OWNER/APPLICANT: George Rodenbusch

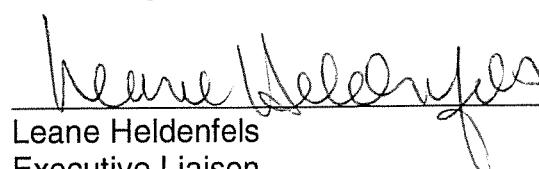

ADDRESS: 1014 8TH ST

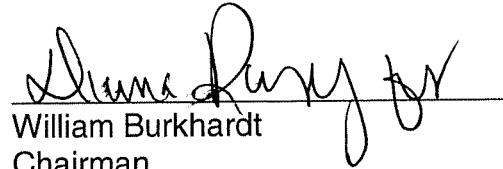

VARIANCE REQUESTED: The applicant has requested variance(s) to Section 25-6 Appendix A (Tables of Off-Street parking and Loading Requirements) to reduce the number of required parking spaces from 4 spaces (required) to 0 spaces (requested) in order to remodel an existing duplex to create a triplex with 3 one-bedroom units in a "MF-3-NP", Multi-Family Residence Medium Density - Neighborhood Plan zoning district. (Central East Austin)

BOARD'S DECISION: POSTPONED TO NOVEMBER 9, 2015 BY APPLICANT; Nov 9 POSTPONED TO JANUARY 11, 2016 BY APPLICANT; Jan 11, 2016 The public hearing was closed on Board Member Eric Goff motion to Postpone to March 14, 2016, Board Member Melissa Neslund second on a 9-0 vote; POSTPONED TO MARCH 14, 2016.

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:
(b) The hardship is not general to the area in which the property is located because:
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

CITY OF AUSTIN TADV
APPLICATION TO BOARD OF ADJUSTMENT
GENERAL VARIANCE/PARKING VARIANCE

WARNING: Filing of this appeal stops all affected construction activity.

PLEASE: APPLICATION MUST BE TYPED WITH ALL REQUESTED INFORMATION COMPLETED.

STREET ADDRESS: 1014 E 8th St., Austin, TX 78702

LEGAL DESCRIPTION: Subdivision - S 85.67FT OF LOT 7 BLK 4 OLT 2-3 DIV B ROBERTSON GEO L SUBD

Lot(s) 7 Block 4 Outlot _____ Division B ROBERTSON GEO L SUBD

I/We George W Rodenbusch on behalf of myself/ourselves as authorized agent for
myself affirm that on June 22, 2015,

hereby apply for a hearing before the Board of Adjustment for consideration to:

(check appropriate items below and state what portion of the Land Development Code you are seeking a variance from)

__ ERECT __ ATTACH __ COMPLETE REMODEL MAINTAIN

Request to reduce parking requirement from 4 spaces as required by Section 25-6-472 of Article 7
to 0 spaces.

in a mf-3 (Central East Austin)
(zoning district)

NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

6

REASONABLE USE:

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

Triplex cannot be maintained unless necessary variance is obtained. With no consideration for change, the building might have to be removed which would change the character, fabric and historic culture of the neighborhood. It is reasonable to expect to be able to maintain and remodel a triplex on an MF-3 zoned lot of adequate size especially since it will be allowed if and when the large oak tree dies.

HARDSHIP:

2. (a) The hardship for which the variance is requested is unique to the property in that:

There is a large heritage tree growing in the area that was previously used for parking on the dirt.

The house is over 100 years old and was not designed to accommodate new parking requirements.

- (b) The hardship is not general to the area in which the property is located because:

Few lots have trees of this size or homes of this age. Those that do should be maintained.

AREA CHARACTER:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

This house has been maintained and restored by owner to keep its original character. Allowing this

variance would ensure that this structure would not be replaced by one that did not fit with the area.

PARKING: (Additional criteria for parking variances only.)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonable require strict or literal interpretation and enforcement of the specific regulation because:

The existing tenants bike most places. They both live and work close. This is why they prefer

this location.

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

There is a surplus of reserved neighborhood street parking available surrounding the house.

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

There is nothing hazardous about the existing street parking and tenants will not be forced to park in front of other residences because of the 6 reserved spots in front of the property.

