July 18, 2016 – Recommended by the Electric Utility Commission on a 10-0 vote with Commissioner Ferchill absent.

Related Items:

MBE / WBE:

The contract was awarded in compliance with City Code Chapter 2-9C Minority Owned and Women Owned Business Enterprise Procurement Program. No subcontracting opportunities were identified; therefore, no goals were established.

## Additional Backup Information

The contract provides for a complete water chemical treatment program, including the equipment, supplies, and maintenance for the cooling towers, chillers, demineralizers, and boilers at various City locations. The water treatment program provides treatment, monitoring, testing, and other functions including chemical treatment for reverse osmosis systems, cooling tower water systems, chilled water loops, hot water loops, clarifiers, and low and high pressure boilers. This testing and treatment is required to treat these systems in order to meet operational, maintenance, and warranty requirements, as well as Environmental Protection Agency, Texas Commission on Environmental Quality, and Austin Water discharge permit requirements.

The current contract expires on August 31, 2016. A procurement to obtain a replacement contract is currently in progress. The requested additional time and authorization is needed to ensure continuation of these services while awarding and transitioning to the new contract.
