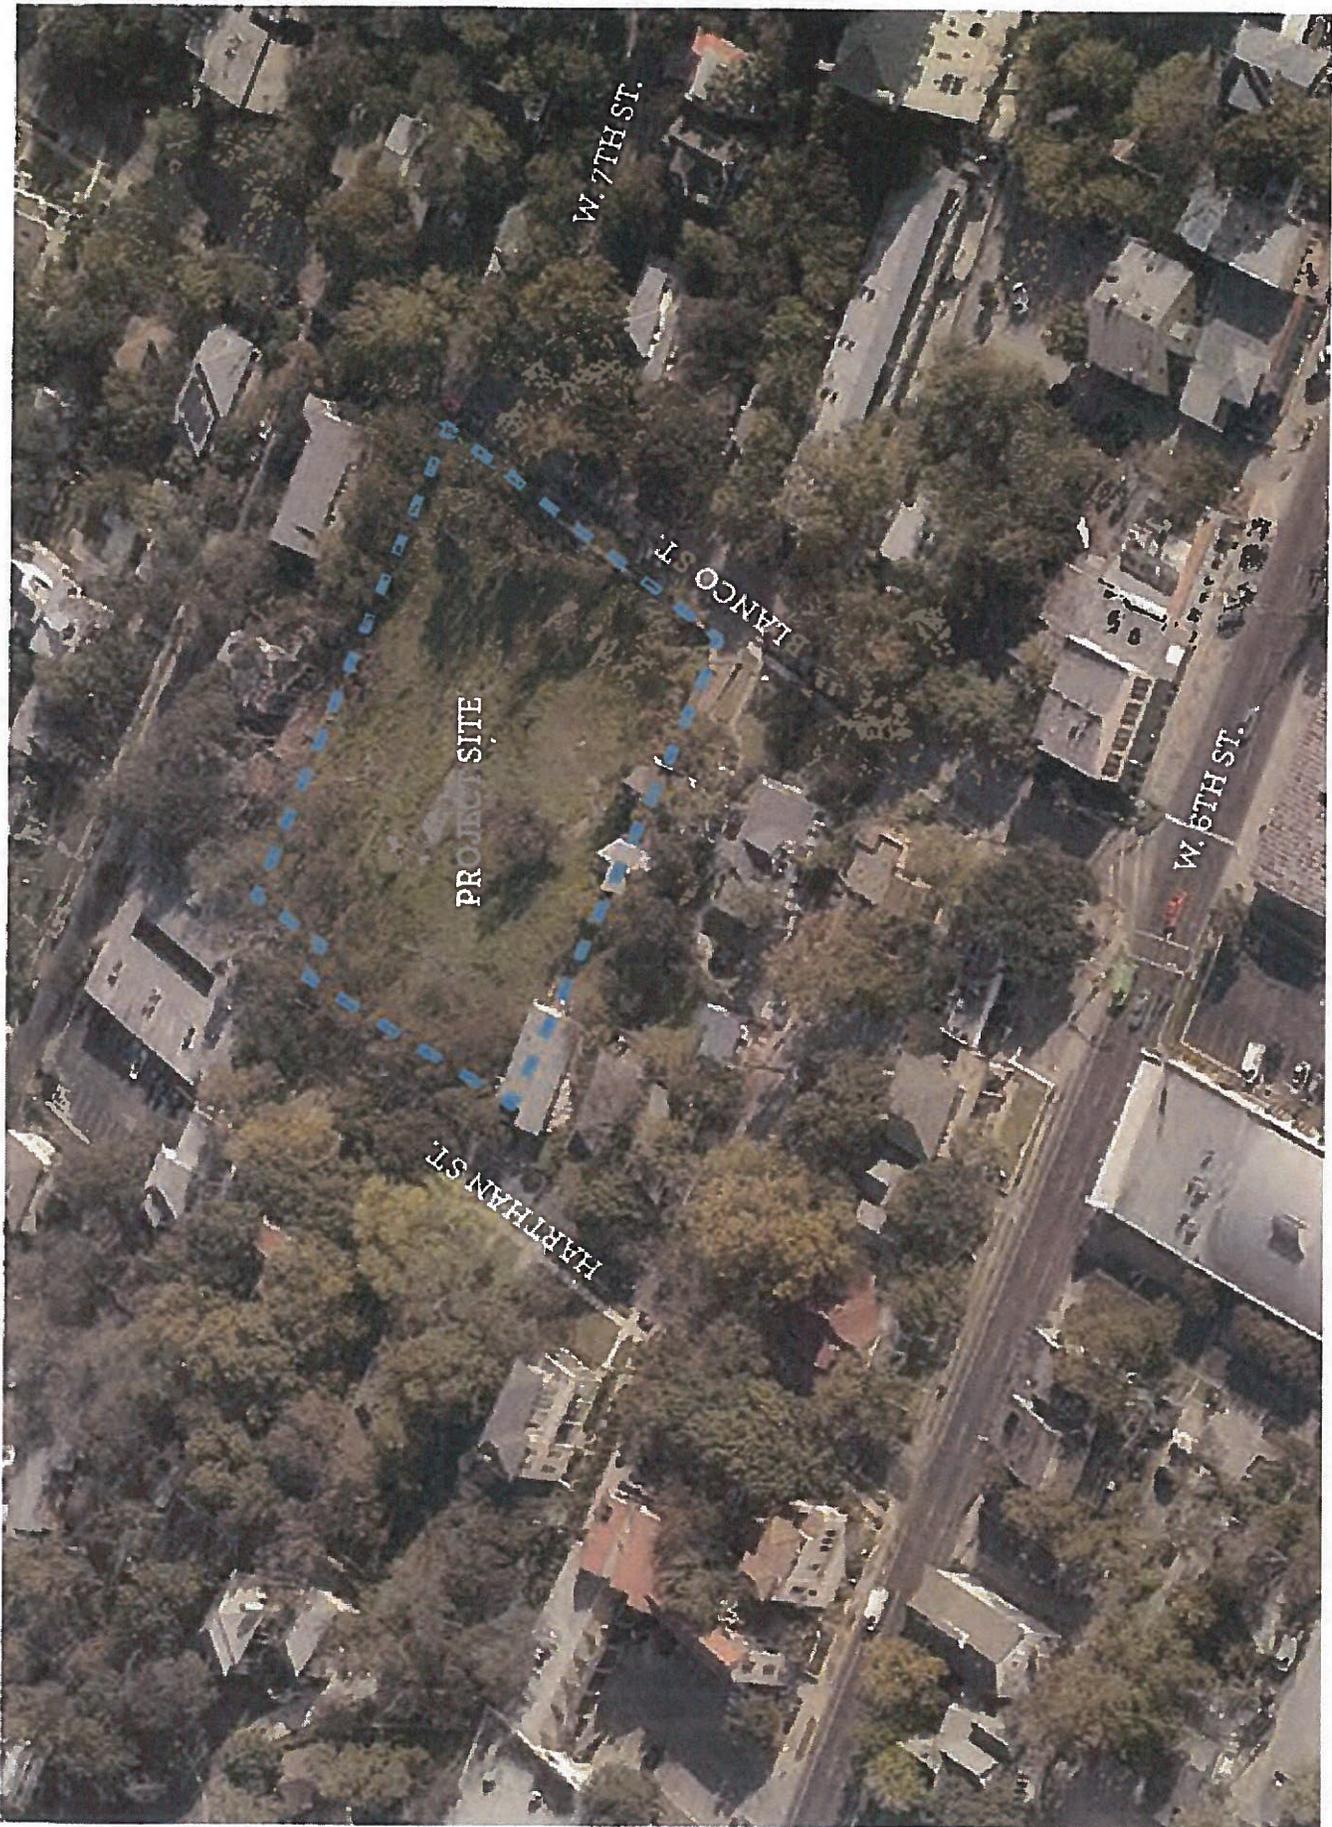

1. Notwithstanding the provisions of Sec. 25-2-1052(A)(2), Article 10 Compatibility Standards, shall apply to the Castle Hill Historic District **except notwithstanding this or any other section of these Standards or ordinances, Article 10 Compatibility Standards shall not apply to development depicted in SP-2015-0166C for which a Certificate of Appropriateness has been approved by the Historic Landmark Commission. This exception shall apply for all extensions and resubmittals of the same site plan and subsequent permits for development.**

Castle Hill Local Historic District Preservation Plan and Design Standards 10 of 16

9. New additions or alterations to structures shall be done in such a manner that if the addition or alteration were to be removed in the future, the essential form and integrity of the structure would be unimpaired.

B. REFERENCE TO CITY ORDINANCES The following Standards identify requirements for construction within the district that are in addition to all existing city ordinances, as modified by this document. Front yard setback requirements for new construction and maximum height for single family construction are modified as noted herein.

1. Notwithstanding the provisions of § 25-2-1052 (A)(2), Article 10 Compatibility Standards, shall apply to the Castle Hill Historic District.

Hi Jason,

We are looking for support from Castle Hill Local Historic District Residents for our proposed amendment to the district (petition attached and pasted below for good measure).

Tomorrow morning several neighbors and I are going to attempt to get folks to sign the attached petition. If you are willing, I would sincerely appreciate your support/signature. Also, if you have neighbors that are/would be in favor of my project - if you could put us in contact so I can ask for their support as well.

If you are around tomorrow morning, and it is convenient, I can stop by your house for a signature

Many thanks!
James

Dear Castle Hill Local Historic District Residents:

The City of Austin development staff is proposing an amendment to Castle Hill Local Historic (CHLHD) design standards in order to eliminate some inconsistencies. These inconsistencies emerged as the result of a proposed development on the old Armstrong Odom lots (614 & 618 Blanco Street). I am writing to let you know about the changes and to also to invite you to attend a meeting to discuss them.

What is the issue: Currently, the owner of 614 and 618 Blanco St has proposed low-density townhomes that comply with the CHLHD design standards for new construction. However, since these are large, multi-family lots, the proposed development triggered the application of the City of Austin's Article 10 Compatibility Standards. CHLHD design standards were supposed to allow consistency with the block face. In this case, the Article 10 Compatibility Standards would impose a 25-foot setback on one side and the front of the project.