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

A condition of the variance should be that it is tied to multifamily use.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

Case Number: C15-2015-0127

Applicant: George W. Rodenbusch, (512) 468-6541

Address: 1014 E 8TH ST

To Whom It May Concern,

I am making a request for a parking variance but there is a longer backstory to why this is necessary. When I purchased this property two years ago, I thought it was a triplex. It was zoned MF-3 and had three separate units. At the time, I was unaware that there was another aspect of zoning: use. The house was built in 1910 and was probably a single family house at some point but had since been updated to be multi-family during the course of its life. When I purchased the house it was in disrepair and needed many updates to salvage it from tear down. I did foundation work, patched the drywall, replaced all the floors and kitchens, and painted the house to vastly improve the appearance and restore it to the beautiful house it was built to be.

After all my updates, I removed the three mailboxes that were previously affixed to the house and put out three streetside mailboxes. Immediately after doing so, someone called code enforcement and stated that I had a triplex when I should not. As it turned out, they were right because the "use" was wrong despite having the correct zoning. I have spent the last year trying to figure out how to grandfather this use but cannot find any evidence regarding the configuration of the house. It does not even show up in phone books. I have an email from the former owner stating that the third unit was added by Abraham Abraham who owned it before 1982 but I have no record of that adaptation of the house. I have also not been able to locate the prior deeds at the clerk's office. TCAD does show the "half floor" square footage but does not note that it is a separate unit.

After many trips to DAC, the final result was that to keep the unit I needed to file for a commercial permit to change the use. So, I attempted to do so by starting with a site plan exemption. However, the site plan exemption was denied due to a lack of parking. When I purchased the house, there were two main parking areas but neither had a curb cut. There was a parking area in front of the house next to the tree that was serviced by an asphalt drive that someone had poured to create access and then there was a parking spot in the back that did not even have an asphalt curb. The asphalt curb in front has since been removed by the city. I did discover a curb cut on the east side of the house that was not on the survey but it leads to a very small parking spot that is barely usable.

The main issue with installing parking is the very large oak in the front of the property. The critical root zone of this oak covers almost all of the Waller side of the house where people previously parked and where there is enough room to add 3 or 4 commercial parking spots. The rear of the lot does not have enough space for a maneuvering lane to allow drivers to pull out head first as required in commercial/multifamily parking. I have included the first of many plans created in an attempt to install parking. This plan was ultimately rejected because of the large

Ug

tree in the front yard. After many iterations it was clear that we could not create even a single conforming commercial parking spot without endangering the tree.

Also, there is little or no practical need to install parking. As it is a corner lot, the house has 5 neighborhood reserved spots surrounding it. Those spots should easily serve the three units. A curb cut for new on-site parking would eliminate street parking and potentially create net zero (or negative) parking spots.

At the end of the day, my preference would be to grandfather this use but I have been told that is not an option without proof of the existence of the unit prior to the 80s. In an attempt to help code enforcement close their case while I work this out, I have terminated my lease the tenant in unit C and disassembled the kitchen. This is a shame because this was nice, urban housing for the young man living there and it was the difference for me between profit and loss. If I cannot restore this unit to rental, I will have to find a way to exit this property. Given the lot value, the next owner may tear it down to take advantage of the "best use" of the MF-3 zoning with townhouses. I purchased this house because I loved its appearance and character. I intended to live in the A unit but that did not work out because my family out grew it before the work was finished. I have put a lot of my personal labor in addition to my money into the house. I am proud of the current state of the house and would hate to let it go.

This variance represents the first of many steps to get through the commercial permitting process for this property. I intend to update the units as necessary to meet commercial requirements. I do not know what those requirements are yet because I have not made it through the site plan stage yet. Thanks for your time and your consideration.

Do you know if there is an Extertal entrance at that time?

Will

On Sep 3, 2015, at 12:29 PM, Angelica Saldana <asaldana@employers.com> wrote:

Hello Will,

Those stairs were already there when my mother bought the house around 80's.

I believe the house was 2 a story home at one time but the previous owner, Abraham Abraham divided the home as it is now.
A title search might have original pictures of the property.

