**GENERAL VARIANCE/PARKING VARIANCE**

MIC  
1/2

**WARNING: Filing of this appeal stops all affected construction activity.**

**PLEASE: APPLICATION MUST BE TYPED WITH ALL REQUESTED INFORMATION COMPLETED.**

STREET ADDRESS: 4217 Shoal Creek Blvd

LEGAL DESCRIPTION: Subdivision -

Lot(s) 4 Block A Outlot \_\_\_\_\_ Division Shoal Creek Village

I/We Michael & Nicole McCormick on behalf of myself/ourselves as authorized agent for Michael & Nicole McCormick affirm that on September 24, 2015, hereby apply for a hearing before the Board of Adjustment for consideration to:

(check appropriate items below and state what portion of the Land Development Code you are seeking a variance from)

ERECT ATTACH COMPLETE  REMODEL MAINTAIN

Current attic space requires variance to

Sub chapter F Section 334 for FAR exemption.

NO change to exterior elevation.

in a SF-2-CO district. SF-2-CO

(zoning district)

**NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.**

**VARIANCE FINDINGS:** I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

**REASONABLE USE:**

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

Trying to build within an otherwise empty attic space without any changes to existing roofline. Proposed is under existing roof structure.

Ordinance compliance would be 40% F.A.R and we are asking for approval on plans to utilize more of the attic resulting in 44.91% F.A.R. within the envelope of the existing attic and roof structure.

**HARDSHIP:**

2. (a) The hardship for which the variance is requested is unique to the property in that:

Existing roofline will not change as result of finishing the attic.

- (b) The hardship is not general to the area in which the property is located because:

Currently existing structure is one of the few single story homes on the block and below the average sq. ft. of the neighboring homes (avg. sq. ft. is 2332 of neighboring 16 homes). Current sq. ft. for our home is 1803 sq. ft.

**AREA CHARACTER:**

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

There will be no changes to the existing roofline of the structure.

**PARKING:** (Additional criteria for parking variances only.)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonable require strict or literal interpretation and enforcement of the specific regulation because:

N/A

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

---

---

mio  
4

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

---

---

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

---

---

**NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.**

Cover Letter and Timeline

re: Variance Request- 4217 Shoal Creek Blvd

**Seeking variance to finish out already existing attic space**

My husband and I have lived in our home in central Austin for over a decade. We have an existing attic space that we would like to finish out for more room in our home (currently the smallest square footage home amongst the 15+ homes built in the late 90's by the same builder). Our hardship is that we are working within our existing structure and are not changing our roofline.

**Reason to allow the variance to be granted**

Our request is straight forward; we will not be changing our roofline and our neighbors do not oppose. We are simply wanting to finish out existing attic space under current envelope, keeping with the current scope of neighborhood.

**Plea**

We have lived in our beautiful home and neighborhood for over 10 years. There was a time a few years ago that we looked outside of the neighborhood for a larger home but could not bring ourselves to move away from our neighbors and community we have grown to love. We now have two boys ages 8 and 6 that attend Bryker Woods Elementary, a school we are very involved with and I currently serve as the VP of the PTA. We are wanting to simply finish out our existing attic space to allow us more room for our growing boys as we plan on staying in the neighborhood for a long time. Both sets of our parents, who live out of state, are now retired and we do not currently have the room for comfortable accommodations for them to stay when they visit. Our relationships with our family and friends are a top priority for us and we are wishing to create space that allows us to nurture those relationships through time spent at our home. Our home (not just a house) is my nest and finishing out the attic space would allow us to be able to provide that opportunity that is so important to us for family and friends.

**Neighbors Positive Support and Consent Signatures**

Our adjacent and extended neighbors strongly support the approval of this variance, as they first and foremost don't want to lose us as neighbors and secondly understand the simplicity of finishing out existing space without changes to current roofline. Neighborhood support signatures and encouraging words attached.

A stylized, handwritten signature in black ink that reads "Nicole McCormick". The signature is fluid and cursive, with "Nicole" on top and "McCormick" on the bottom, separated by a short vertical line.

### **HOA approval**

Neighborhood meeting is evening of the day of submittal so a non-opposition letter will be submitted after the meeting.

With sincere thanks for your consideration,

Nicole and Mike McCormick

### **Attic Project Timeline: 2015**

January: Architect meeting/design and plans  
March 27: Submittal of permit  
April 28: Receive Master Comment Report  
May: Architect meets with city and BOA liaison  
May 6: Request updated survey from survey company  
May 13: Architect meets with reviewer  
June 10: Receive survey (over a month later due to rain in May and unable to conduct as equipment could not get wet)  
July: Architect meets with reviewer  
August 25: Architect meets with reviewer  
September 2: Homeowner meets with BOA liaison  
September 21: Homeowner requests extension  
September 24: Homeowner meets with reviewer  
September 25: Homeowner submits BOA application  
September: Homeowner request neighborhood non-opposition letter  
October: Homeowner obtains supportive signatures from neighbors  
October 19: Homeowners meet with reviewer and fulfills all items on Master Report  
October 26: Homeowner submits information to BOA  
October 26 evening: Homeowner attends Neighborhood Association meeting

### **What our neighbors are saying:**

*Nikki & Mike - absolutely happy to help! We want to keep you as our neighbors. :) Mia*

*Nikki and Mike we are in full support to your house update. It is nice to have you as neighbors. –Mario and Leni*

*Nikki and Mike, you have our full support. Cindy and I will be happy to sign whatever form the city wants you to complete with neighbors' signatures. We are glad you have plans to stay in the neighborhood.—Cindy and Joel Arevalo*

*Mike and Nikki,*

*Dave and I agree with Cindy and Joel. You have our full support. Please let us know if there is anything additional we can do to support your request. –Patty and Dave*

*We will sign any form necessary. I am not sure I can help any more than someone else but if you needed a 'professional' in the neighborhood to assist or offer the perspective of both a designer and a neighbor I would be glad to help. – Darwin Harrison*

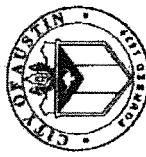

*I would be happy to sign!—Keri Gray*

*You absolutely have our support! Happy to sign the form for you.—Jennifer and Jesse*

*You have my support and I'm happy to sign.—Erika Brown*

*I'm happy to sign! – Heidi Ross*

*I'm happy to sign. – Becka Swift*

I, Nicole McCormick, am applying for a variance from the Board of Adjustment regarding Section 3.3.4 of the Land Development Code. The variance would allow me the ability to finish washing office space with no changes to roofline.

By signing this form, I understand that I am declaring my support for the variance being requested.

"Working together to keep our neighborhood  
a nice place to come home to."

October 26, 2015

City of Austin  
Board of Adjustment

**RE: Case #2015-069442 BA 4217 Shoal Creek Blvd.**

**Members of the Board:**

The Rosedale NA steering committee met with the applicant to discuss this case on 10/26/2015. We support the variance request for exempted attic space under the existing roof envelope, which is in keeping with the spirit and intent of the McMansion ordinance.

Thank you for your service to our community!

  
Chris Allen  
Co-chair, Rosedale NA zoning committee