Dear Castle Hill Local Historic District Residents:

The City of Austin development staff is proposing an amendment to Castle Hill Local Historic (CHLHD) design standards in order to eliminate some inconsistencies. These inconsistencies emerged as the result of a proposed development on the old Armstrong Odom lots (614 & 618 Blanco Street). I am writing to let you know about the changes and to also to invite you to attend a meeting to discuss them.

What is the issue: Currently, the owner of 614 and 618 Blanco St. has proposed low-density townhomes that comply with the CHLHD design standards for new construction. However, since these are large, multi-family lots, the proposed development triggered the application of the City of Austin's Article 10 Compatibility Standards. CHLHD design standards were supposed to allow consistency with the block face. In this case, the Article 10 Compatibility Standards would impose a 25-foot setback on one side and the front of the project

What is the proposed change: In order to rectify this situation, the city staff is proposing to amend the CHLHD design standards to waive the application of Article 10 so long as the owner builds the plans that were approved by the Historic Landmark Commission. If this change is approved, it will enable the development at 614 and 618 to move forward. Background on the Castle Hill Local Historic District and the design standards is [linked here](#) from the City of Austin's Historic Preservation Office

To: undisclosed-recipients,

Dear Castle Hill Local Historic District Residents

The City of Austin development staff is proposing an amendment to Castle Hill Local Historic (CHLHD) design standards in order to eliminate some inconsistencies. These inconsistencies emerged as the result of a proposed development on the old Armstrong Odom lots (614 & 618 Blanco Street). I am writing to let you know about the changes and to also to invite you to attend a meeting to discuss them.

What is the issue: Currently, the owner of 614 and 618 Blanco St. has proposed low-density townhomes that comply with the CHLHD design standards for new construction. However, since these are large, multi-family lots, the proposed development triggered the application of the City of Austin's Article 10 Compatibility Standards. CHLHD design standards were supposed to allow consistency with the block face. In this case, the Article 10 Compatibility Standards would impose a 25-foot setback on one side and the front of the project

Hi there,

Did you get this email this week? I'm writing down the names of neighbors in support of this amendment for Monday's Board of Adjustment meeting. Basically there's a conflict between the LHD design standards and the City's compatibility standards. The City development staff has proposed an amendment to fix the conflict. It only affects that one property (614-618 Blanco) and only for the current project as designed. It basically cleans up some red tape so the project can proceed.

Tyson, me, Ed, and the entire Harthan LHD are in support of this change. Can I add you to the list? It'll help the City to have a list of nearby Castle Hill neighbors in support (or at least not opposed).

Would love to see you soon!

Janice

Steve,

Our house is at 608 Baylor Street and an Austin landmark in the Old West Austin historic district. We are one block from the properties at 612 and 614 Blanco Street which are on your agenda this week (item A6) for an exemption from some of the LHD compatibility standards. The exemption will correct some language in the LHD about the front setback which would make the development compatible with the other houses along Blanco.

We are very much in support of granting the exemption. The proposed development has been vetted with the neighborhood, neighbors and the neighborhood plan and was unanimously approved by the Zoning and Steering Committees as well as by the OWANA general membership. The land has sat vacant for the 15 years we have lived at our house, and it is high time and the right plan to see the development of the land proceed. It will enhance the neighborhood and support densification of the inner city in a sensitive, compatible and nice way.

Please feel free to contact us if you have any questions.

Thank you.

Tyson

Hi Jason,

We are looking for support from Castle Hill Local Historic District Residents for our proposed amendment to the district (petition attached and pasted below for good measure).

Tomorrow morning several neighbors and I are going to attempt to get folks to sign the attached petition. If you are willing, I would sincerely appreciate your support/signature. Also, if you have neighbors that are/would be in favor of my project - if you could put us in contact so I can ask for their support as well.

If you are around tomorrow morning, and it is convenient, I can stop by your house for a signature.

Many thanks!
James

Members of the Planning Commission:

Good day, my name is John Teinert and I own several properties in Old West Austin and immediately adjacent to Castle Hill Historic District. I own three homes, 1402 and 1404 Windsor, 1210 W. 13th St. and I own a business on 1201 Baylor Street. Over the years I have owned property within the historic district as well. My interest in the vibrancy and liveability of the neighborhoods are of utmost importance to me. Because of this I am writing you to express my strong support for the proposed changes to the Castle Hill Historic District design standards and support the construction of town homes in the development at 614 and 618 Blanco Street (Case number: C14H-2010-0006 Castle Hill Historic District Proposal).

Please feel free to contact me if you have any questions or concerns.

Thank you,
John Teinert

Dear Planning Commission Members,

As a landowner and member of the Old West Austin Neighborhood Association, I am writing you to express my strong support for the proposed changes to the Castle Hill Historic District design standards and support the construction of town homes in the development at 614 and 618 Blanco Street (Case number: C14H-2010-0006 Castle Hill Historic District Proposal).

The proposed development appropriately fits the neighborhood and offers a housing product that is currently void.

Sincerely,

Laura Gottesman, Broker/Owner