I hope this helps.

Angelica

Hi Angelica,

Hope you are doing well. Do you happen to know approximately what year the upstairs unit was built or lived in? I know the utilities were never separated but the city is looking for a rough date for when the stairs went in. They are not looking to blame or fine anyone. They are just trying to eliminate the option of grandfathering that unit and I do not have any date to give them. Could you guess a year when that happened? That way I can move onto other remedies like a building permit.

Will

WHAT IS TRANSIT ORIENTED DEVELOPMENT (TOD)?

TOD is a strategy available to help manage growth and improve the quality of life in Central Texas. TOD provides communities with an alternative to low-density suburban sprawl and automobile-dependent land use patterns.

TOD seeks to align transit investments with a community's vision for how it wants to grow, creating "livable" mixed-use, ~~denser, walkable~~ "transit villages." A successful TOD will reinforce both the community and the transit system.

In general, people living and working in TODs are more likely to walk, use transit, and own fewer cars. TOD households are twice as likely to not own a car and own roughly half as many cars as the "average" household. At an individual station, TOD can increase ridership by 20 to 40 percent and even more significantly at a regional level. People who live in a TOD are five times more likely to commute by transit than other residents. Locations next to transit can enjoy increases in land values over 50 percent in comparison to locations away from transit stops.

"Transit Oriented Development (TOD) is moderate to higher density development, located within an easy walk of a major transit stop, generally with a mix of residential, employment and shopping opportunities designed for pedestrians without excluding the auto. TOD can be new construction or redevelopment of one or more buildings whose design and orientation facilitate transit use."

**California Department of Transportation TOD Study
Technical Advisory Committee, January 2002.**

TOD DESIGN PRINCIPLES

The City of Austin Neighborhood Planning and Zoning Department prepared a TOD Guidebook to create a shared understanding of TOD and also to identify the major design principles and factors for success. Transit-oriented development may be summarized by using four key principles, which define the essential characteristics of all successful TODs:

1. **Greater density than community average**
2. **A mix of uses**
3. **Quality pedestrian environment**
4. **A defined center**

These four principles directly influence the land use, circulation, and design concepts of the Austin station area planning as well as the Regulating Plan elements that support it.

A common thread running through the TOD principles is the importance of establishing a unique neighborhood identity that is memorable. Improvements in public spaces, ranging from civic buildings, plazas, and streets to street signs, light fixtures and standards, specific street tree species, and pedestrian area paving materials can be used to create a unique sense of place for different city neighborhoods. Austin has many historic and emerging areas that are known for their physical character and design sensibilities. The TOD is intended to enhance the character of the overall area and the neighborhood plans that the Plaza Saltillo Station Area is a part of will be very informative in this regard.

1. Orenco Station. Hillsboro, OR
 2. Addison Circle. Dallas, TX
 3. Biscayne Blvd. Miami, FL

1. Greater Density than the Community Average

A key ingredient for walkable communities and support for transit is having sufficient residential densities to reduce walking distances between residences and other destinations, including commercial services, schools, parks, and transit. The following elements contribute to appropriate density for transit supportive land uses:

- Densities that are higher than the community norm are located within $\frac{1}{4}$ to $\frac{1}{2}$ mile of transit.
- Structured parking is used rather than surface lots in higher density areas.
- Site design for major projects allows for the intensification of densities over time.

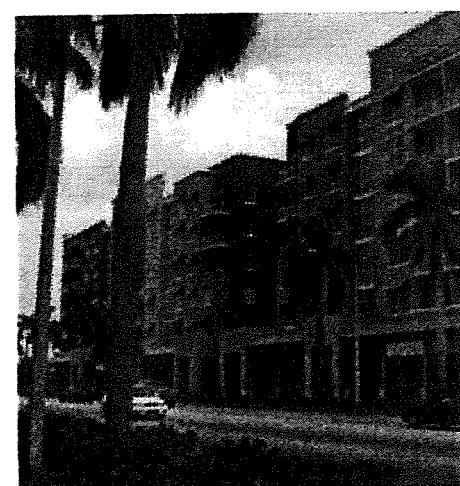

Although one may read about desired density numbers based on ridership levels needed to support certain types of transit service, there is not one-standard density level appropriate and suitable for TOD. What is critical is that the development and transit are linked and that it is convenient and safe for pedestrians to move throughout the TOD. A very dense yet poorly designed development is not a successful TOD.

