Additional Backup Information

The interlocal agreement between the City and Capital Metropolitan Transit Authority (Capital Metro) specified that any improvements proposed for Capital Metro ¼-Cent funding enhance regional mobility; support public transit; provide leverage for federal or private funds; add to an existing program; or expedite a critical mobility project. Resolution 20150618-093 also directed that ¼-Cent funds be used in these types of improvements, as well as those that address the following purposes: transportation safety, improved access to schools, new traffic signals, existing infrastructure needs, traffic calming, and improved access to transit. The initial ¼-Cent Funding was approximately \$139.5 million dollars, of which \$21.8 million remains to be programmed.
