CITY OF AUSTIN APPLICATION TO
BOARD OF ADJUSTMENT GENERAL
VARIANCE/PARKING VARIANCE

WARNING: Filing of this appeal stops all affected construction activity.

PLEASE: APPLICATION MUST BE TYPED WITH ALL REQUESTED INFORMATION
COMPLETED.

STREET ADDRESS: 1403 W. 45th St

LEGAL DESCRIPTION: Subdivision – E. 35 st lot 10 Blk B

I/We David Cancialosi on behalf of myself/ourselves as
authorized agent for Mark Kudela affirm that on May 18, 2015, hereby apply for a
hearing before the Board of Adjustment for consideration to:

(check appropriate items below and state what portion of the Land Development Code
you are seeking a variance from)

☒ ERECT ☐ ATTACH ☐ COMPLETE ☐ REMODEL
MAINTAIN

Erect single family residence and parking area in SF3 zoned lot.

1) Setbacks

Allow 21' front setback

2) Lot Size

Allow 2117 SF lot

3) Lot Frontage

Allow 35' lot frontage

in a SF3 district.

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based
on the following findings (see page 5 of application for explanation of findings):

REASONABLE USE:

L3
5

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

The owner is attempting to develop the site by erecting a single-family residence, but cannot do so due to the lot size and relative SF-3 performance standards. Literal application of the SF3 standards do not allow a reasonable use of the property despite the City of Austin assigning residential zoning to the site as far back as 1948 when it extended utility service to the site.

The city further recognized the site's legal status by approving a land status determination in 2010 (C8I-2010-0304). The owner has sought BOA approval in 2011 for similar requests and was denied. The owner recently sought a 245 Vested Rights determination and was denied.

The owner purchased the property in full reliance that the site could be developed. Failure to grant relief to a substandard lot that the City knowingly zoned and subsequently recognized as a legal tract prohibits any reasonable use on a property that is actively taxed by Travis County.

HARDSHIP:

2. (a) The hardship for which the variance is requested is unique to the property in that:

The 2,117 SF lot is small by any standard. The property cannot allow construction of a reasonably sized single family residence without some degree of flexibility approved by the Board of Adjustments. The owner is asking the Board to recognize that the application of SF-3 zoning setbacks, lot width, and lot size requirements induce a significant hardship on this site.

The owner is proposing a simple 2 story residential structure on the site that will be in keeping with surrounding residential uses; however, a 21' front setback encroachment are also requested to facilitate a reasonable project. This will allow a reasonable side and rear yard area.

Further, the tract's 2,117 SF size cannot be amended via resubdivision at this point. There is no adjacent land to acquire.

The city's recognition of this site as a legal tract in 2010 and the city's prior application of A or AA zoning then SF-3 zoning further suggests a true hardships exists in that a property has a reasonable expectation to rely on entitlements applied by the Municipality.

- (b) The hardship is not general to the area in which the property is located because:

There are no other know vacant lots with this issue in the immediate area

AREA CHARACTER:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The project is a small residential project that proposes the least amount of impact on the site or adjacent properties

The proposed front and side setback encroachments are in keeping with existing legal non-complying structures found throughout the neighborhood as well as new homes that have been allowed to utilize setback averaging for front yard setback only.

Thus, there is no expected impairment of adjacent uses nor the purpose of the zoning regulations.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:
 • occupies a primary residence that is within 500 feet of the subject property or proposed development;
 • is the record owner of property within 500 feet of the subject property or proposed development; or
 • is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.ci.austin.tx.us/development.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice.

Susan (with cc: to Shaw Hamilton):

Given the unusually short notice to the NA and the adjacent neighbors for this case, it would seem appropriate for staff to initiate a postponement of the hearing. Notices were received on Tuesday and Wednesday for a hearing set for next Monday, which does not allow us reasonable time to properly study the situation.

Let me know ASAP if there is any issue with postponement, as we would need to get word out to quite a few people.

Shaw- this could have been avoided by giving the NA a heads up when you started the process. We could have discussed this with you and the adjacent neighbors weeks ago and the hearing could have proceeded as planned, regardless of notice from the City.

Thank you!

WARNING: Filing of this appeal stops all affected construction activity.

STREET ADDRESS: 1405 West 45th st

LEGAL DESCRIPTION: Subdivision – Rosedale B

Lot(s) east 35 ft. of lot 10 Block B Outlot Division

I/We Shaw Hamilton on behalf of myself/ourselves as authorized agent for

Mark Kudela affirm that on Dec. 14, 2010, hereby apply for a hearing before the Board of

Adjustment for consideration to:

ERECT – ATTACH – COMPLETE – REMODEL – MAINTAIN

Erect a new single family home:

Variance requested : Lot size 2117 sq. ft. Lot frontage 34.97 ft.

~~Rear setback 9' 11 1/2"~~ FRONT SETBACK 21'

in a SF-3 district.

(zoning district)

The Austin Electric Utility Department (Austin Energy) enforces electric easements and the setback requirements set forth in the Austin Utility Code, Electric Criteria Manual and National Electric Safety Code. The Board of Adjustment considers variance to the Land Development Code, and a variance granted by the Board of Adjustment does not waive the requirements enforced by Austin Energy. Please contact Christine Esparza with Austin Energy at 322-6112 before filing your application with the Board of Adjustment if your request is for a reduction in setbacks or height limits.

NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

REASONABLE USE:

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

The Lot was established in 1948 prior to regulations and needs relief from strict enforcement of the regulations in order to make this lot developable.

HARDSHIP:

2. (a) The hardship for which the variance is requested is unique to the property in that:

[REDACTED] The property to the east is commercial, [REDACTED] the entire property would be a compatibility setback, [REDACTED] The property to the west is single family and have no desire to buy.

- (b) The hardship is not general to the area in which the property is located because:

This is the only small lot left in this area that is not developed. The remainder of lots in this area meet the minimum lot size and are fully developed. This is an older area of town that was developed in 1930's and 1940's

AREA CHARACTER:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The area is a combination of single family and commercial uses. Both roadways adjacent to this lot are well traveled (45th St and Burnet Rd.) The driveway is already existing on 45th St. for this lot and would not impact adjacent properties.

PARKING: (Additional criteria for parking variances only.)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonable require strict or literal interpretation and enforcement of the specific regulation because:
2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

Thanks Leane. I think the variance requester should have to agree to a re-zoning requirement in order to have their variance request approved.

I do not see that there is space for a single family residence in the small space to the west of the commercial/auto repair address. There is another residence on the corner of 45th and Rosedale. It is a residential multi dwelling lot with a small house facing 45th at and very close to the lot line with the 1403 45st address being considered for variance.

I may not be able to attend the scheduled hearing due to another commitment but I would appreciate it if you would add my questions and concerns to the proceedings.

My address is 4403 Rosedale (just for the record)

Thanks !

Hi Mr. Evans – the current zoning is CS – Commercial Services, and the neighboring property use is commercial/auto repair.

The lot requesting the variance is a small lot to the west of the auto repair lot.

The zoning would not change with this variance request, that would be required under a separate re-zoning action in order to accommodate a single family home as planned for the lot.

Perhaps the owner will undertake the rezoning if they are successful in getting these lot design variances.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

- and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.
