Section 1: Applicant Statement

Street Address: 3338 Paisano Trail, Austin, Travis County, Texas 78745

Subdivision Legal Description:

7.28 acres out of the Theodore Bissell League in Travis County, as recorded in Document No. 2015038231 of the Official Public Records of Travis County, Texas.

Lot(s): _____ Block(s): _____

Outlot: _____ Division: _____

Zoning District: SF-2

I/We Nikelle Meade on behalf of myself/ourselves as
authorized agent for Mariposa Real Estate, LLC affirm that on
Month January, Day Select, Year 2016, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☒ Erect ☐ Attach ☐ Complete ☐ Remodel ☐ Maintain ☐ Other: _____

Type of Structure: A private primary and secondary school.

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

Section 25-2-832(a) of the City Code, which requires that a primary or secondary private school must be located on a street that has a paved width of at least 40 feet from the site to where it connects with another street that has a paved width of at least 40 feet.

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The property cannot be used as a private school without the variance. A private school will serve the nearby residential properties. The property is not suitable for single-family use (it is too large and surrounded by vacant land), or religious assembly use (there is a church nextdoor), or daycare use (the property is too large) or, group home or family home uses (there is not a need for these uses in the area).

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

The property is located on a neighborhood street with a pavement width of ~17 feet, whereas most other schools in the city are located on larger streets and arterials. Schools are required to have larger street widths because of emergency access and maneuvering radii of school buses, but there is sufficient fire access to the property and the school does not use buses.

Additionally, unlike most properties on streets with 40' of paved width in this area, this property is surrounded by trees and is close to nature, which is safer and more ideal for school children than being located on the other high-traffic wider streets in the area.

b) The hardship is not general to the area in which the property is located because:

The property is the only property in the area that does not meet the street width requirement because the street width requirement applies only to schools and most other properties have been developed as single family uses or churches, and there is not another school in the area that is not located on a street with a pavement width of at least 40'.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The variance will allow the property to be developed as a private school, which is consistent with the surrounding uses. The only developed use adjacent to the property is a church. The remaining surrounding properties are undeveloped, and the property to the east will remain undeveloped because it is part of the Stephenson Nature Preserve. The closest developed properties are single family lots, which can benefit from the school.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

m2
4

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

Section 3: Applicant Certificate

I affirm that my statements contained in the complete application are true and correct to the best of my knowledge and belief.

Applicant Signature:  Date: 1/15/16

Applicant Name (typed or printed): Nikelle Meade, Husch Blackwell LLP

Applicant Mailing Address: 111 Congress Avenue, Suite 1400

To Whom it May Concern:

Both of my sons go to Mariposa Montessori. My 6 year-old has been attending Mariposa since he's been 1.5 years old. Sending the kids to Mariposa is a financial burden for my family but we gladly cut from trips and conveniences just so the kids can get the education, love and attention they do at this amazing place. Mariposa is more than a school. It is an integral part of South Austin. Many of our friends are now on the waiting list to get into this school. One visit and they sense what we all know is special about this place. There is very little pretending, busy work and veneer and much genuineness, authenticity, attention to detail, dedication and love. We are all excited about the new campus because we know it will allow for greater access to nature and a calmer, more beautiful learning and teaching environment. I don't think that the Stephenson Nature Preserve could end up with a better neighbor.

I am very hopeful that the city will grant Mariposa Montessori School the permit needed to expand into the space they need to take their excellence to the next level.

Sincerely,

Banafsheh Madaninejad, PhD
Visiting Assistant Professor of Religion
Southwestern University
Georgetown, TX

To whom it may concern,

I am a long time parent at Mariposa Montessori School. Both of my sons have attended Mariposa for several years and it has been an amazing experience. We also live in the neighborhood. This South Austin neighborhood has benefitted, and will continue to benefit, from what Mariposa has to offer the community. We were thrilled to find out that Mariposa would be expanding and building a new campus on Paisano Trail. I wholeheartedly support this project! Please feel free to contact me with questions that you may have.

