ZONING CHANGE REVIEW SHEET

CASE: C14-2015-0120 (13401 Corner)

Z.A.P. DATE: October 6, 2015

ADDRESS: 13401 Pond Springs Road

DISTRICT AREA: 6

OWNER/APPLICANT: Pond Springs School, LTD.

AGENT: Shaw Hamilton

ZONING FROM: I-RR

TO: GR

AREA: 2.92 acres (127,195.2 sq. ft.)

SUMMARY STAFF RECOMMENDATION:

Staff's recommendation is to grant Community Commercial-Conditional Overlay District, zoning. The conditional overlay will prohibit automotive related uses: Automotive Rentals, Automotive Repair Services, Automotive Sales, and Automotive Washing.

In addition, if the requested zoning is granted, then 57 feet of right-of-way should be dedicated and from the existing centerline of Anderson Mill through a street deed prior to third reading of the case at City Council in accordance with the Transportation Plan. [LDC, Sec. 25-6-51 and 25-6-55).

ZONING AND PLATTING COMMISSION:

DEPARTMENT COMMENTS:

The property in question is currently developed with a vacant elementary school structure that is now being used for retail and personal improvement services uses (High Tech Gadgets, Brazilian Top Team, Boxing and Yoga). The property to the north of this site consists of an undeveloped lot. To the west, across Anderson Mill Road, there is a religious assembly use (Northwest Fellowship) and commercial/personal improvement services/retail sales uses (Family Dollar Store, KAOS Children's Hair Salon, Honey Bee Quilt Store, Yancey's Antiques, Country Keepers Furniture Sales, and Austin Karate Academy), and warehouse/construction sales and services uses (Baseball Solutions, Thigpen & Associates Glass, L.L.C., Trinity Stairs, Inc., and Window Gang Window Washing). To the south, across Pond Springs Road, there is a SBC/ATT&T call center. The land to the east is developed with and office park (Pond Springs Road Office Park).

Staff is recommending GR-CO zoning because the site is located near developed commercial uses to the south, east and west. This tract of land meets the intent of the Community Commercial district as it has access to two arterial roadways, Pond Springs Road and Anderson Mill Road, and will provide services to the surrounding residential areas to the north and south. The staff proposes GR-CO zoning for the property to allow the applicant to redevelop the site with commercial/retail uses.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
Site	I-RR	Elementary School (currently vacant)
North	I-RR	Undeveloped Lot, Multifamily (Anderson Oaks Apartments)
South	GR-CO	ATT&T Call Center
East	I-RR	Office (Pond Springs Road Office Park)
West	GR-CO, CS-CO	Warehouse Structure (Northwest Fellowship), Commercial Center containing Personal Improvement Services, Personal Services and Retail Sales uses (Family Dollar Store, KAOS Children's Hair Salon, Honey Bee Quilt Store, Yancey's Antiques, Country Keepers Furniture Sales, and Austin Karate Academy), and another warehouse structure containing Construction Sales and Services uses (Baseball Solutions, Thigpen & Associates Glass, L.L.C.,
		Trinity Stairs, Inc., and Window Gang Window Washing)

ZONING BOUNDARY

ZONING CASE#: C14-2015-0120

This product is for informational purposes and may not have been prepared for or be suitable for legal, engineering, or surveying purposes. It does not represent an on-the-ground survey and represents only the approximate relative location of property boundaries.

1" = 200'

This product has been produced by CTM for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness.

STAFF RECOMMENDATION

Staff's recommendation is to grant Community Commercial-Conditional Overlay District, zoning. The conditional overlay will prohibit automotive related uses: Automotive Rentals, Automotive Repair Services, Automotive Sales, and Automotive Washing.

In addition, if the requested zoning is granted, then 57 feet of right-of-way should be dedicated and from the existing centerline of Anderson Mill through a street deed prior to third reading of the case at City Council in accordance with the Transportation Plan. [LDC, Sec. 25-6-51 and 25-6-55).

BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

Community commercial (GR) district is the designation for an office or other commercial use that serves neighborhood and community needs and that generally is accessible from major traffic ways.

2. The proposed zoning should promote consistency and orderly planning.

The proposed zoning is consistent with the GR-CO zoned property to the south and west. The property in question is located adjacent to existing commercial uses south, east and west. GR-CO zoning will allow the applicant to redevelop this site with additional commercial/retail uses.

3. Zoning should promote the policy of locating retail and more intensive zoning near the intersections of arterial roadways or at the intersections of arterials and major collectors.

The site under consideration is located at the northeastern intersection of two arterial roadways, Pond Springs Road and Anderson Mill Road.

EXISTING CONDITIONS

Site Characteristics

The subject tract is currently developed with a vacant elementary school structure that is now being used for retail and personal improvement services uses (High Tech Gadgets, Brazilian Top Team, Boxing and Yoga).

Hill Country Roadway

The site is not within a Hill Country Roadway Corridor.

Comprehensive Planning

I-RR to GR

This zoning case is located on the southeast corner of Pond Springs Road and Anderson Mill Road, and contains a one story office building situated on a 2.92 acre lot. The property is not located within the boundaries of a neighborhood planning area. Surrounding land uses includes a church and shopping center to the north, a small office building to the south, an apartment complex to the east,

and an ATT truck depot and an apartment complex to the west. The proposal is to obtain commercial zoning.

Imagine Austin

The site is located over the Edwards Aquifer Recharge Zone. An aquifer contributing zone is an area where runoff from precipitation flows to the recharge zone of an aquifer. Streams in the contributing zone flow downstream into the recharge zone and "contribute" water to the aquifer and additional environmental ordinances pertain to the development.

Based on comparative scale of the site relative to other commercial and office uses in this area, and the property not being located within the boundaries of a Center or Activity Corridor as identified by the Imagine Austin Growth Concept Map, this case falls below the scope of Imagine Austin, which is broad in scope, and consequently the plan is neutral on the proposed rezoning. However, due to the site location in an environmentally sensitive area, if this parcel is redeveloped there will be at the site planning stage an environmental review to determine if any critical environmental features are located on the site. If any are located, mitigation and setbacks necessitated by the land development code will be required.

Environmental

Friday, September 4, 2015

The site is located over the North Edwards Aquifer Recharge Zone. The site is in the Lake Creek Watershed, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Impervious Cover

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Development Classification	% of Gross Site Area	% of Gross Site Area with Transfers		
Single-Family Residential	45%	50%		
(min. lot size 5750 sq. ft.)				
One or Two Family Residential	55%	60%		
(lot size < 5750 sq. ft.)				
Multifamily Residential	60%	65%		
Commercial	65%	70%		

Site Plan

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program, if available.

Transportation

The Austin Metropolitan Area Transportation Plan calls for a total of 114 feet of right-of-way for Anderson Mill. If the requested zoning is granted, then 57 feet of right-of-way should be dedicated and from the existing centerline of Anderson Mill in accordance with the Transportation Plan. [LDC, Sec. 25-6-51 and 25-6-55).

Additional right-of-way maybe required at the time of subdivision and/or site plan.

A Traffic Impact Analysis will be required at the time of site plan if triggered per LDC 25-6-113. LDC, Sec. 25-6-113.

Nadia Barrera, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a Protected Bike Lane is recommended for Anderson Mill and Pond Springs Road.

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
Anderson Mill	38 ft.	68 ft.	Arterial	Yes	Yes, Bike Lane	Yes
Pond Springs Road	90 ft.	50 ft.	Arterial	Yes	Yes, Bike Lane	Yes

Water and Wastewater

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
