Section 1: Applicant Statement

Street Address: 1309 E 7th Street

Subdivision Legal Description:

LOT 5 BLK 2 OLT 3 DIVISION A

Lot(s): 5 Block(s): 2

Outlot: 3 Division: A

Zoning District: TOD - NP (Central East Austin)

☐ We Fayez Kazi on behalf of ~~myself~~/ourselves as
authorized agent for Gino Troy of DGT Management, LLC affirm that on
Month March, Day 14, Year 2016, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☐ Attach ☐ Complete ☒ Remodel ☐ Maintain ☐ Other: _____

Type of Structure: Existing SF Home

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

LDC Section 25-6 Appendix A

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

This building was built in the early 1900s before there were any parking requirements. The building has history of previous non-residential use and the lack of parking has not created an apparent problem.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

There are critical root zones of three heritage trees in the backyard and two 17" pecan trees in the frontyard. There is limited opportunity to construct parking on this site. A single handicapped parking space and associated landing is able to be delineated between the root zones outside the half root zone.

b) The hardship is not general to the area in which the property is located because:

New redevelopment has had to comply with the parking requirements. Other properties that have not been redeveloped in the neighborhood do not have parking as currently required or have non-compliant parking.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The opportunity to remodel will allow the existing building and neighborhood character to be maintained - instead of a teardown and dull redevelopment.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

This is a small building that will not generate significant traffic and will serve the local neighborhood.

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

Street parking is not prohibited and can be used if necessary. There is ample street parking along Navasota north of E 7th and along E 6th East of Navasota.

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

There is ample alley access for emergency and service vehicles.

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Any change in the intended use would require that additional parking be provided or would result in additional parking variances.