With Gratitude,

Whitney O'Baugh

Re: Construction of Mariposa Montessori School in South Austin

Date: February 11 2016

To Whom It May Concern:

Our son attends Mariposa Montessori at the Brodie Lane location presently. We waited for over a year to get our son into the school because it is in our estimation the best place for children in South Austin. The staff is loving and professional. The programs offered are exceptional and executed with caring and diligence and our son has benefited greatly from his time at Mariposa.

The Paisano Trail location is perfect for the future Mariposa to grow and continue to serve the South Austin community of parents and children. As South Austin residents for the past 10 years we have seen a lot of change and growth in our area and a new Mariposa campus will only contribute to a flourishing and diverse part of Austin.

South Austin and Austin in general need as many childcare facilities/options as possible. Our town is growing so rapidly and it's no secret that it's a great place to raise a family. It is necessary for a progressive and visionary city like Austin to make as much room as possible for a place like Mariposa Montessori to grow, thrive and flourish. It is organizations like Mariposa and people like John and Whitney Falcon and the ENTIRE Mariposa staff that make Austin such a great place to live.

Thanks in advance for your attention to this matter.

Best regards,

Nathan and Brandi Wyman

To Whom it May Concern:

We are writing to voice our strong support for Mariposa Montessori School's new campus on Paisano Trail. We live fairly close-by, off of Brodie Lane further south and we would love for the new campus to be built in this neighborhood. Our children have gone to Mariposa for several years, and we have nothing but great things to say about the school and the staff. The owners, John and Whitney Falcon, have been wonderful, warm, professional, and respectful. We would love to see the school grow and thrive in its new location on Paisano Trail.

Sincerely,

Sara & Chris Kocek
11508 Silmarillion Trail, Austin

To Whom it May Concern:

I live in the general area near the proposed Mariposa Montessori campus on Paisano. Both of my sons go to Mariposa. Mariposa is an asset to the Brodie area, Austin, and Texas. It instills a powerful work ethic, self-motivation, a love for learning, and the teachers and staff pour love into the children. It is my firm believe that Mariposa Montessori is more than simply a school. It is now and integral part of our community that supports and strengthens the community. Not only do I support the new Paisano campus, I have invested money towards that ends and made a habit of paying tuition early to support the school. The new campus will allow for better integrated services, more opportunities for the older children to demonstrate leadership, more opportunities for the younger children to be inspired by the achievements of the older students, and it will allow for improved facilities in a beautiful environment. In addition the school's ethic of environmental awareness and concern will lend itself greatly to the Stephenson Nature Preserve and Outdoor Education Center. I don't think that the Stephenson Nature Preserve could end up with a better neighbor.

I am very hopeful that the city will grant Mariposa Montessori School, a critically vital piece of South Austin's education institutions, all the necessary permit to complete the construction of the new Paisano campus!

Zion Rest

Missionary Baptist Church

3/24

January 21, 2016

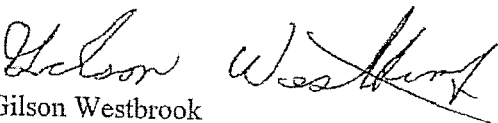

City of Austin Development Review Department:

Zion Rest Baptist Church (ZRMBC), located on 1.54 acres at 3326 Paisano Trail supports Mariposa Montessori in obtaining a conditional use permit for Private Primary and Secondary Education Facilities and Daycare Services at 3338 Paisano Trail, Austin, Texas 78745.

ZRMBC also supports the variance to the required road way access for fire fighting vehicles entering the property, as required by the City of Austin Fire Code and Fire Protection Criteria Manual.

The proposed use is on the property located immediately adjacent to our church property. We support the permit as long as no portion of the school facilities will exceed 35 feet in height and the development will not seek any parking variances. Thank you for your kind attention to this matter.

With Regards,

Gilson Westbrook
