**Additional Backup Information**

The City's Health and Human Services Department (HHSD) has received Ryan White Part C HIV Early Intervention Grant funding for 24 years. Fiscal year 2014-2015 Part C grant funding in the amount of \$873,000 is included in the HHSD's approved operating budget.

The current Ryan White Part C increase is due to carryover funds from the previous year. Last year, \$28,602 was unexpended and the grantor allowed the funds to be carried over into FY 2015. We are requesting a budget increase of \$22,366 for a total grant award of \$895,366.

The grant focuses on the delivery of community-based primary medical care, including oral health services, transportation services, and non-medical case management. It provides direct financial assistance to communities most severely affected by the HIV epidemic. The 10-county service delivery area includes Travis, Bastrop, Blanco, Burnet, Caldwell, Fayette, Hays, Lee, Llano, and Williamson, counties.

The Ryan White Part C organizations listed below have collaborated on the Part C Program for about 24 years and

are collectively identified as the Austin Part C project area. This council item is time sensitive to ensure that the services are provided to the community. A delay will negatively impact services provided to a vulnerable population of persons affected by HIV/AIDS.

The General Fund will not be required to contribute additional funds beyond those currently budgeted to this grant. When the grant funds expire, the Health and Human Services Department's need for continuing funding will be evaluated and may be denied.

**Related Department Goal:**

Promotion/Prevention/Protection: Promote social services and foster increased self-sufficiency, healthy behaviors and lifestyle among targeted population.
