

Recommendation for Water & Wastewater Commission

Commission Meeting Date:	March 9, 2016
Council Meeting Date:	March 31, 2016
Department:	Austin Water
SUBJECT	
Authorize the execution of a construction contract with SANTA CLARA CONSTRUCTION, LTD , for the FM 973 Wastewater Line Improvements Project in the amount of \$1,734,027 plus a \$86,701.35 contingency, in an amount not to exceed \$1,820,728.35. (District 2)	
AMOUNT AND SOURCE OF FUNDING	
Funding is available in the Fiscal Year 2015-2016 Capital Budget of the Austin Water.	
Purchasing Language:	Lowest responsive bid of nine bids received through a competitive Invitation for Bid solicitation.
Prior Council Action:	N/A
For More Information:	Phillip Jaeger, 512-972-0232; Denise Avery, 512-972-0104; Rolando Fernandez, 512-974-7749; Sarah Torchin, 512-974-7141
Boards and Commission Action:	March 9, 2016- To be reviewed by the Water and Wastewater Commission.
MBE/WBE:	This contract will be awarded in compliance with City Code Chapter 2-9A of the City Code (Minority Owned and Women Owned Business Enterprise Procurement Program) by meeting the goals or through the achievements of Good Faith Efforts with 3.38% African American (goal was 3.33%), 68.84% Hispanic (goal was 4.15%), 1.03% Asian/Native American (goal was 0.94%) and 3.18% WBE (goal was 0.84%) subcontractor participation.

The proposed project consists of the installation of approximately 6,610 feet of 18-inch gravity wastewater main, 3,920 feet of 15-inch gravity wastewater main, 720 feet of 8-inch gravity wastewater main and associated appurtenances.

The proposed project is located in southeast Austin approximately along FM 973 Rd in the City's designated Desired Development Zone. It begins east of the Austin Bergstrom International Airport at Pearce Ln and FM 973 Rd and continues south approximately along FM 973 Rd to the City of Austin's closed FM 812 Landfill site, approximately 3,000 feet north of FM 812 Rd. The proposed wastewater mains have also been designed to meet the City's long-range planning goals for this area.

The extension of wastewater services to the Austin (re)Manufacturing HUB, an eco-industrial park development of the City of Austin is led by Austin Resource Recovery (ARR) to support its zero waste goals. Per an agreement with ARR, Austin Water will finance the cost of extending wastewater utilities and ARR will reimburse those costs over 20 years, through an agreed upon repayment schedule.

On May 25, 2015, the City of Austin and S.R. Development, Inc, a developer who controls approximately 85 acres on the southeast corner of FM 973 and Elroy Rd commonly known as the Linda Vista Subdivision and whose land is located along the route of the wastewater improvements, executed an agreement with S.R. Developer agreed to fund the engineering and design of the wastewater improvements necessary to provide service to the Linda Vista Subdivision, as well as the wastewater improvements needed to serve the Austin (re)Manufacturing Hub. Austin Water acknowledges that those engineering and design costs to be equivalent to the developer's proportionate share of the costs for the wastewater improvements for the entire project. In exchange, Austin Water agreed to fully fund and manage the construction of the 8-inch, 15-inch, and 18-inch gravity wastewater mains. The design of the infrastructure has been completed and the City will construct the improvements.

Due to the potential for encountering unknown conditions, a 5% contingency in funding has been included to allow for the expeditious processing of any change orders. A contingency is an additional amount of money added to the construction budget to cover any unforeseen construction costs associated with the project.

The contract allows 180 calendar days for completion of this project. This project is located within zip code 78617 (District 2) and is managed by Austin Water.

SANTA CLARA CONSTRUCTION, LTD is located in Austin, Texas.