AN ORDINANCE REZONING AND CHANGING THE ZONING MAP TO ADD A NEIGHBORHOOD PLAN COMBINING DISTRICT TO THE BASE ZONING DISTRICTS ON APPROXIMATELY 618.9 ACRES OF LAND GENERALLY KNOWN AS THE CENTRAL EAST AUSTIN NEIGHBORHOOD PLAN AREA ("CEA") AND TO CHANGE THE BASE ZONING DISTRICTS ON 134 TRACTS OF LAND IN THE CEA.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to add a neighborhood plan (NP) combining district to each base zoning district within the property and to change the base zoning districts on 134 tracts of land within the property described in Files C14-01-0148, as follows:

Approximately 618.9 acres of land in the City of Austin, more particularly described and identified in the attached Exhibit "A", (the "Property"), save and except the properties known as 2314 East 7th Street and 811 East 13th Street,

generally known as the Central East Austin Neighborhood Plan (NP) combining district, locally known as the property bounded by Martin Luther King Boulevard on the north, Chicon Street and Northwestern Street on the East, IH-35 on the west and 7th Street on the south, in the City of Austin, Travis County, Texas, and generally identified in the map attached as Exhibits "B-1 and B-2".

PART 2. The base zoning districts for the 134 tracts of land are changed from family residence (SF-3) district, family residence-historic (SF-3-H) combining district, multifamily residence medium density (MF-3) district, multifamily residence moderate-high density (MF-4) district, neighborhood commercial (LR) district, neighborhood commercial-historic (LR-H) combining district, community commercial (GR) district, community commercial-mixed use-conditional overlay (GR-MU-CO) combining district, limited office (LO) district, limited office-historic (LO-H) combining district, general office (GO) district, general office-historic-conditional overlay (GO-H-CO) combining district, general commercial services (CS) district, commercial-liquor sales (CS-1) district, commercial-liquor sales-conditional overlay (CS-1-CO) combining district, limited industrial services (LI) district, and public (P) district to family residence neighborhood plan (SF-3-NP) combining district, family residence-historic-neighborhood plan (SF-3-H-NP) combining district, multifamily residence low density neighborhood plan (MF-2-NP) combining district, multifamily residence moderate high density neighborhood plan (MF-4-NP) combining district, limited office-mixed use-neighborhood plan (LO-MU-NP)

23

combining district, limited office-mixed use-historic-neighborhood plan (LO-MU-H-NP) combining district, general office-conditional overlay-neighborhood plan (GO-CO-NP) combining district, general office-mixed use-neighborhood plan (GO-MU-NP) combining district, general office-mixed use-historic-conditional overlay-neighborhood plan (GO-MU-H-CO-NP) combining district, neighborhood commercial-mixed use-neighborhood plan (LR-MU-NP) combining district, neighborhood commercial-mixed use-historic-neighborhood plan (LR-MU-H-NP) combining district, community commercial-mixed use-conditional overlay-neighborhood plan (GR-MU-CO-NP) combining district, community commercial-mixed use-historic-conditional overlay-neighborhood plan (GR-MU-H-CO-NP) combining district, general commercial services-mixed use-conditional overlay-neighborhood plan (CS-MU-CO-NP) combining district, commercial-liquor sales-mixed use-conditional overlay-neighborhood plan (CS-1-MU-CO-NP) combining district, limited industrial services-conditional overlay-neighborhood plan (LI-CO-NP) combining district, public-historic-neighborhood plan (P-H-NP) combining district, as more particularly described and identified in the chart below.

Subject: 1014 E. 8th Board of Adjustment Postponement

11/3/16

Hi Leane

I would like to request to postpone to 1/11/16 to work more with the neighborhood council on coming to an agreement.

