**Subject:** Re: are there any BOA spots for Feb left? what is the deadline if so?

Thank you!

I'm going to request postponement of Rivercrest while we seek AE and Ch. 245 components, and the San Marcos St to February. The neighborhood association does not meet before the Jan Meeting and they (the NA) have indicated they would like to meet before we proceed to BOA.

Kind Regards,

David Cancialosi

**Subject:** Re: Lot 10-Blk D, Rivercrest Drive

Leane,

Please accept this email as formal request for postponement of Case# C15-2015-0171 at lot 10 Block D located on Rivercrest Dr. to the Jan 11, 2016 BOA Agenda.

Also, please note that the address listed on the current public notice is not correct. The notice lists "3505 Rivercrest Dr."

Not sure where this street number originated from, but it's not attached to lot 10 block D. Notice that my application reflects "lot 10 block D".

Lot 10 block D has no assigned numerical address since it's a virgin lot. I will work on that with addressing before the next hearing and apprise of you of necessary changes to the notice to accurately reflect the subject site.

Thank you.

*Please note: We're moving into our expanded office space and our phone lines are limited for the next 1-2 weeks. Email is the best form of communication for current or future projects. My cell phone is also available: 512-799-2401. Thank you.*

*Also note: I am out of the office Dec 14-Jan 4. I will be completely unavailable by phone or email during this time. I return to the office Jan 4, 2016. Please contact my Assistant by phone or email for immediate assistance. Thank you*

Kind Regards,

David Cancialosi

CITY OF AUSTIN  
APPLICATION TO BOARD OF ADJUSTMENT  
GENERAL VARIANCE/PARKING VARIANCE

WARNING: Filing of this appeal stops all affected construction activity.

PLEASE: APPLICATION MUST BE TYPED WITH ALL REQUESTED INFORMATION COMPLETED.

3006  
STREET ADDRESS: Rivercrest Drive, Austin, TX 78746

LEGAL DESCRIPTION: LOT 10 BLK D RIVERCREST ADDN SEC 2

I, Martha Jenkins, on behalf of myself affirm that on November 3, 2015, hereby apply for a hearing before the Board of Adjustment for consideration to:

(check appropriate items below and state what portion of the Land Development Code you are seeking a variance from)

ERECT  ATTACH  COMPLETE  REMODEL  MAINTAIN

15' Front setback in LA zoning to allow construction of new single family residence.

NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

VARIANCE FINDINGS:

I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

REASONABLE USE:

- The zoning regulations applicable to the property do not allow for a reasonable use because: the owner is proposing a new single family residence on a vacant lot. The original Rivercrest Section 2 lot has never been improved since date of plat approval in mid-1960's.

5/18

The roughly 16,000 SF lot is very steep, and although it has 100' of lot frontage in keeping with LA zoning standards, it is a substandard lot in terms of LA zoning minimum lot size.

The lot was designed to A /AA zoning standards which mimic SF-2 zoning standards. The city subsequently zoned the lot LA, which applied more rigorous performance standards. The owner is unable to reasonably develop the lot due to the strict application of LA zoning setback standards.

The applicant has provided documentation addressing LA zoning IC standards as they are not applicable to this site per COA decision on substantially similar lot in the same subdivision. Thus, the owner is seeking front setback reduction from 40' to 15' to allow a new single family residence.

**HARDSHIP:**

2. (a) The hardship for which the variance is requested is unique to the property in that; the Rivercrest Section 2 plat was approved prior to application of LA zoning. Although the lot is substandard to LA zoning lot size requirements, LA zoning was applied by the City of Austin. The lot is extremely steep as it has grades as steep as 600+% near the top (rear) of the lot. The lot also has a ROW access easement along the middle / rear portion of lot that prohibits any development within said easement. That easement prohibits the house from moving out of the 40' front setback.

(b) The hardship is not general to the area in which the property is located because: there are no known similar issues on vacant lots in the subdivision.

**AREA CHARACTER:**

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because: the proposed residence will be approximately 3,500 SF, will be 2-3 stories, and will be in keeping with the style of several homes found in the subdivision. The proposed front setback of 15' will be in keeping with many existing homes on the same side of the street.

**PARKING:** (Additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:
