Section 1: Applicant Statement

Street Address: 2600 Sol Wilson Avenue

Subdivision Legal Description:

JJ & B Investment, LLC, a Texas Limited Liability Company, being owners of that certain 0.14 acre tract of land situated in the City of Austin, Travis County Texas - Instrum. No. 2015107649

Lot(s): 1 Block(s): _____

Outlot: _____ Division: _____

Zoning District: SF-3-NP

I/We Miguel Gonzales on behalf of myself/ourselves as
authorized agent for JJ & B Investment, LLC affirm that on
Month January, Day 22, Year 2016, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☐ Attach ☐ Complete ☐ Remodel ☐ Maintain ☒ Other: Lot Width

Type of Structure: Residential

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

minimum lot width requirements for SF-3 zoning.

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

the front lot width of the existing property is less than 50 feet (minimum under Zoning SF-3 - Residential) and cannot be increased due to adjacent existing developed lots.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

the front lot width is ±47 feet and the proposed conditions will not alter the lot's front width. The existing property is currently developed as residential and consists of two (2) unplatted lots. The owner would like to combine both of the lots (parcel numbers 198761 and 198751) and plat the property as one (1) lot.

b) The hardship is not general to the area in which the property is located because:

per City GIS information, the adjacent existing developed lots are less than 50 feet front width. Please refer to exhibit attached.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

adjacent lots, per City of Austin GIS, have less than 50 feet front lot width. Additionally, the property will not be altered or impair the use of adjacent conforming properties, and the lot front width will remain as is. Please refer to attached Existing and Proposed Plan Exhibit.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6 Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

m3
4

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

Not applicable

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

Not applicable

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

Not applicable

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Not applicable

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.