Will

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or

- appearing and speaking for the record at the public hearing;

and,

- occupies a primary residence that is within 500 feet of the subject property or proposed development;

- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Comments: We oppose this application for the reasons stated in the letter from Mark Rogers, Secretary of the Neighborhood Association.
It appears that the owner is trying to obtain retroactive approval of an unacceptable use - renting a duplex as a triplex. This should not be permitted.

Note: all comments received will become part of the public record of this case. If you use this form to comment, it may be returned by noon the day of the hearing to comments received after noon may not be seen by the Board at this hearing.

Re: Opposition to C15-2015-0127—1014 East 8th Street

Dear Board of Adjustment,

On September 28, 2015, the board of directors of the Organization of Central East Austin Neighborhoods (OCEAN), which serves as the neighborhood plan/contact team for Central East Austin, voted 10-0 to oppose the above-referenced request to reduce the number of required parking spaces for a triplex from 4 to 0. We share the concerns raised in the position letter by our member neighborhood association, the Guadalupe Association for an Improved Neighborhood. Single-Family was the Existing Use when the City adopted the Central East Austin Neighborhood Plan in 2001, and the Future Land Use Map designation is Single-Family as well. A “change in use” to triplex is not in accordance with the neighborhood plan, and we respectfully request that you deny the request for variance.

Thank you for your service to the city and your attention to this matter.

Sincerely,

Nathan Jones

President, Organization of Central East Austin Neighborhoods

Guadalupe Association for an Improved Neighborhood- GAIN

1111 East 8th Street - Austin, Texas 78702

October 6, 2015

Re: GAIN opposition to variance for 1014 East 8th Street, to reduce required parking from 4 spaces for a triplex to 0 spaces. Case # C15-2015-0127

Dear Board of Adjustments:

On September 26, 2015, at a regular meeting of the Guadalupe Association for an Improved Neighborhood, GAIN, the membership voted unanimously, with a vote of 22 in favor, 0 opposed, and 1 abstaining, to oppose the variance requested for 1014 East 8th Street, to reduce the required parking of 4 spaces for a triplex to 0 spaces, Case # C15-2015-0127.

The owner of 1014 E. 8th, Will Rodenbusch, wants a "change in use" from single-family duplex to multi-family triplex. However, shortly after acquiring the property, he got permits to work on the structure as a duplex. City staff reports that all permits on record for the property are for a duplex. The owner eventually obtained a certificate of occupancy for the remodeled house as a duplex. Nobody living in the neighborhood has indicated they remember the property used for anything other than a duplex.

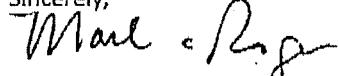

After obtaining the certificate of occupancy for a duplex, the owner then leased the property as a triplex, with 3 separate units, without having met the building code and other requirements for a multi-family triplex. Early this year, the owner applied to the City for a change in use from duplex to triplex. This was denied. Nevertheless, during the process regarding a change in use, the owner determined he could not provide the parking spaces and meet City code for triplex use, and he now has requested this variance. When asked if he intended to make the necessary changes to the structure to have it comply with multi-family building code, the owner indicated to a GAIN representative that he does not intend to make the necessary improvements for a triplex.

GAIN opposes the variance to reduce required parking and the associated change in use to triplex for the following reasons:

- Evidence suggests the property has been used previously as single-family home and as a duplex.
- The owner/applicant did significant work on the structure with permits required for a duplex.
- The Central East Austin Neighborhood Plan Future Land Use Map calls for single-family use.
- The size of the lot, approximately 6,050 square feet, and the fact that all adjacent uses are single-family, strongly suggest that single-family or duplex use at 1014 E. 8th is far more compatible than multi-family triplex.

GAIN respectfully requests that the Board of Adjustments deny this request for a variance.

Sincerely,

Mark C. Rogers, Secretary

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, **you are not required to attend**. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or

• appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Comments: Lot is not appropriate size or location for triplex. At less than 7,000 SF it is sub standard for the duplex. But it's okay that duplex use is "grandfathered".
It is surrounded by single family and cannot be properly developed as planned." -Faww

Comments: Opposed - The paving work is also early unnecessary. To grant a 14-Space variance would only worse things worse. The owner or developer should establish codes.
