4. POTENTIAL CODE AMENDMENTS: Proposed for Discussion and/or Initiation

Potential amendments to the code are offered for discussion and/or possible recommendation for initiation. If initiated, Staff will research the proposal and report back to the subcommittee.

- a. Educational Facility Development Standards -** Discuss and consider an amendment to Title 25 of the City Code regarding regulations for development of educational facilities. (Sponsor: Commissioner Stevens; Co-Sponsor: Commissioner Zaragoza); (Discussion and/or Possible Action).

Scotter Cheetam explained that under the current code that charter schools, which are treated as a public school, do not have to follow the site development standards of LDC Title 25. Other school districts, such as AISD, have separate inter-local agreements that stipulate site development regulations to be followed. Mr. Cheetam suggested creating a “level playing field” by the possible creation of a new zoning district for all schools with similar development standards for all types of schools.

Donna Galati explained that staff was aware of the issue and was open to looking at different avenues for how to address the issue.

Recommended to the full Planning Commission for initiation by Commissioner Stevens, seconded by Commissioner Seeger. Vote: 4-0 (Commissioner Kazi recused; Commissioner White absent).

- b. Garage Facades –** Discuss and consider an amendment to Title 25 of the City Code related to neighborhood plan design tool garage placement standards. City Staff: Greg Dutton, Planning and Zoning Department, 974-3509, Greg.Dutton@austintexas.gov; (Discussion and/or Possible Action).

Greg Dutton went over a proposed amendment that would clarify that the garage door façade design tool (adopted via the neighborhood planning process) is meant to limit the garage width to ½ the width of the adjacent house. Under the current code it’s possible to the garage width

limitation as ½ of the total building façade (house + garage), which was not the intent of the tool, or how the tool described to neighborhoods through the neighborhood planning process.

Recommended to the full Planning Commission for initiation by Commissioner Stevens, seconded by Commissioner Kazi. Vote: 5-0 (Commissioner White absent).

5. **REGULAR AGENDA: Previously Initiated**

Previously initiated amendments to the code are offered for discussion and possible recommendation to the full Planning Commission.

- a. **Construction and Demolition Material Diversion** – Consider an amendment to Title 25 of the City Code to require recycling of construction materials from construction and demolition sites. City Staff: Woody Raine, Austin Resource Recovery Department, 974-3460, Woody.Raine@austintexas.gov; (Discussion and/or Possible Action).

Woody Raine presented a set of amendments to Title 15 and Title 25 that will require increasing levels of materials diversion during demolition and construction for certain projects. The proposed changes would begin in 2016 and increase diversion rates in 2020 and again in 2030. Projects over 5000 square feet would be required to comply starting in 2016, and projects over 1000 square feet would be included starting in 2020.

A motion was made to recommend the item to full Planning Commission by Commissioner Kazi, seconded by Commissioner Schissler, with an amendment to change project area to floor area. Vote: 5-0 (Commissioner White absent).
