

HISTORIC LANDMARK COMMISSION

DEMOLITION AND RELOCATION PERMITS
HDP-2016-0260
1007 W. MARY STREET

PROPOSAL

Demolish a ca. 1931 house.

ARCHITECTURE

One-story, rectangular-plan, front-gabled frame bungalow with a central, partial-width, front-gabled independent porch on ornamental metal posts; single and paired 1:1 fenestration.

RESEARCH

The house appears to have been built around 1931 by N.A. Dawson, whose family developed large areas of South Austin, as a rental property, and the house has been a rent house for its entire existence. The first tenants were William J. and Viola Cloer, who lived here until around 1934. William Cloer was a house carpenter. There was a very high turnover of tenants from that time forward, with no occupants renting the house for more than a year or two. Tenants were generally blue-collar, including an electrician, an auto trimmer, a carpenter, a lineman, a machinist, a clerk at a drug store, a truck driver, a plumber, a book-keeper and his wife, who was a waitress, and in later years, students.

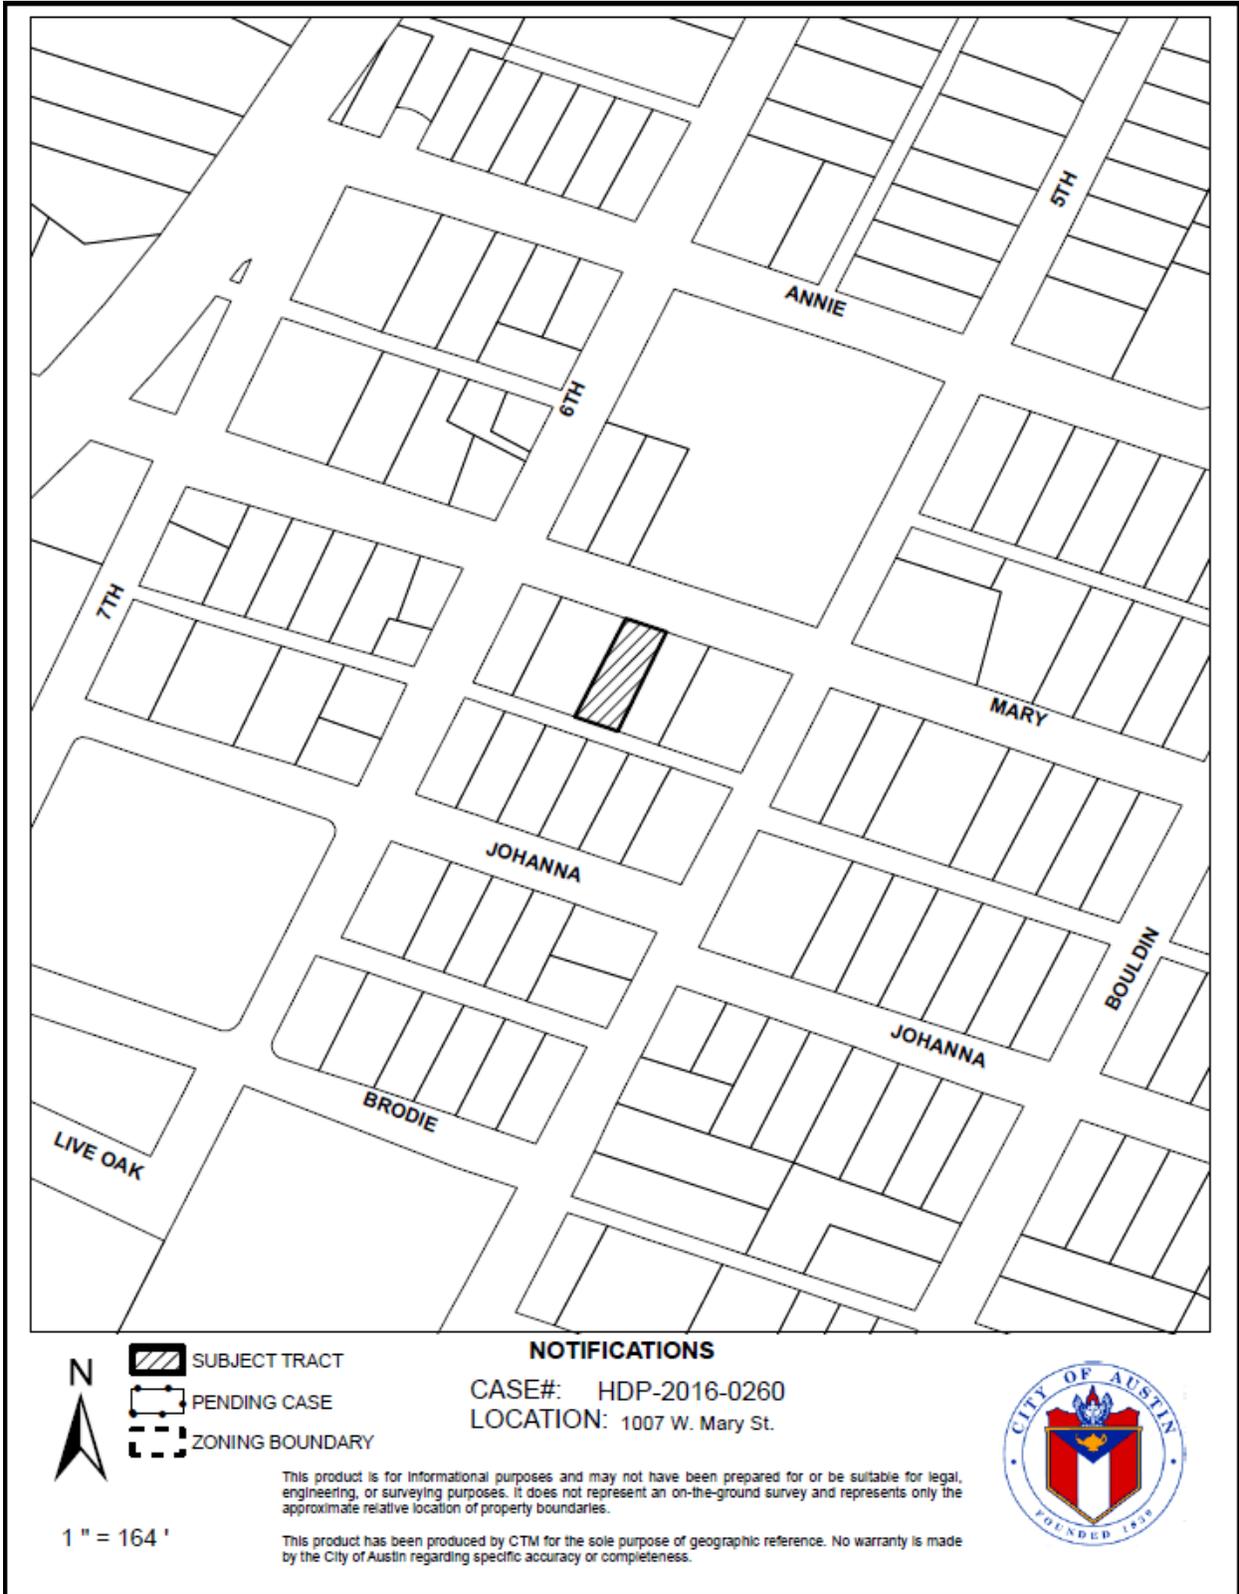

STAFF COMMENTS

The house is beyond the bounds of any City survey.

STAFF RECOMMENDATION

Encourage rehabilitation and adaptive re-use, but release the permit upon completion of a City of Austin Documentation Package, consisting of photographs of all elevations, a dimensioned sketch plan, and a narrative history, for archiving at the Austin History Center. The house has neither the architectural nor the historical significance to warrant individual designation as a historic landmark.
