

Recommendation for Water & Wastewater Commission

Commission Meeting Date:	March 9, 2016
Council Meeting Date:	March 31, 2016
Department:	Public Works
SUBJECT	
Authorize execution of a construction contract with SANTA CLARA CONSTRUCTION, LTD (MH68.71%) for the Southeast Allandale Neighborhood Water and Wastewater Improvements project in the amount of \$3,816,832.50 plus a \$267,178.28 contingency, for a total contract amount not to exceed \$4,084,010.78. (Districts 7 and 10)	
AMOUNT AND SOURCE OF FUNDING	
Funding is available in the Fiscal Year 2015-2016 Capital Budget of Austin Water.	
Purchasing Language:	Lowest bid of 3 bids received.
Prior Council Action:	N/A
For More Information:	Dennis Crabill, 512-974-7232; Jennifer Liu, 512-972-2049; Denise Avery, 512-972-0104; Lucy Bonee, 512-974-7967; Sarah Torchin, 512-974-7141
Boards and Commission Action:	March 9, 2016- To be reviewed by the Water and Wastewater Commission.
MBE/WBE:	This contract will be awarded in compliance with City Code Chapter 2-9A Minority Owned and Women Owned Business Enterprise Procurement Program by meeting the goals with 2.50% MBE and 0.95% WBE participation.

The Southeast Allandale Neighborhood Water and Wastewater Improvements project is part of the Renewing Austin Program. Renewing Austin is an ongoing program to replace and upgrade deteriorated aging water lines that have a history of multiple breaks. In addition, the program coordinates and includes wastewater lines in need of replacement within the project area. The work in this project consists of the installation of approximately 9,181 linear feet of water mains in twelve streets and the installation of approximately 3,954 linear feet of wastewater lines in seven streets and portions of Shoal Creek.

Due to the potential for unknown subsurface conditions, utility conflicts, difficulties in working in narrow easements, and within floodplains, a 7% contingency in funding has been included to allow for the expeditious processing of any change orders. The construction contract states the bid prices are valid for 90 calendar days from the bid opening date. If the contract is not signed within this period, the contractor has the option to increase any or all bid item prices, thus increasing the total project cost.

This item is not time sensitive, however a delay would mean a delay in replacing deteriorated water mains with the history of multiple breaks and, possible water main breaks in the area impacting water supply to the citizens.

Area stakeholders have been informed of the project during its design process and will continue to be informed during the construction process through periodic electronic communications, special hardcopy notices delivered in advance of construction phase changes, or in the case of substantial project impact, as well as face-to-face coordination meetings, when necessary.

The contract allows 540 calendar days for completion of the project. This project is located within zip code 78731 (Districts 7 and 10) and is managed by the Public Works Department.

Santa Clara Construction, LTD, is located in Austin, TX.
